

The image features a series of nested, irregular blobs in various shades of green, ranging from a light, almost white green to a dark, forest green. The blobs are roughly square-shaped but have rounded, irregular edges. A white rectangular text box is centered within the innermost, lightest green blob. The text box contains the title "100 random blobs" in a large, black, sans-serif font, and below it, the date and author "September the 29th, 2015 — Vasilis van Gemert" in a smaller, black, sans-serif font.

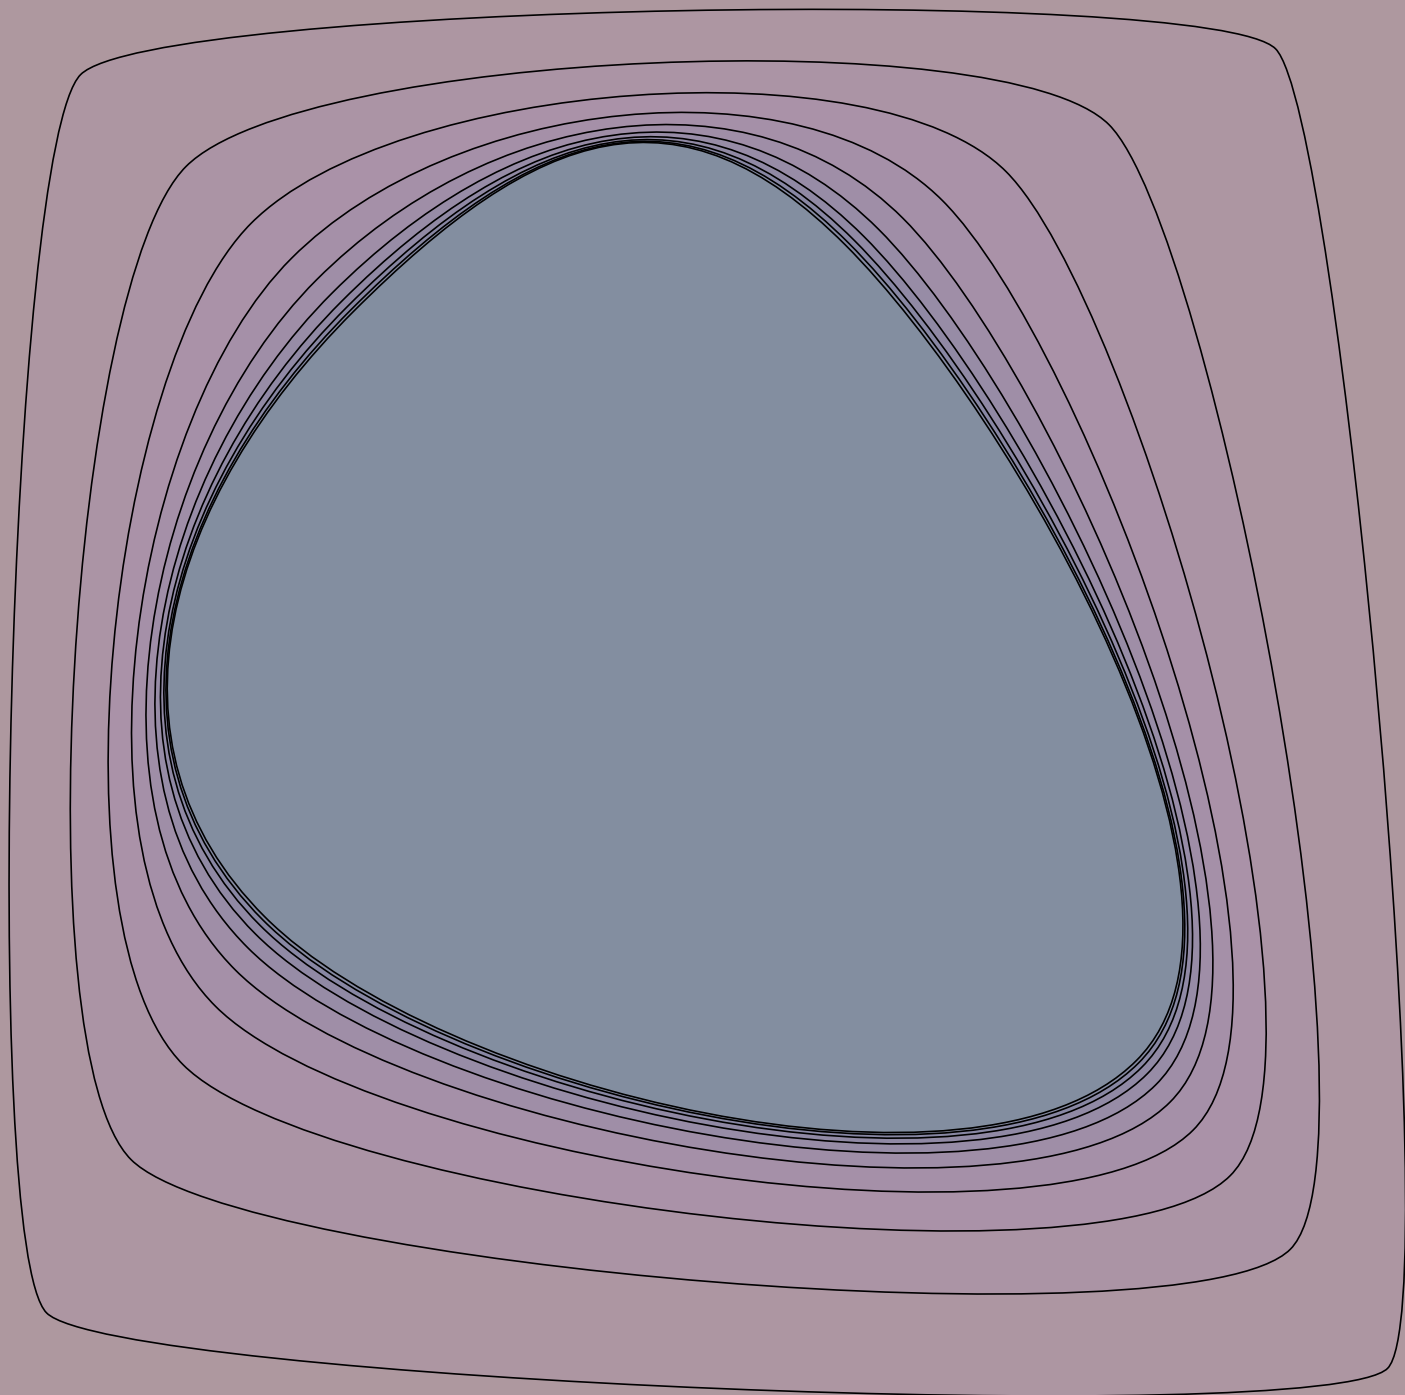

100 random blobs

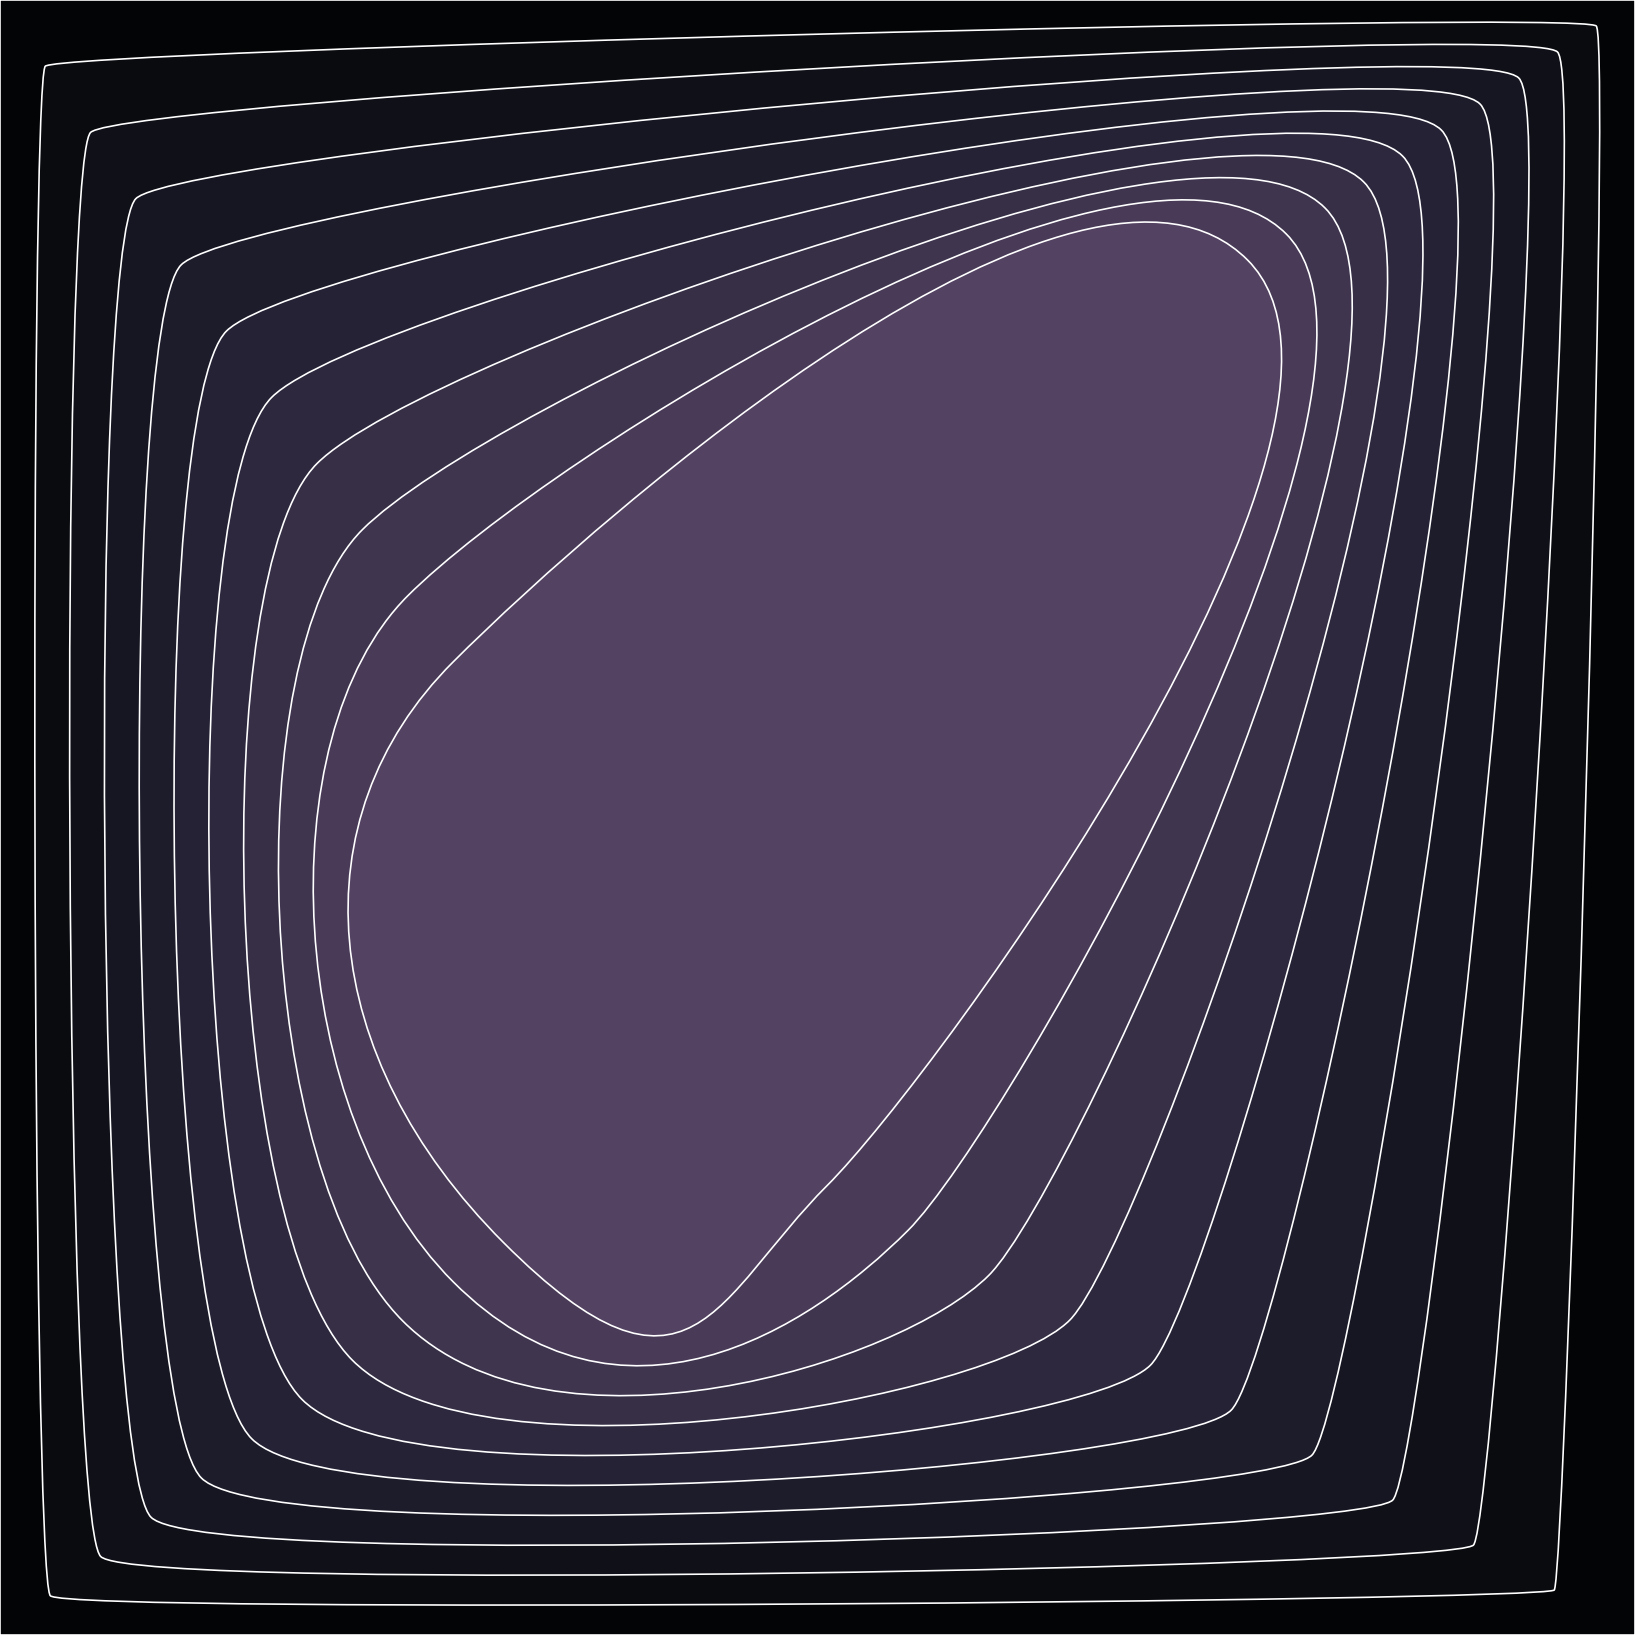

September the 29th, 2015 — Vasilis van Gemert

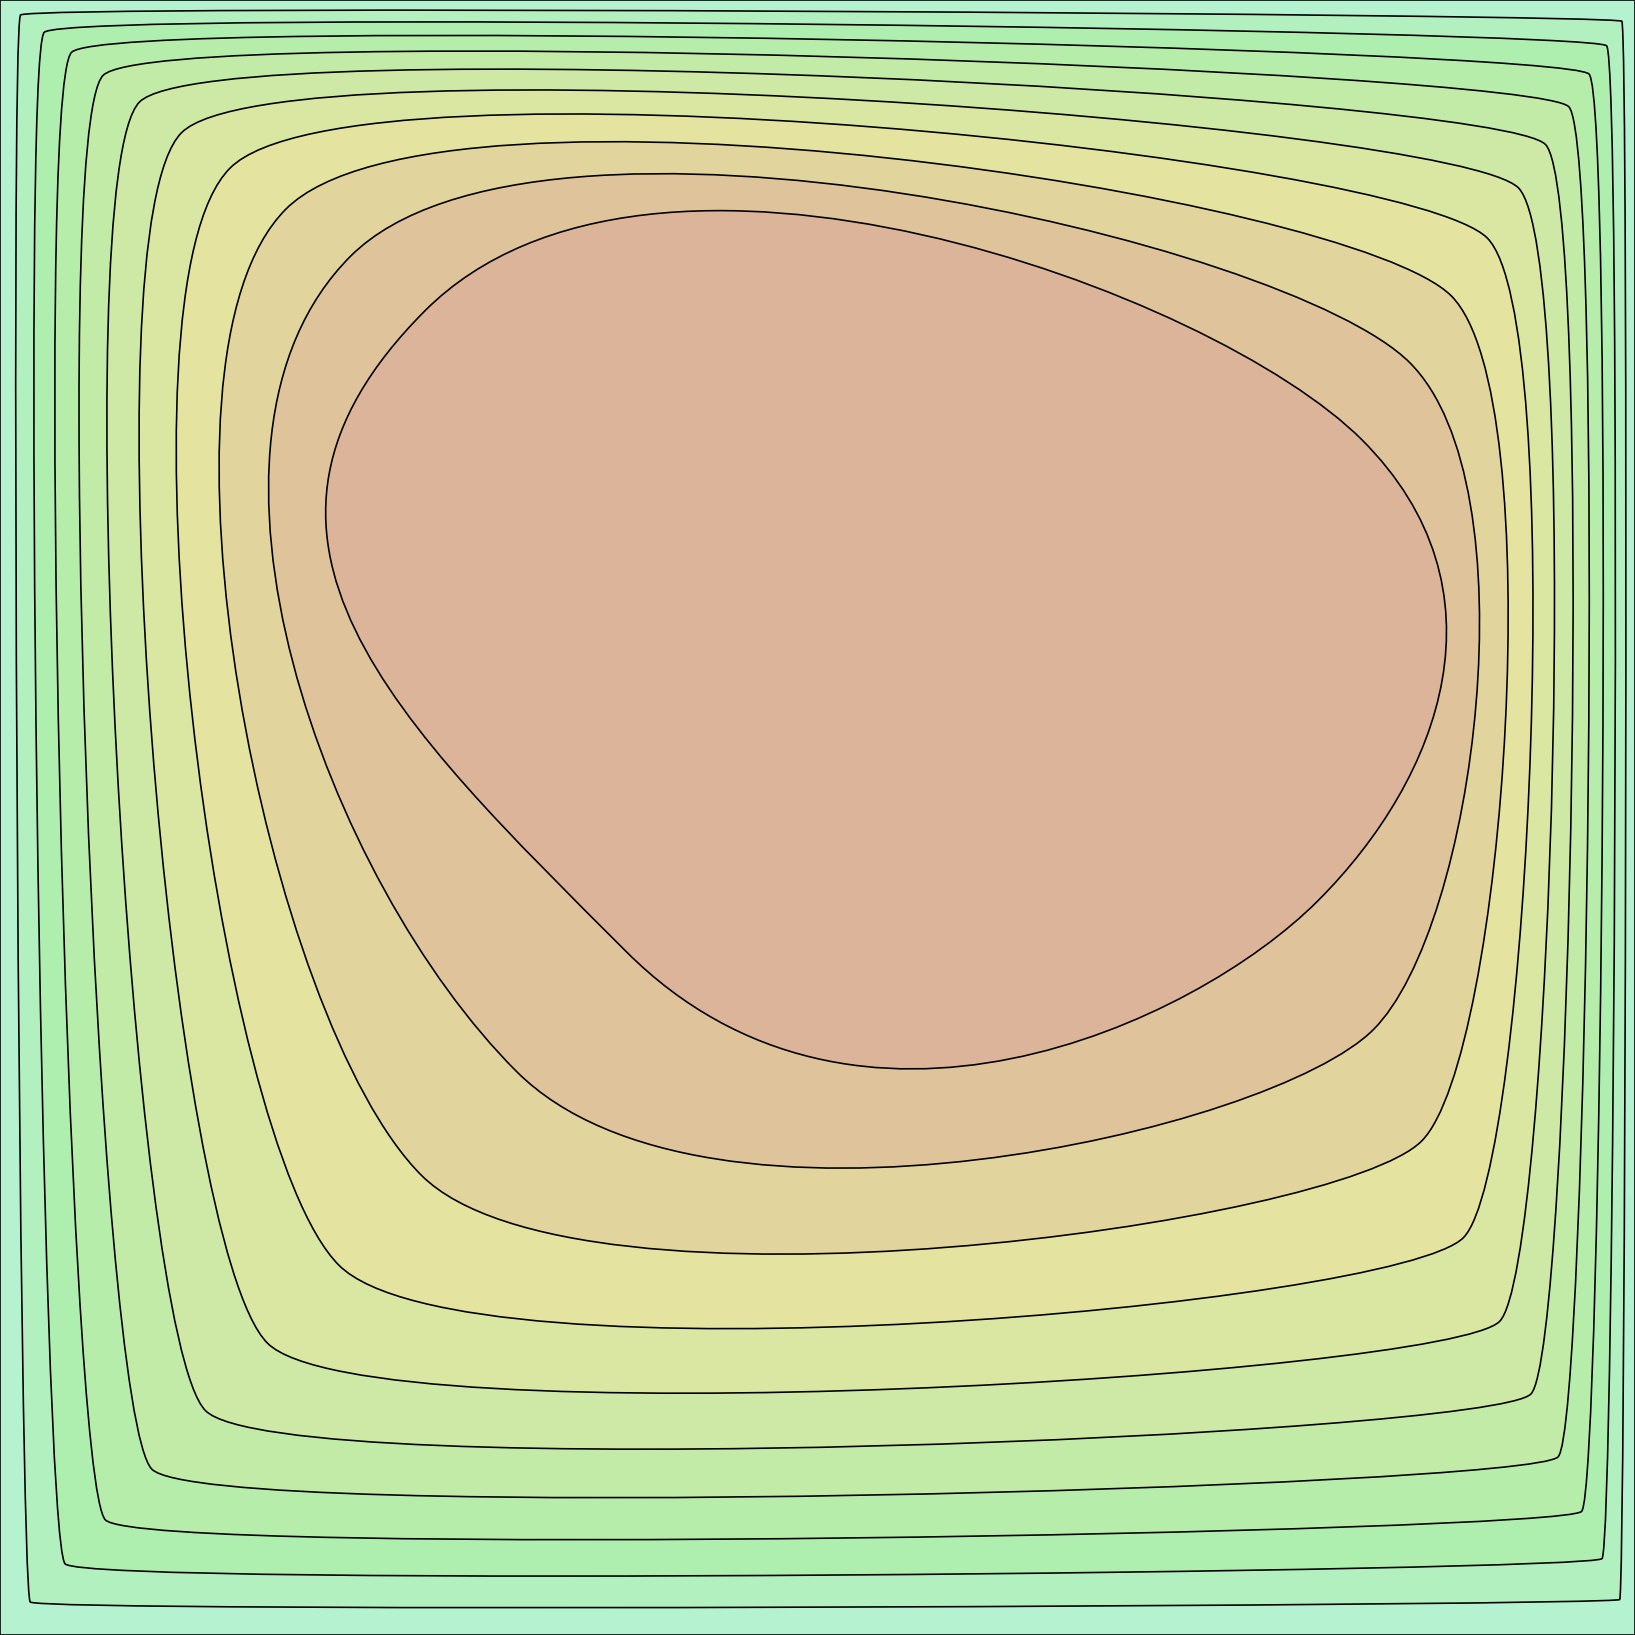

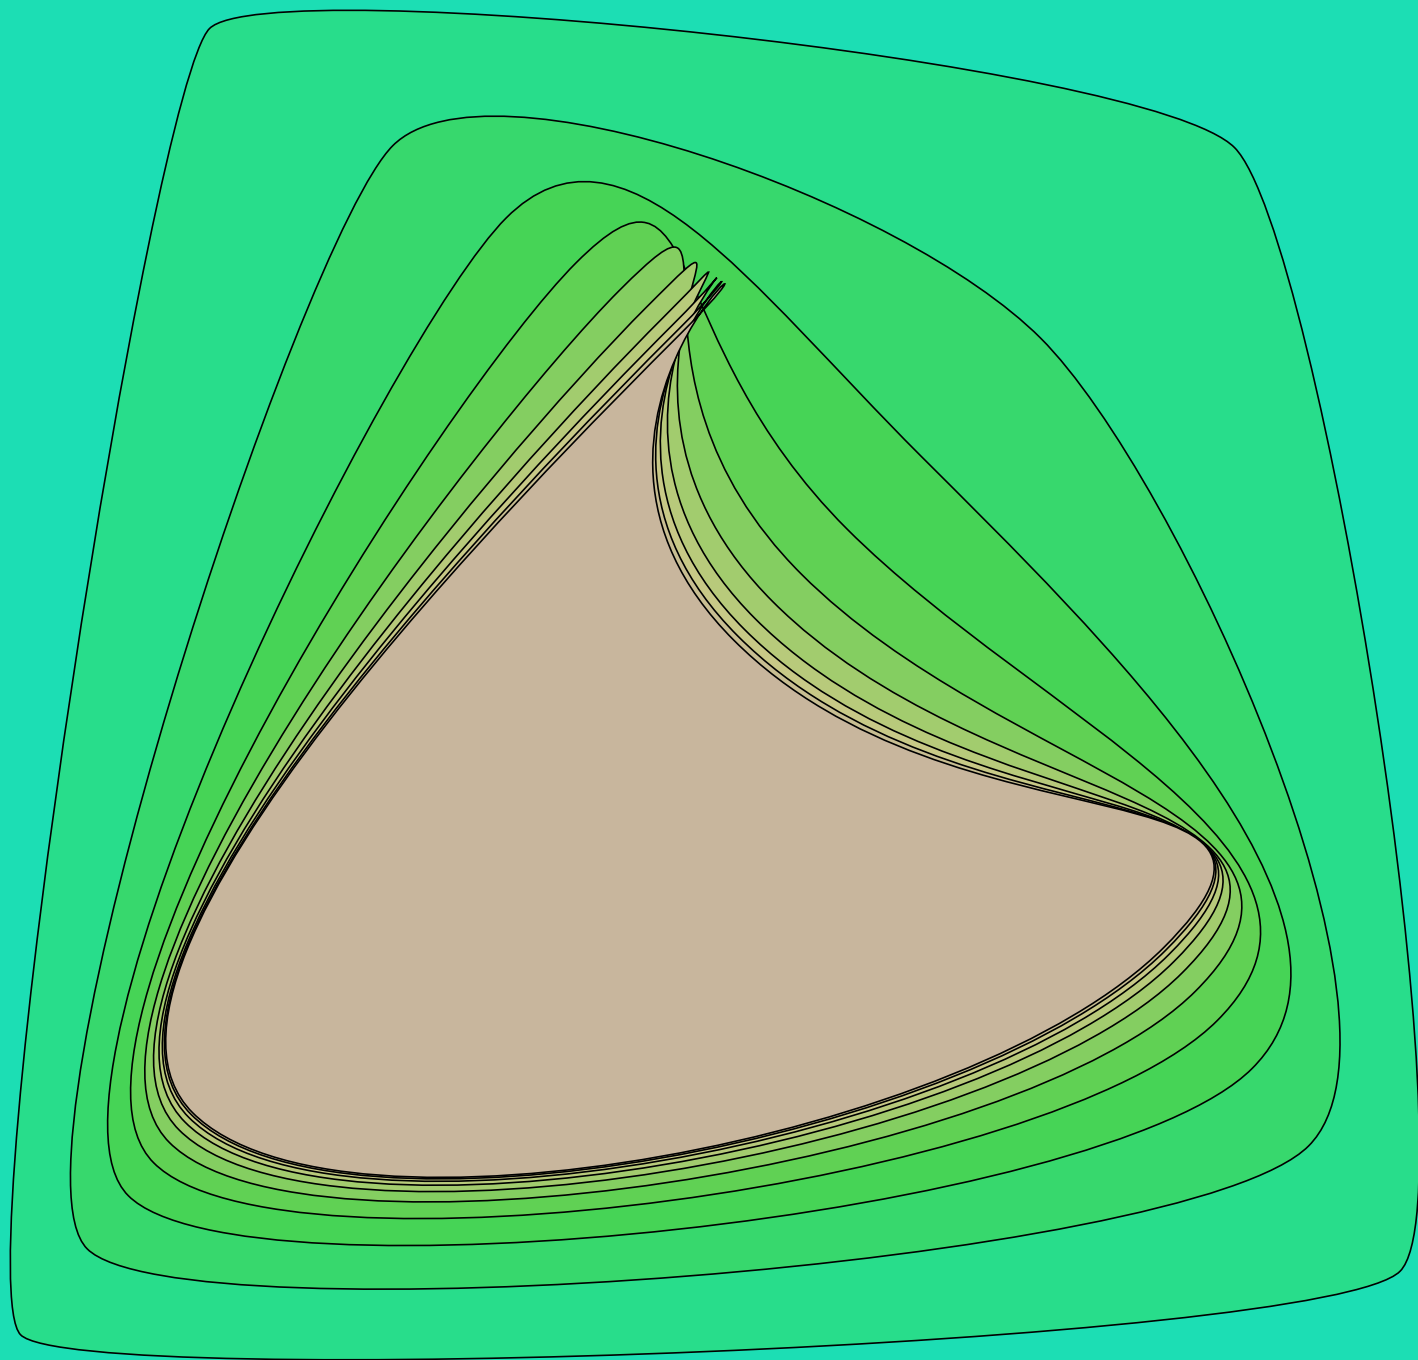

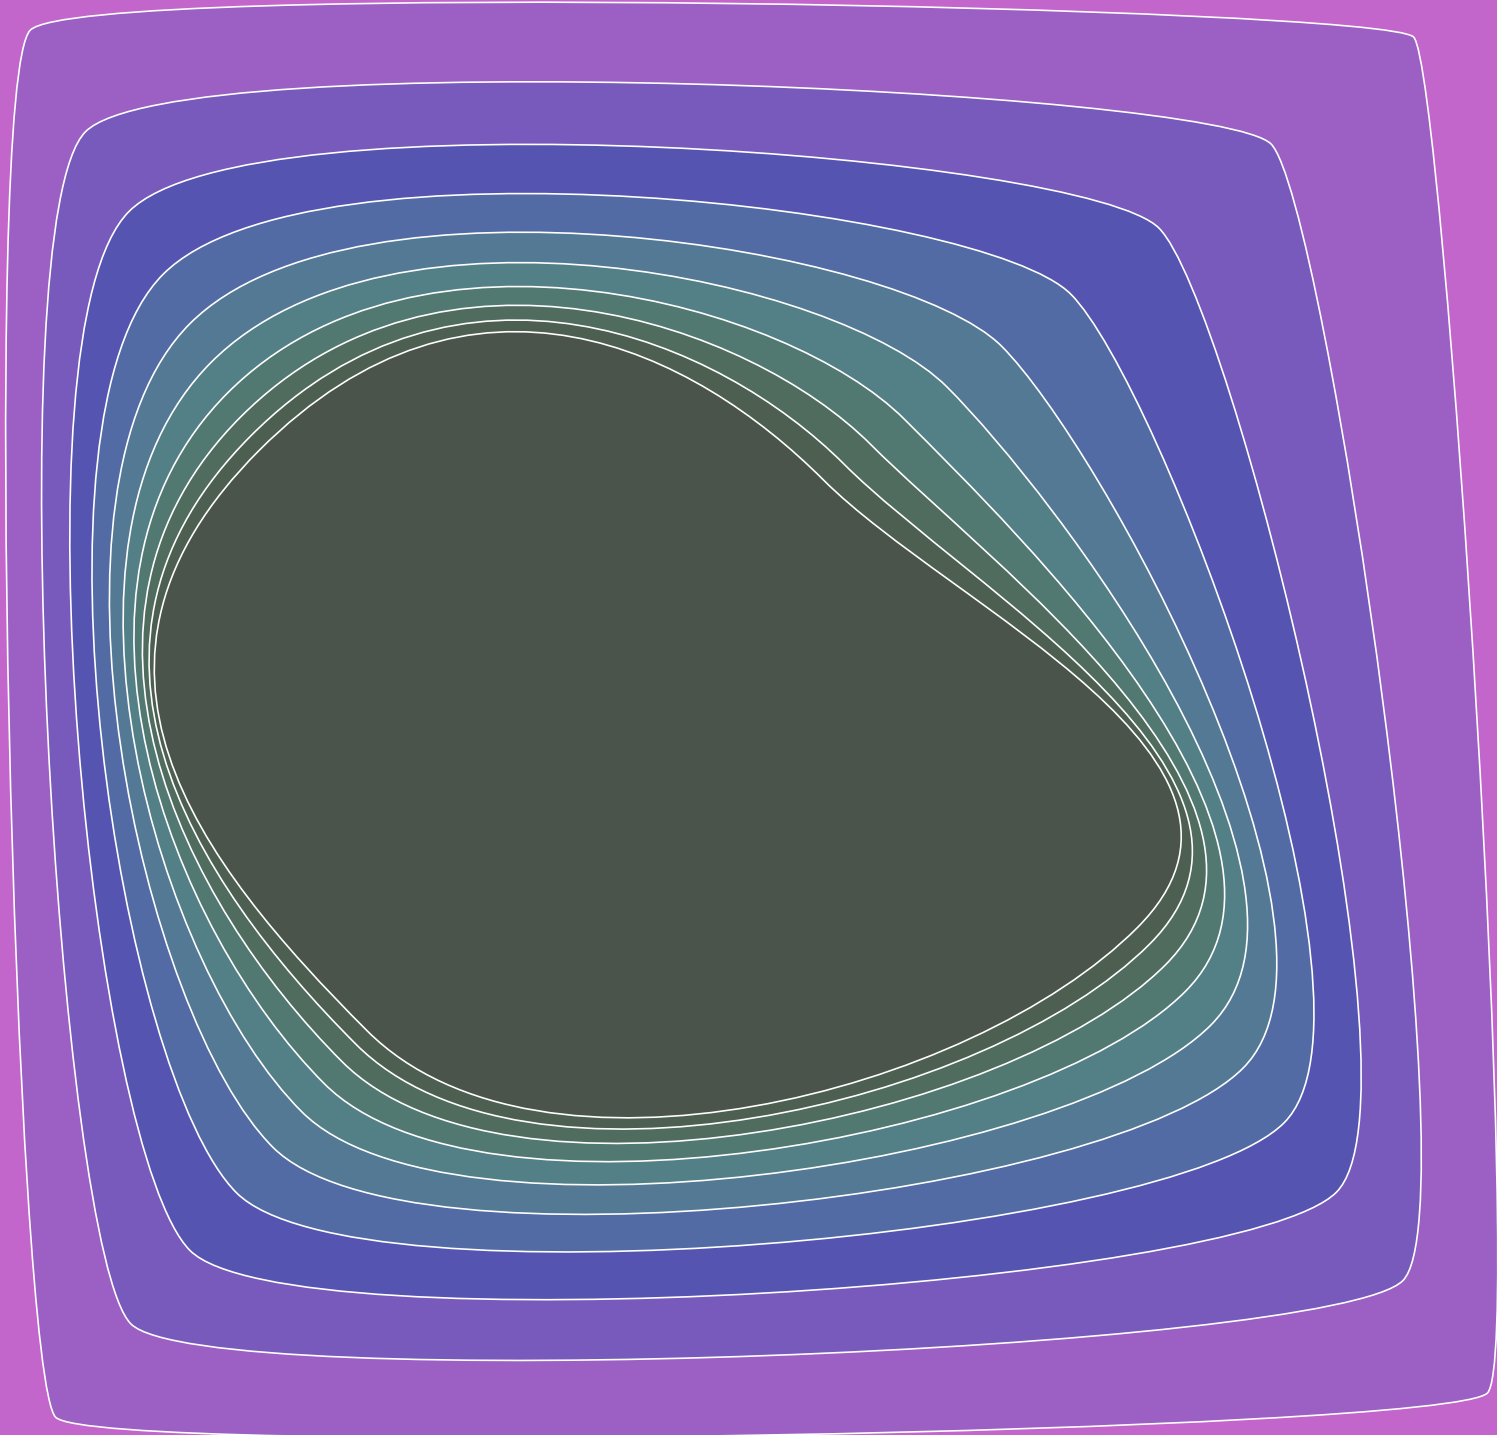

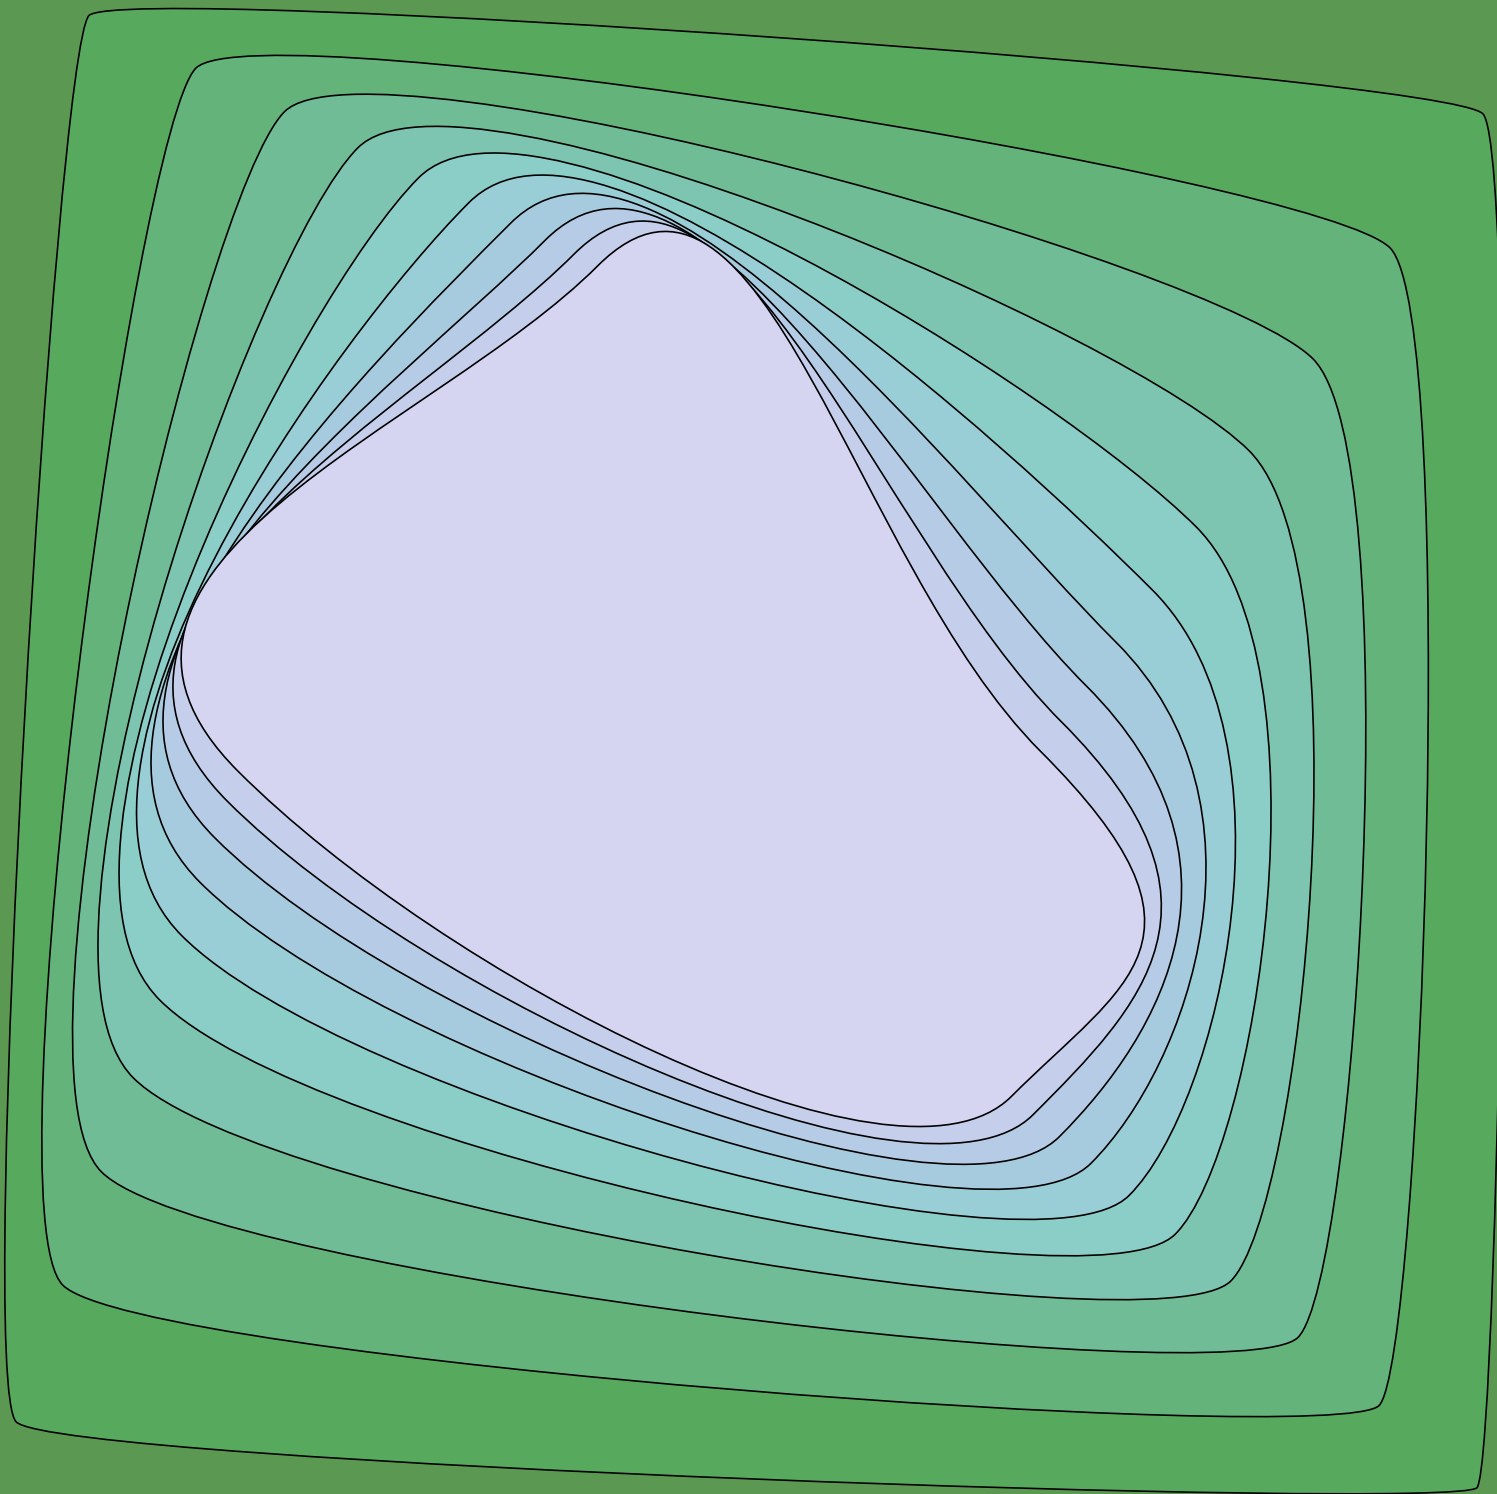

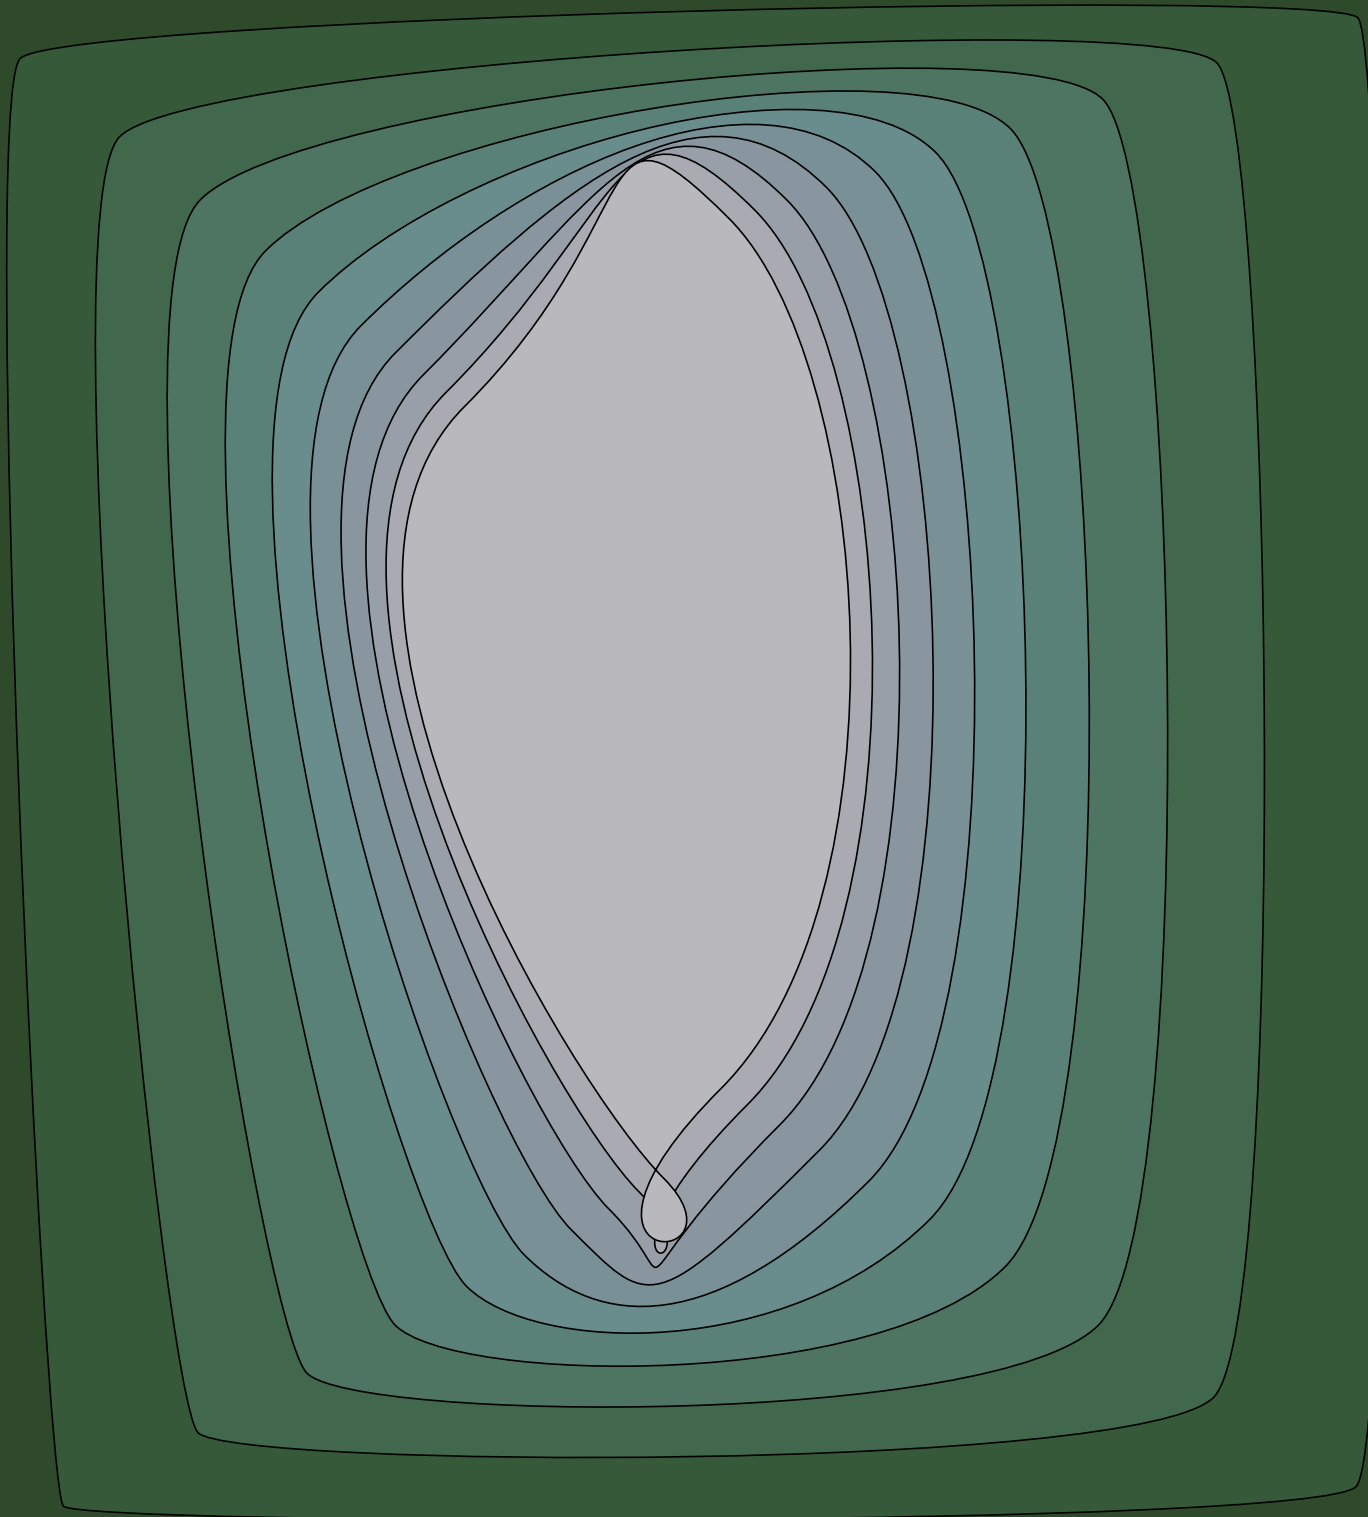

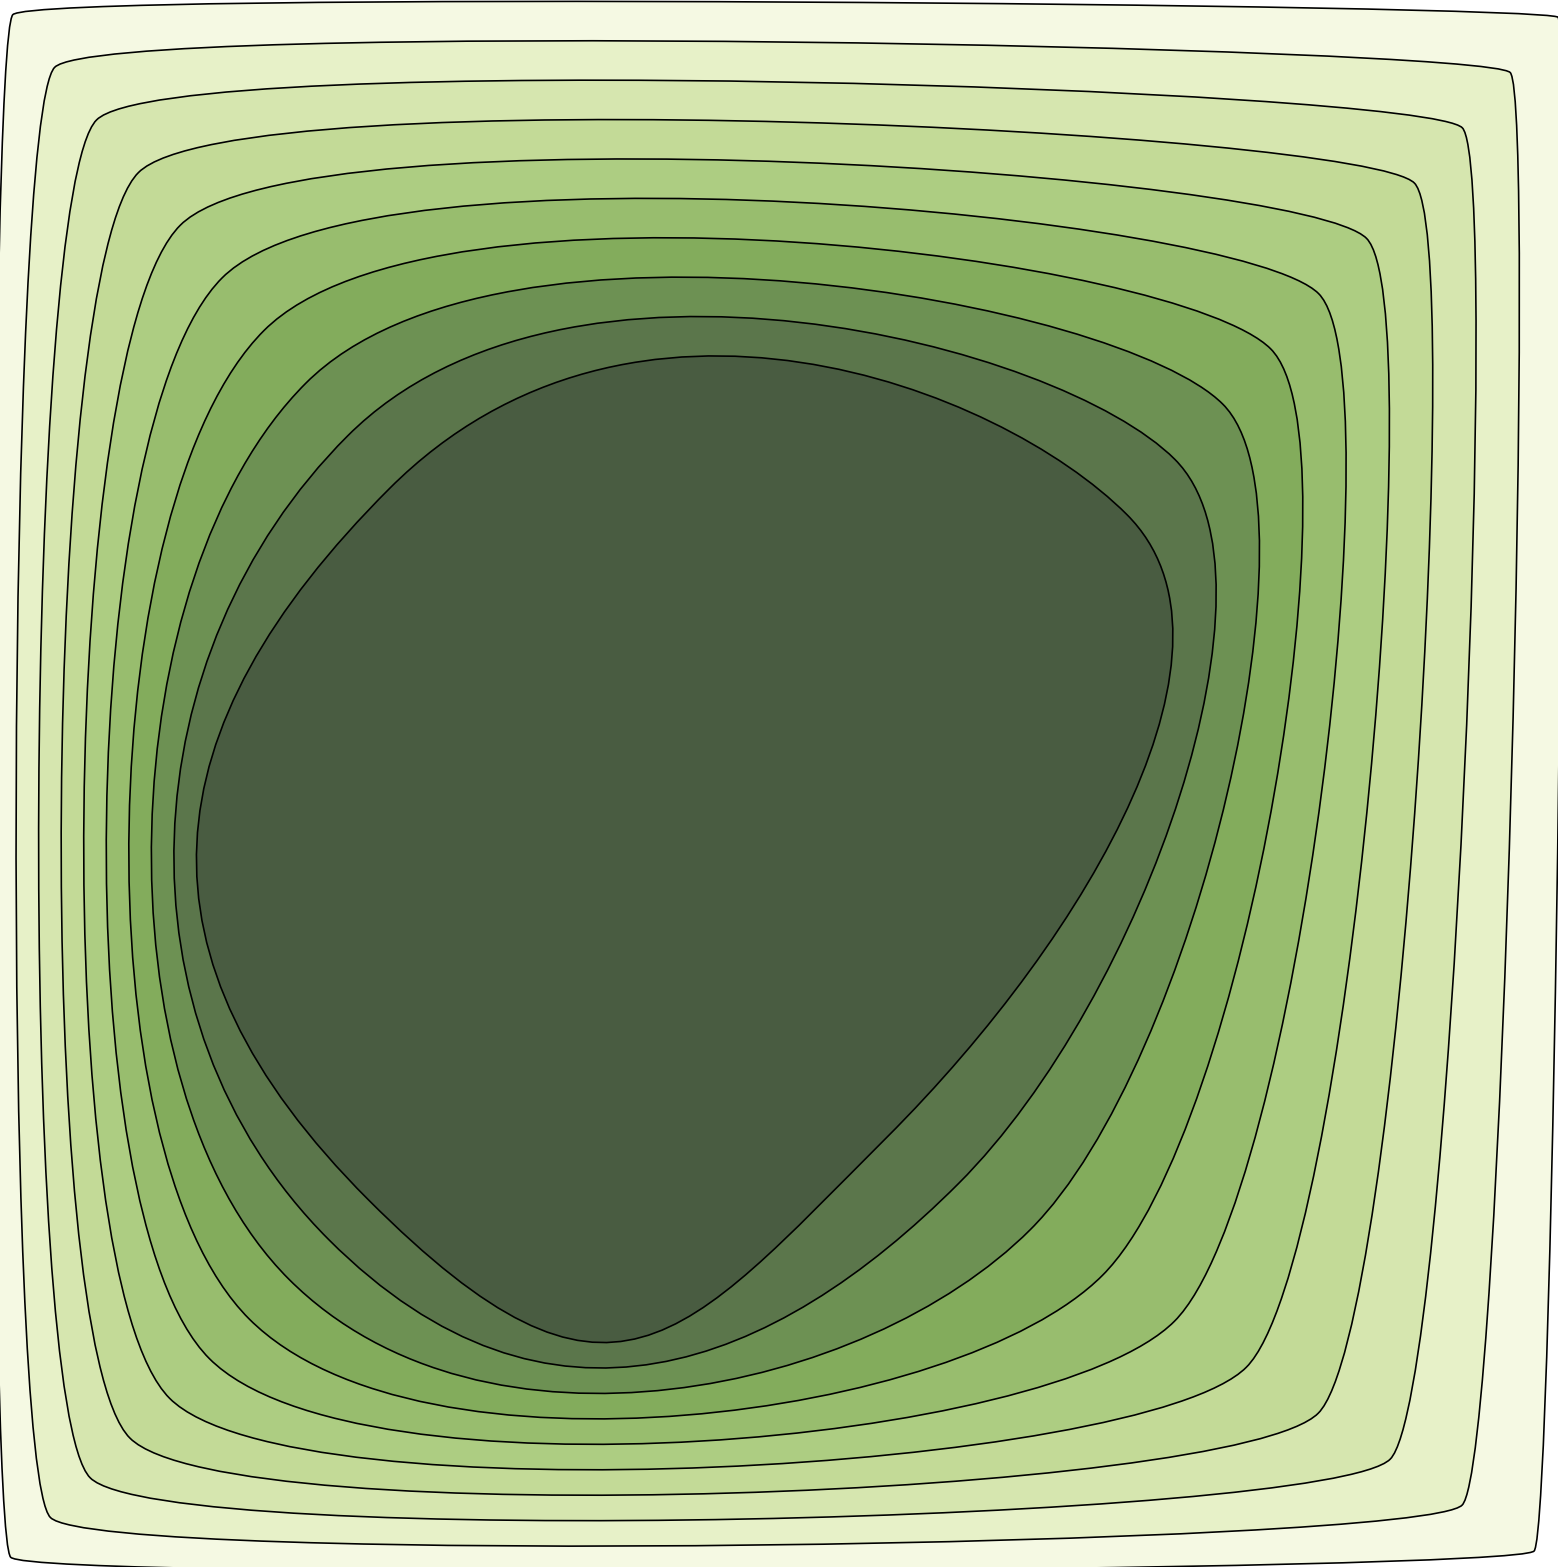

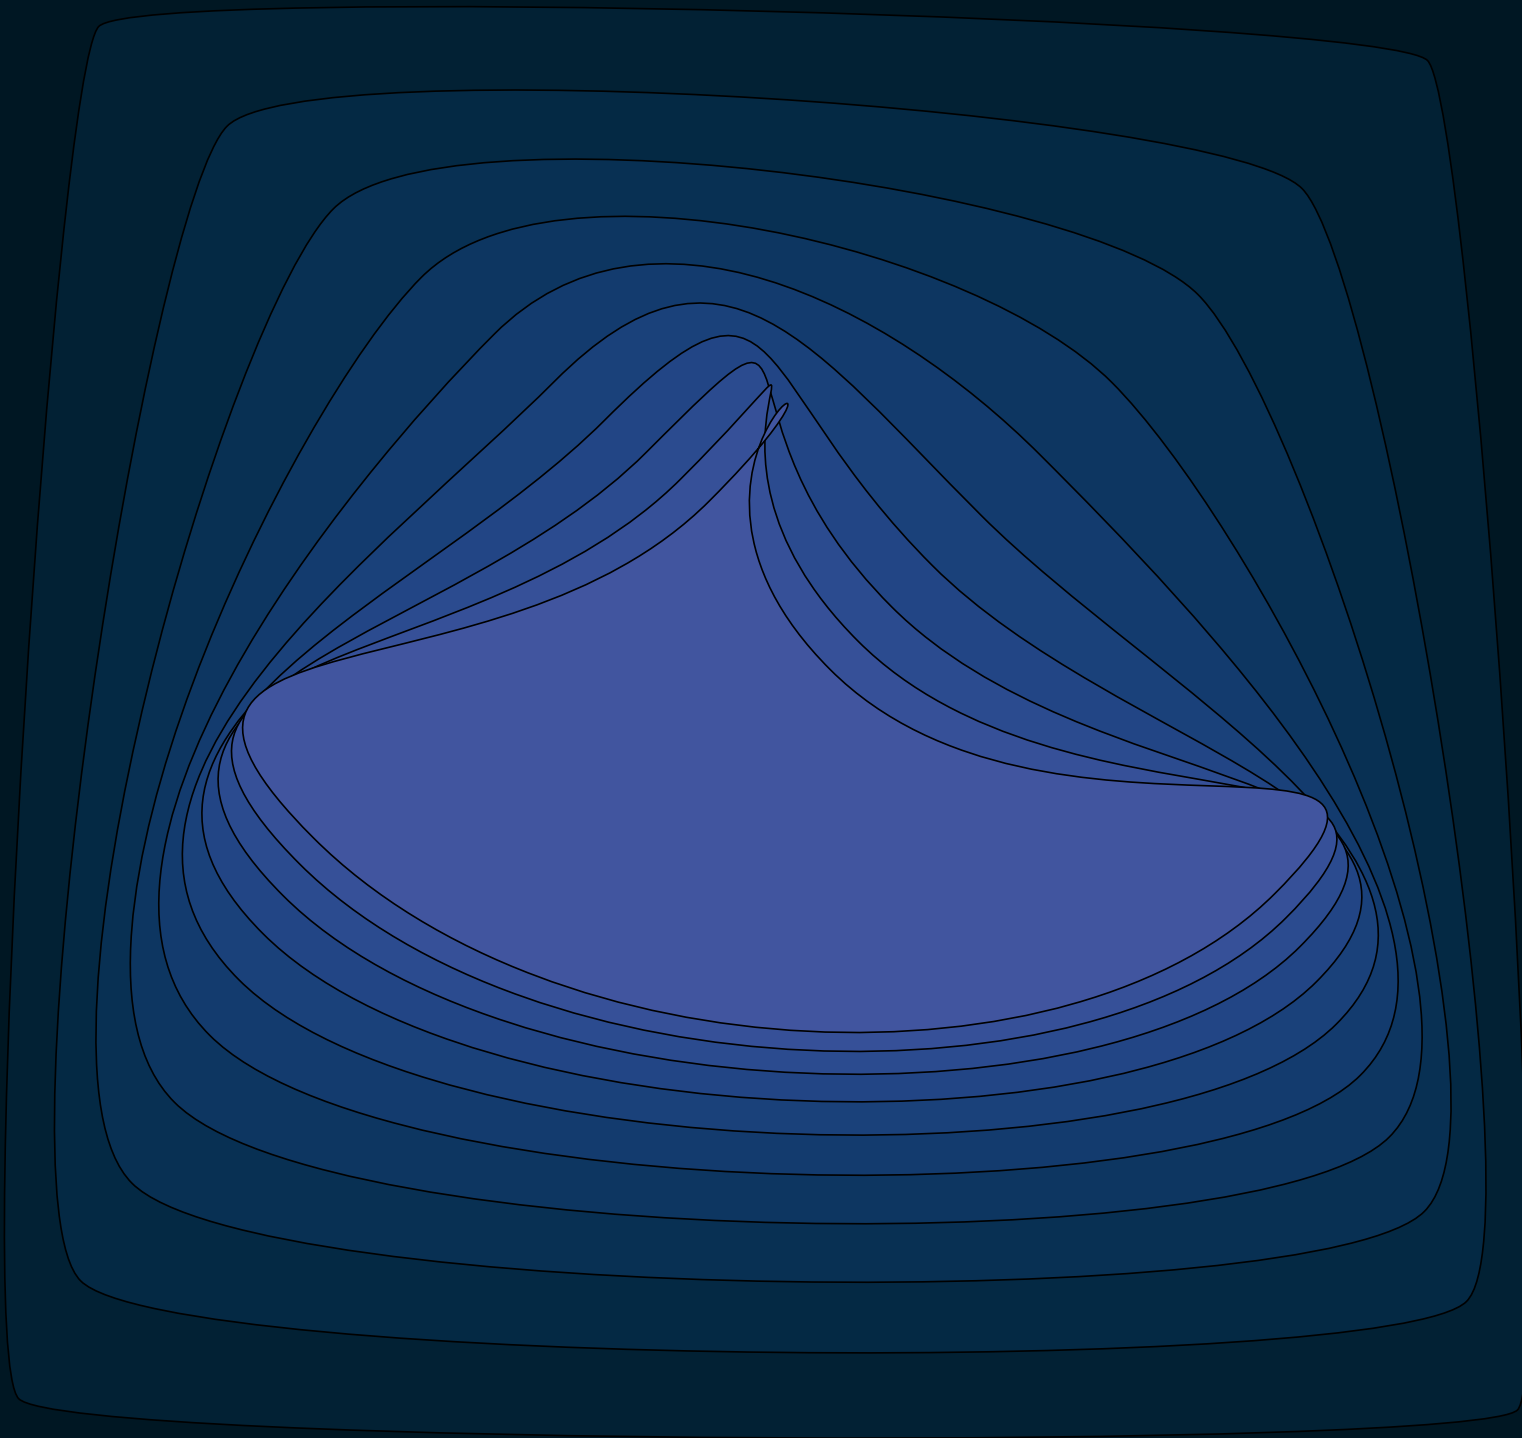

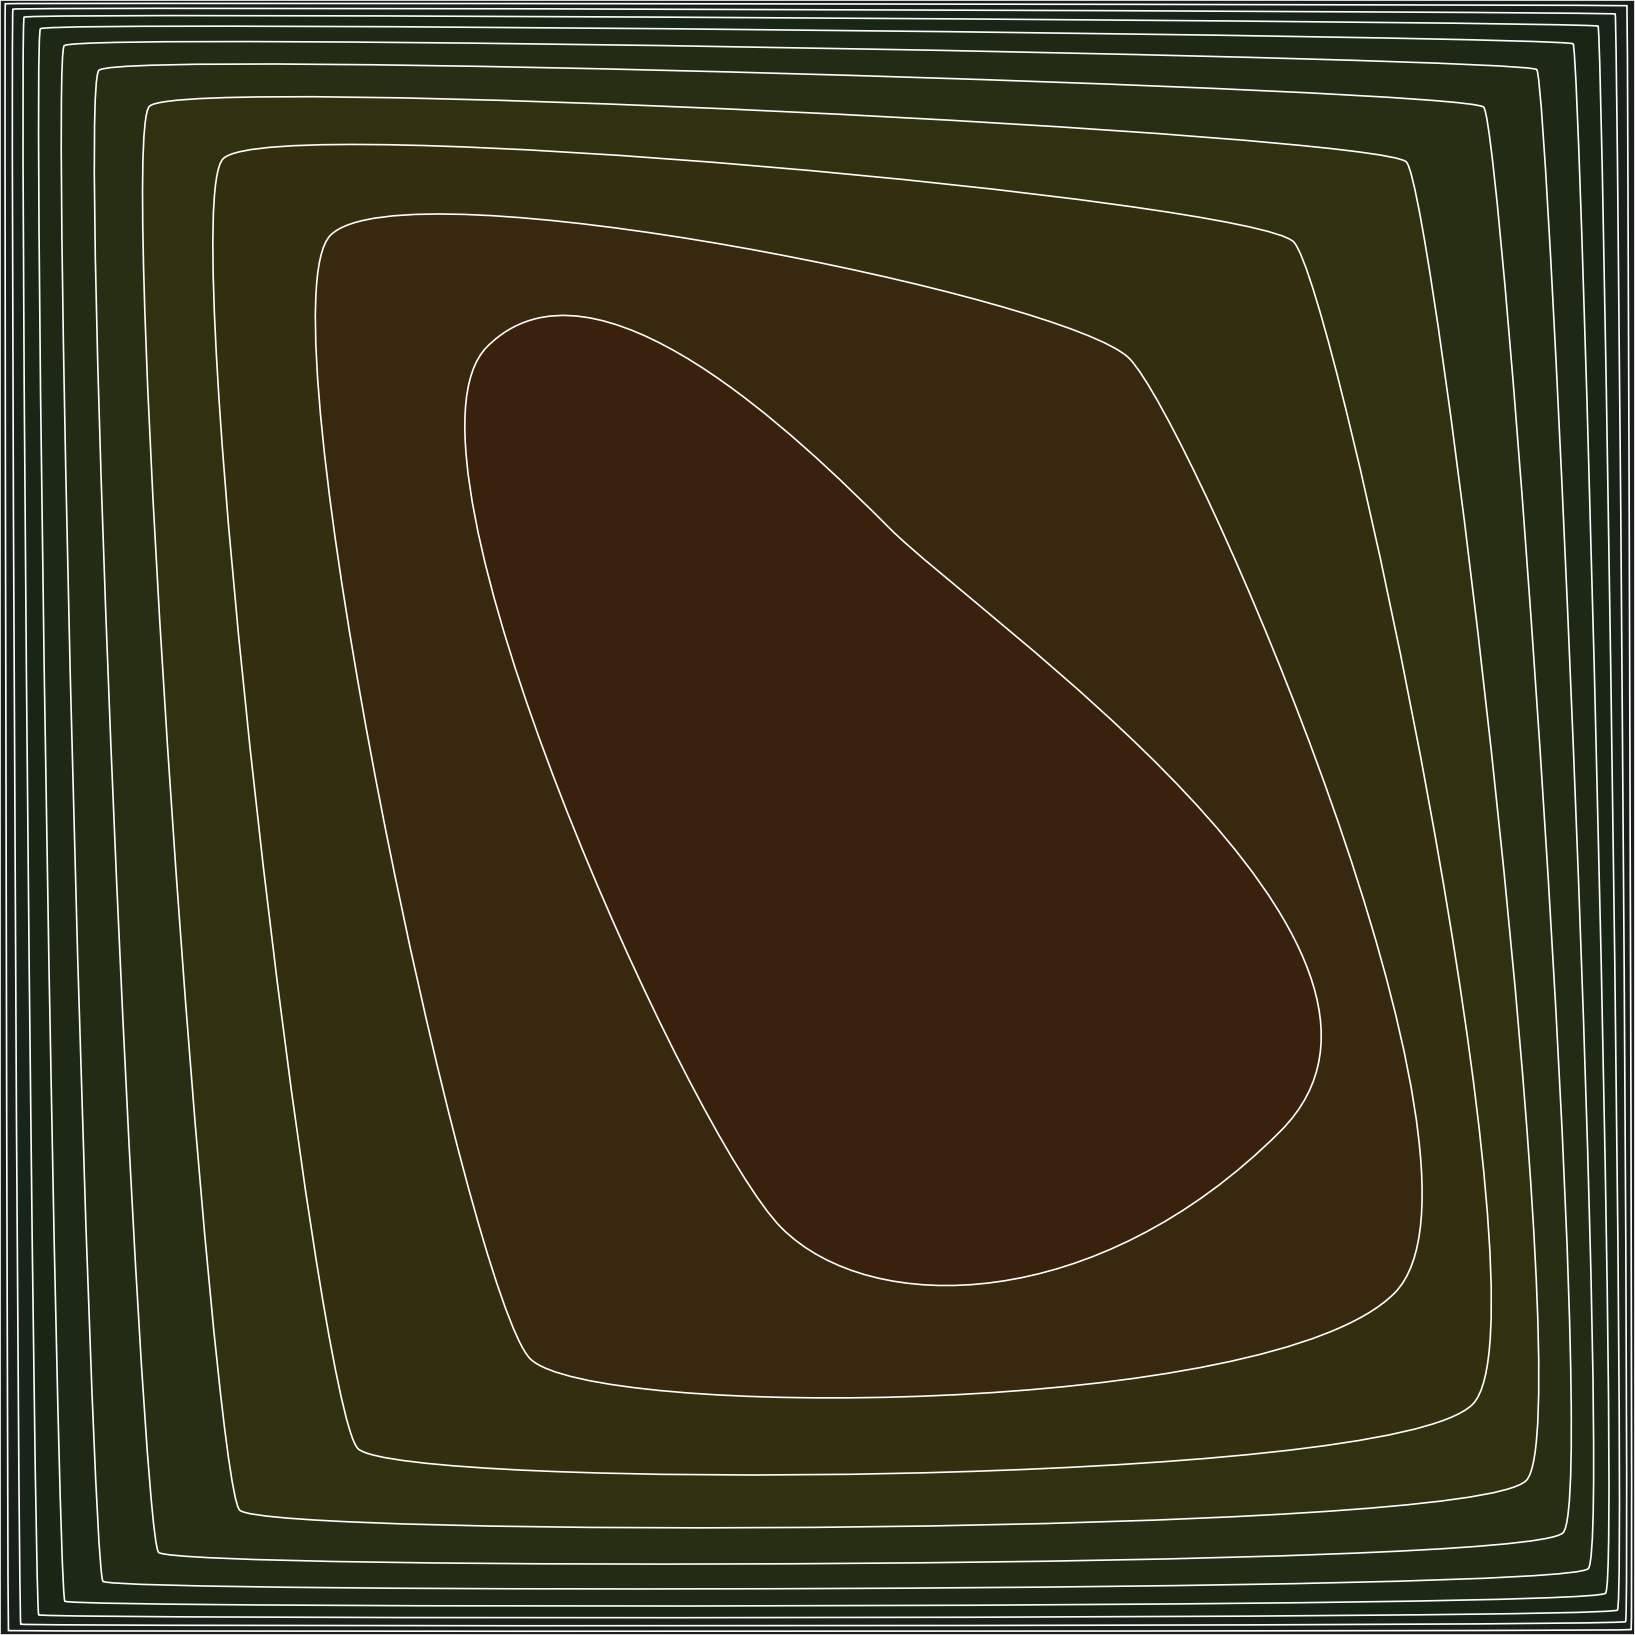

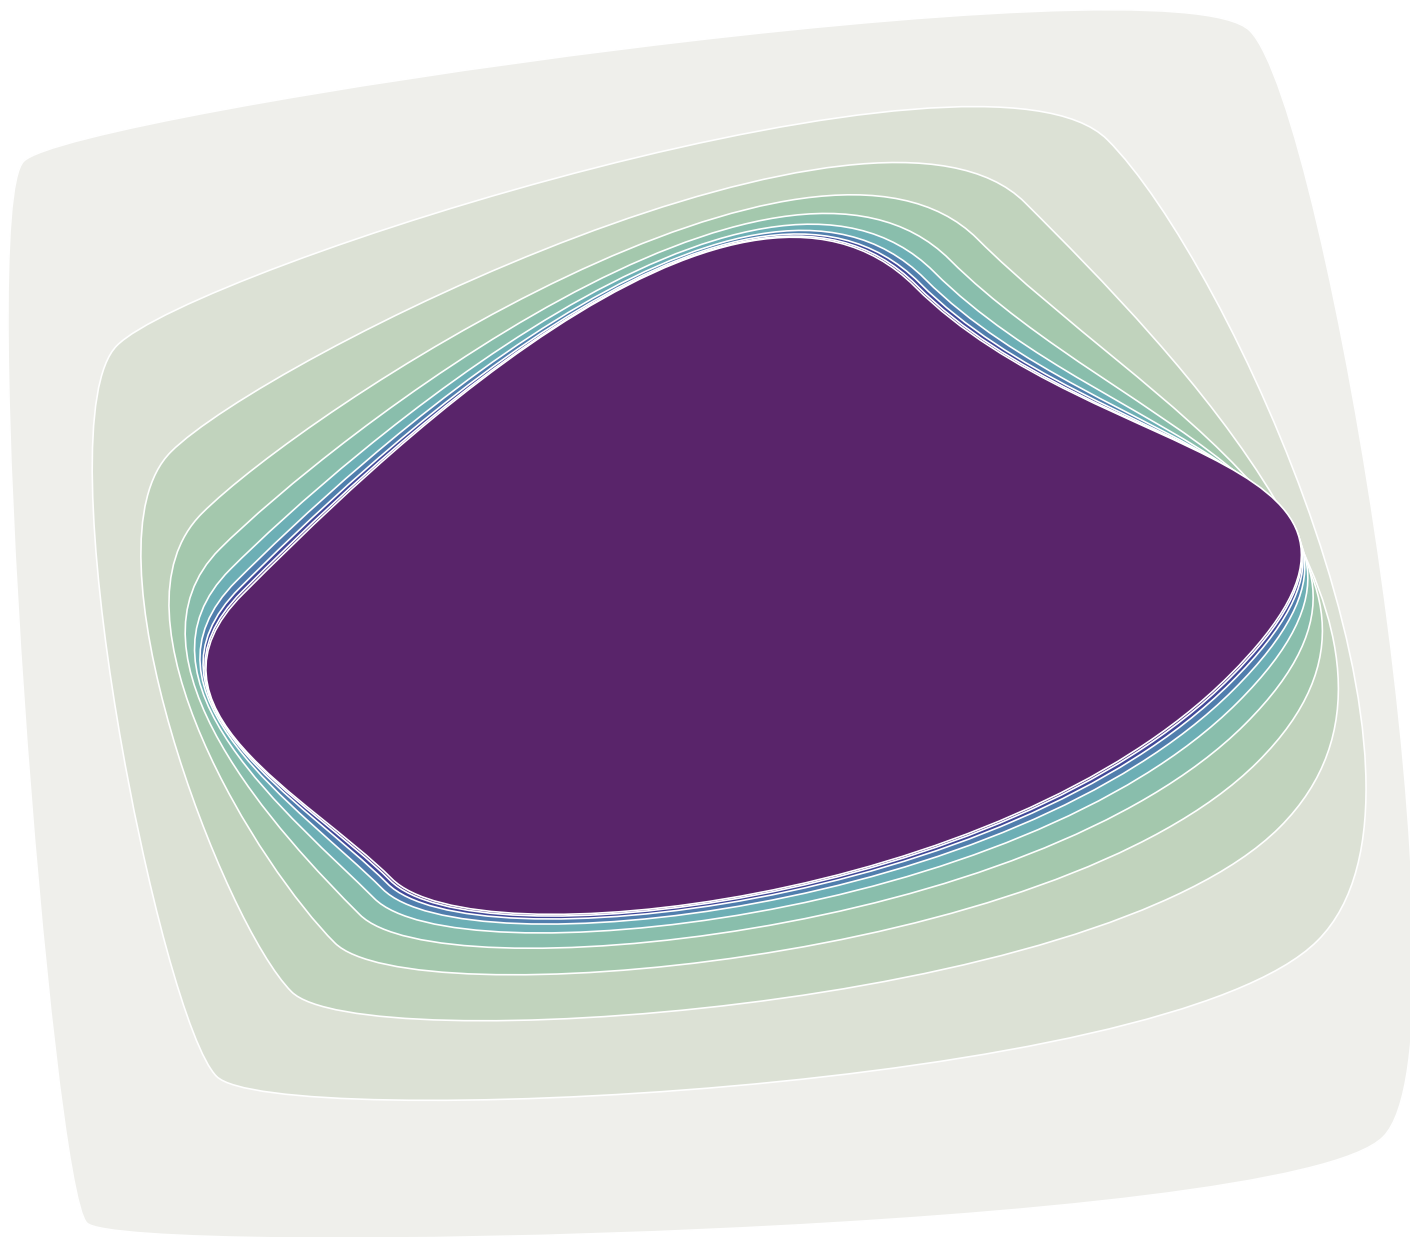

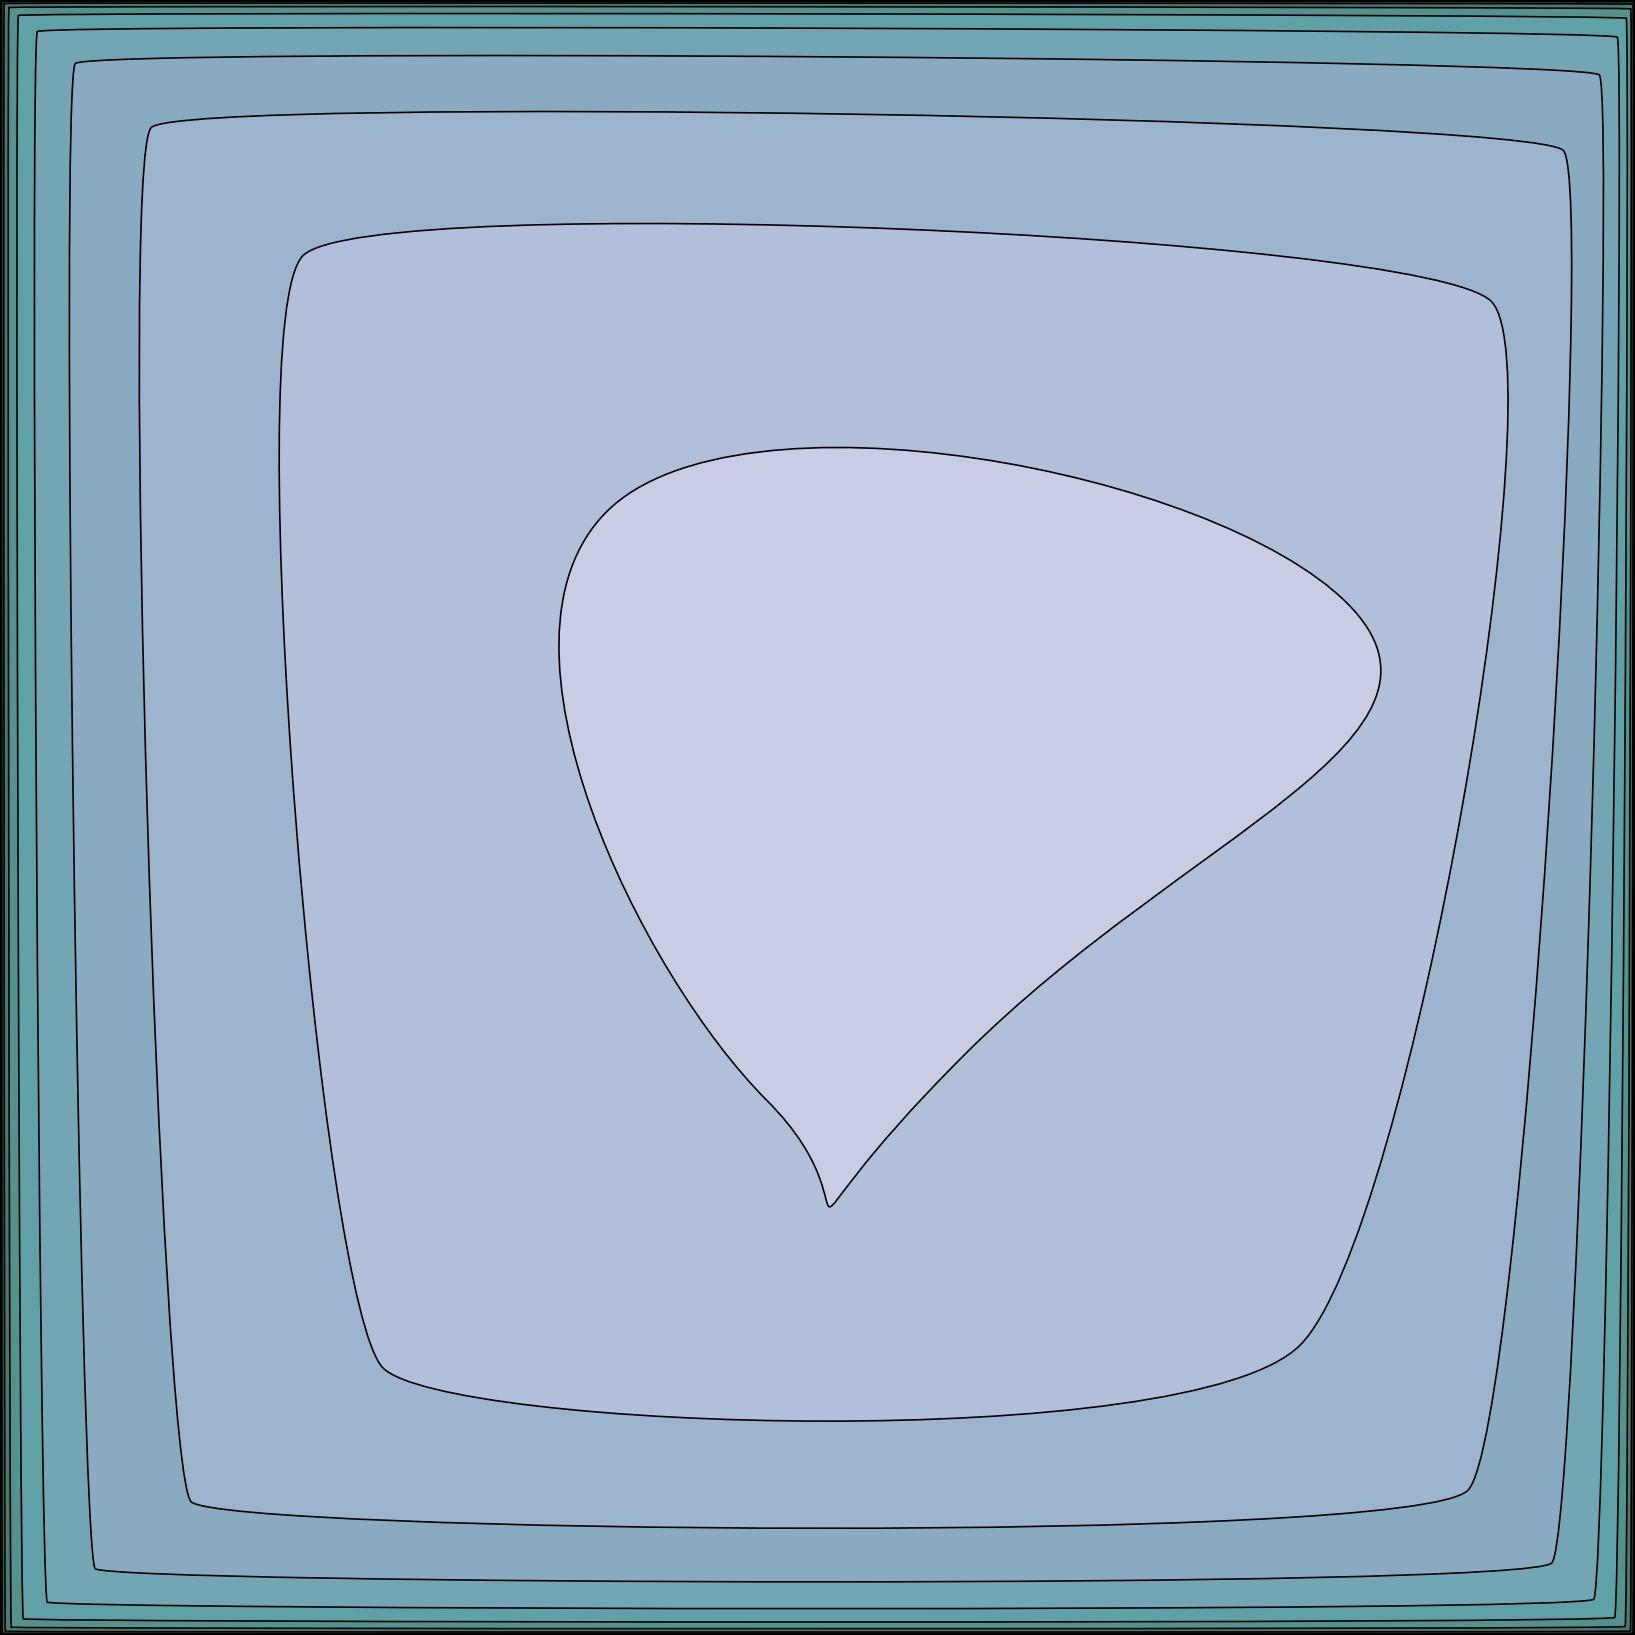

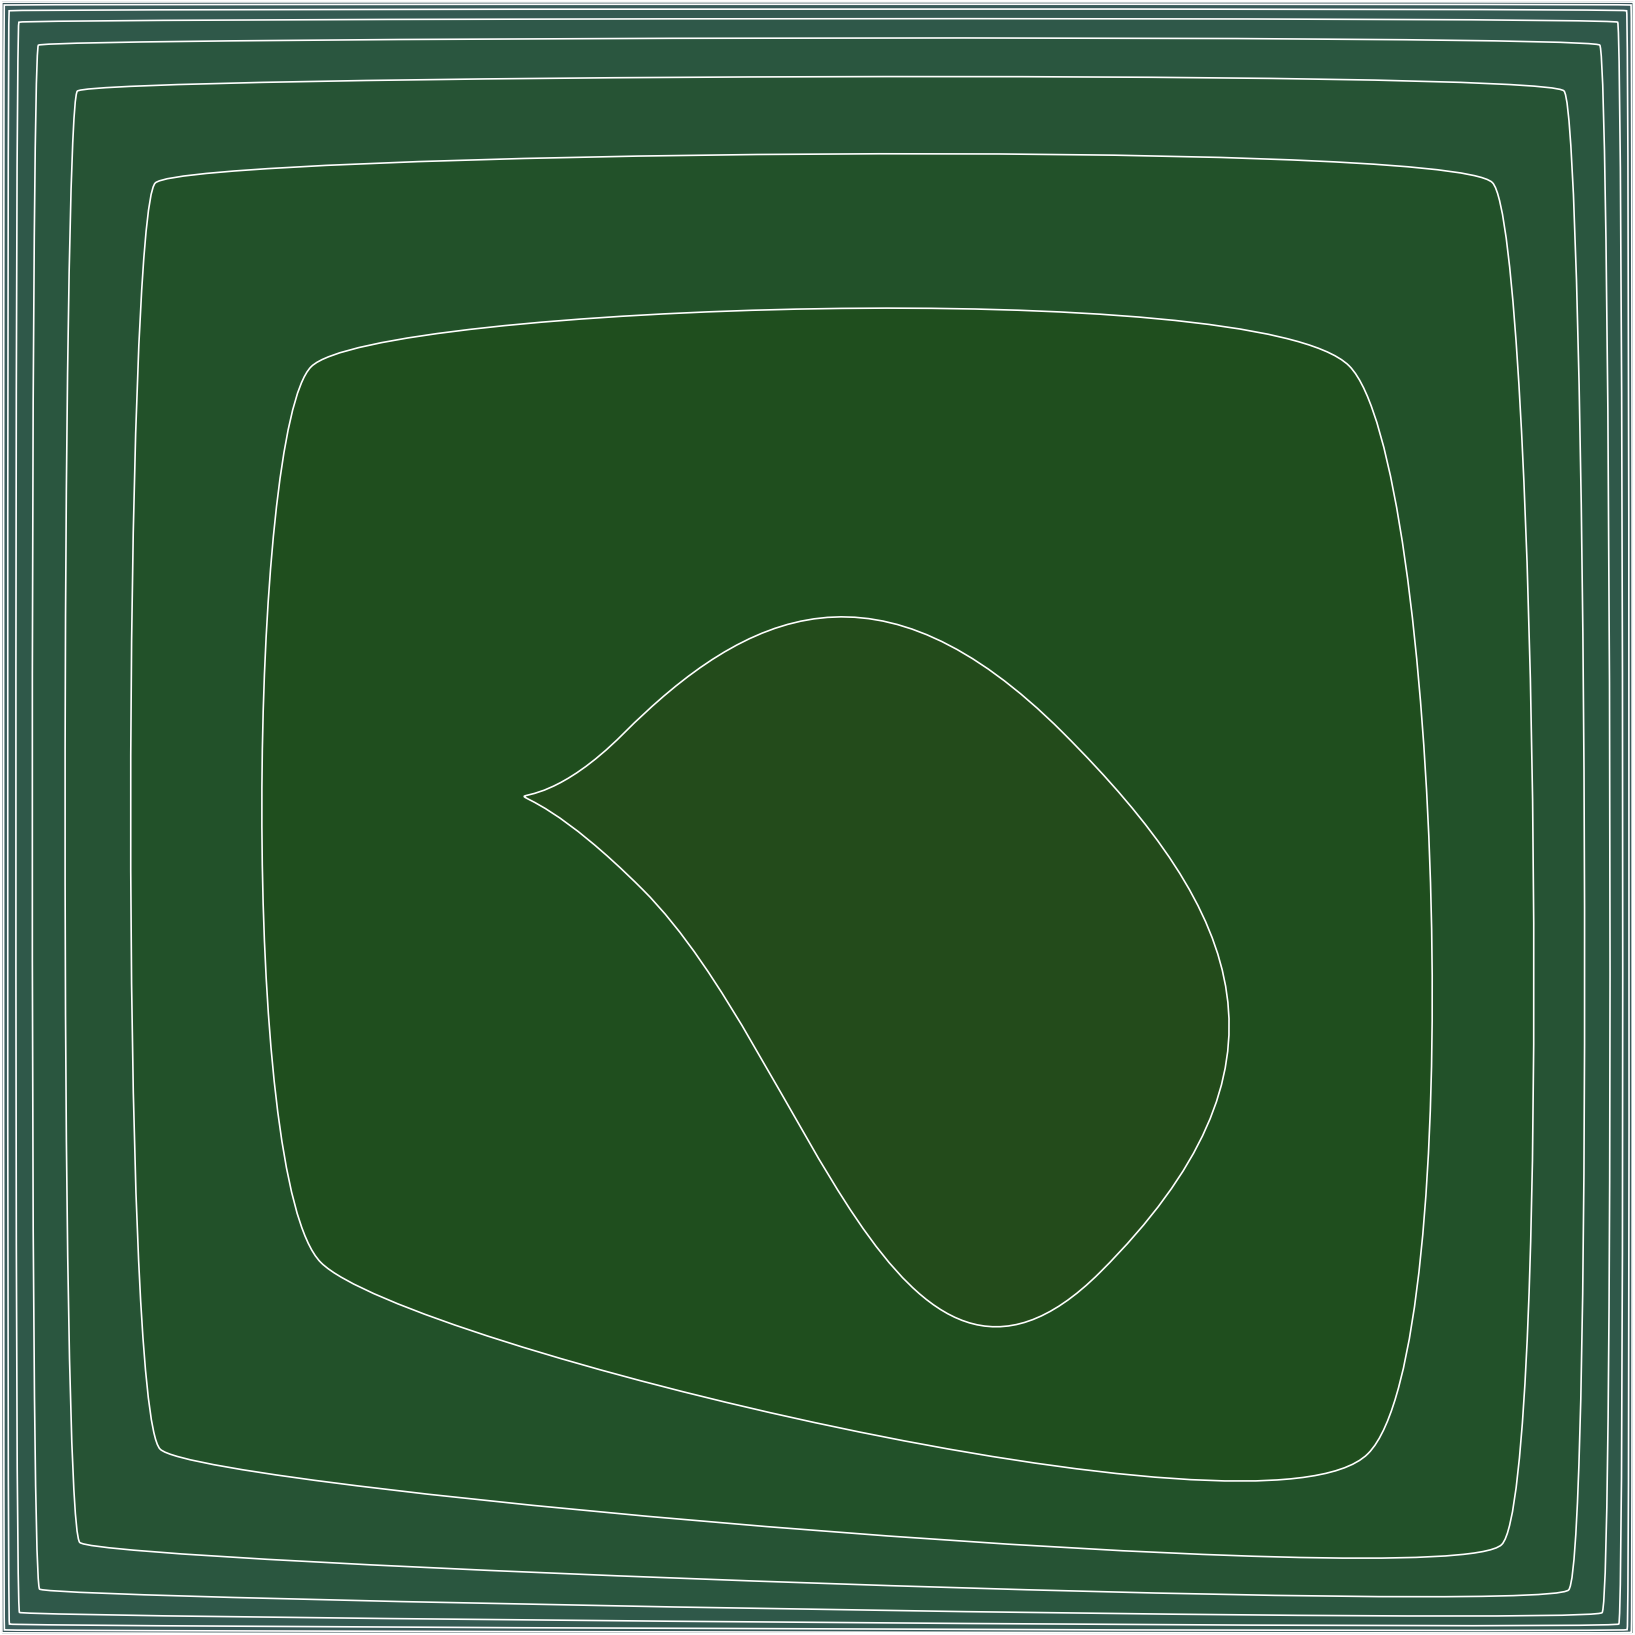

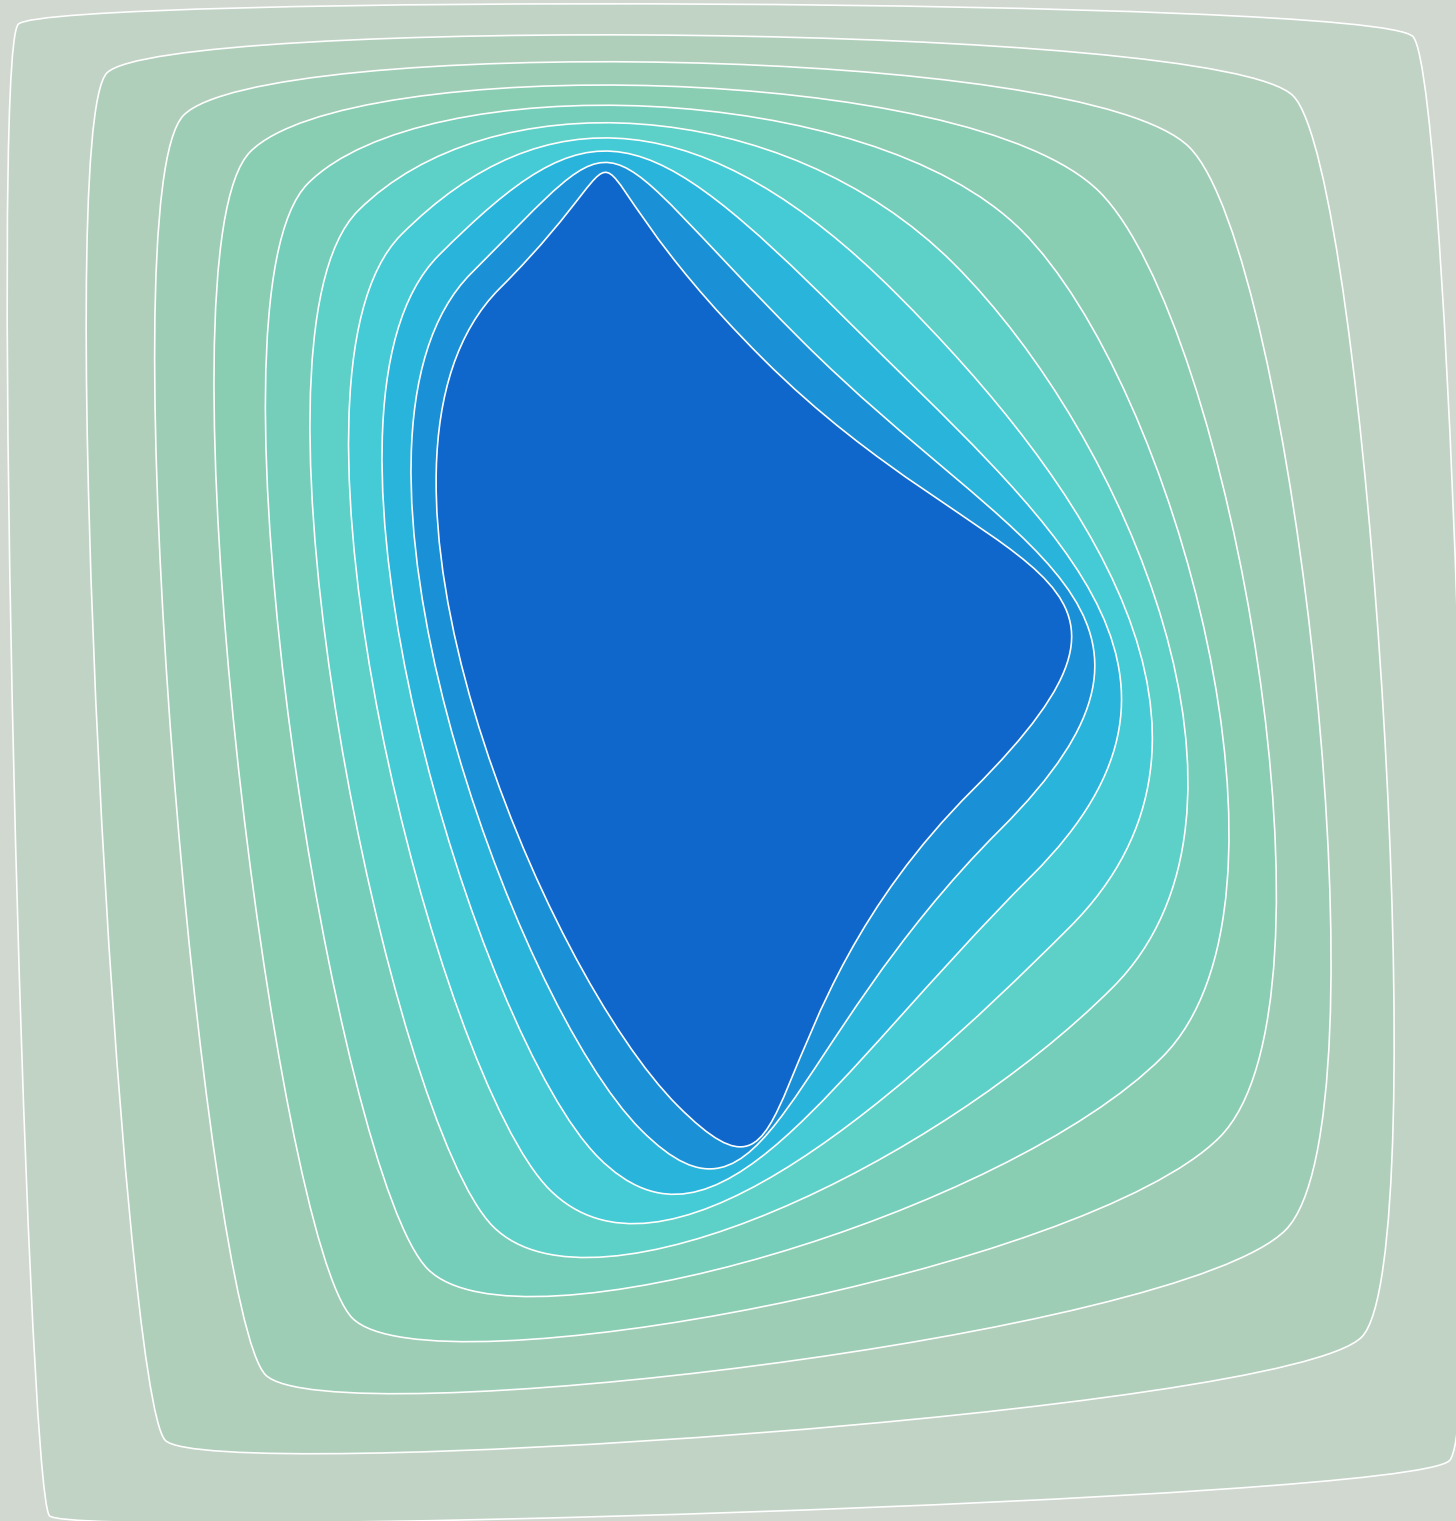

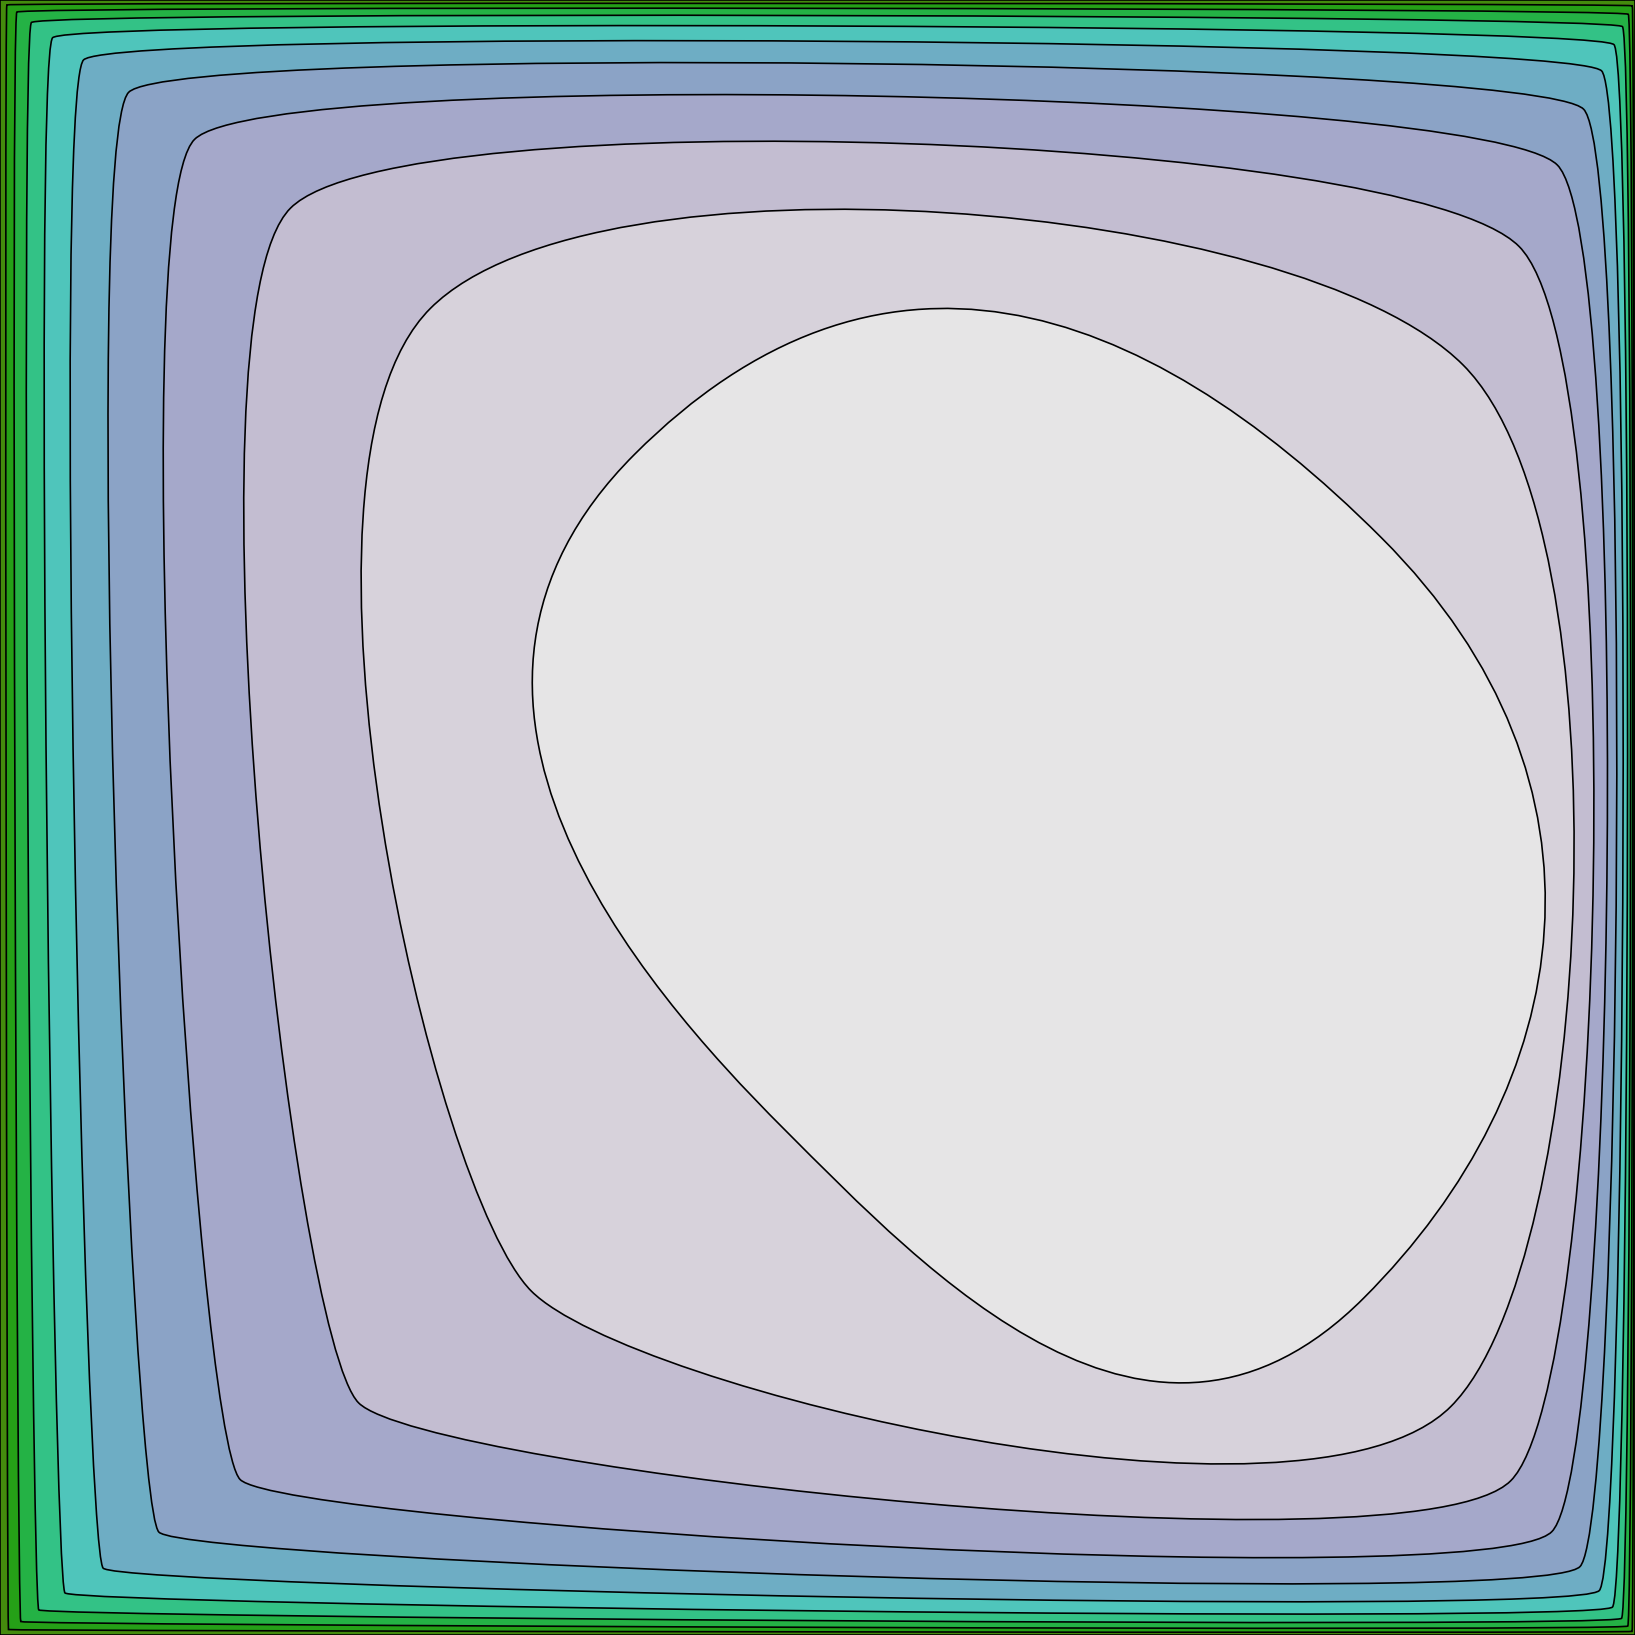

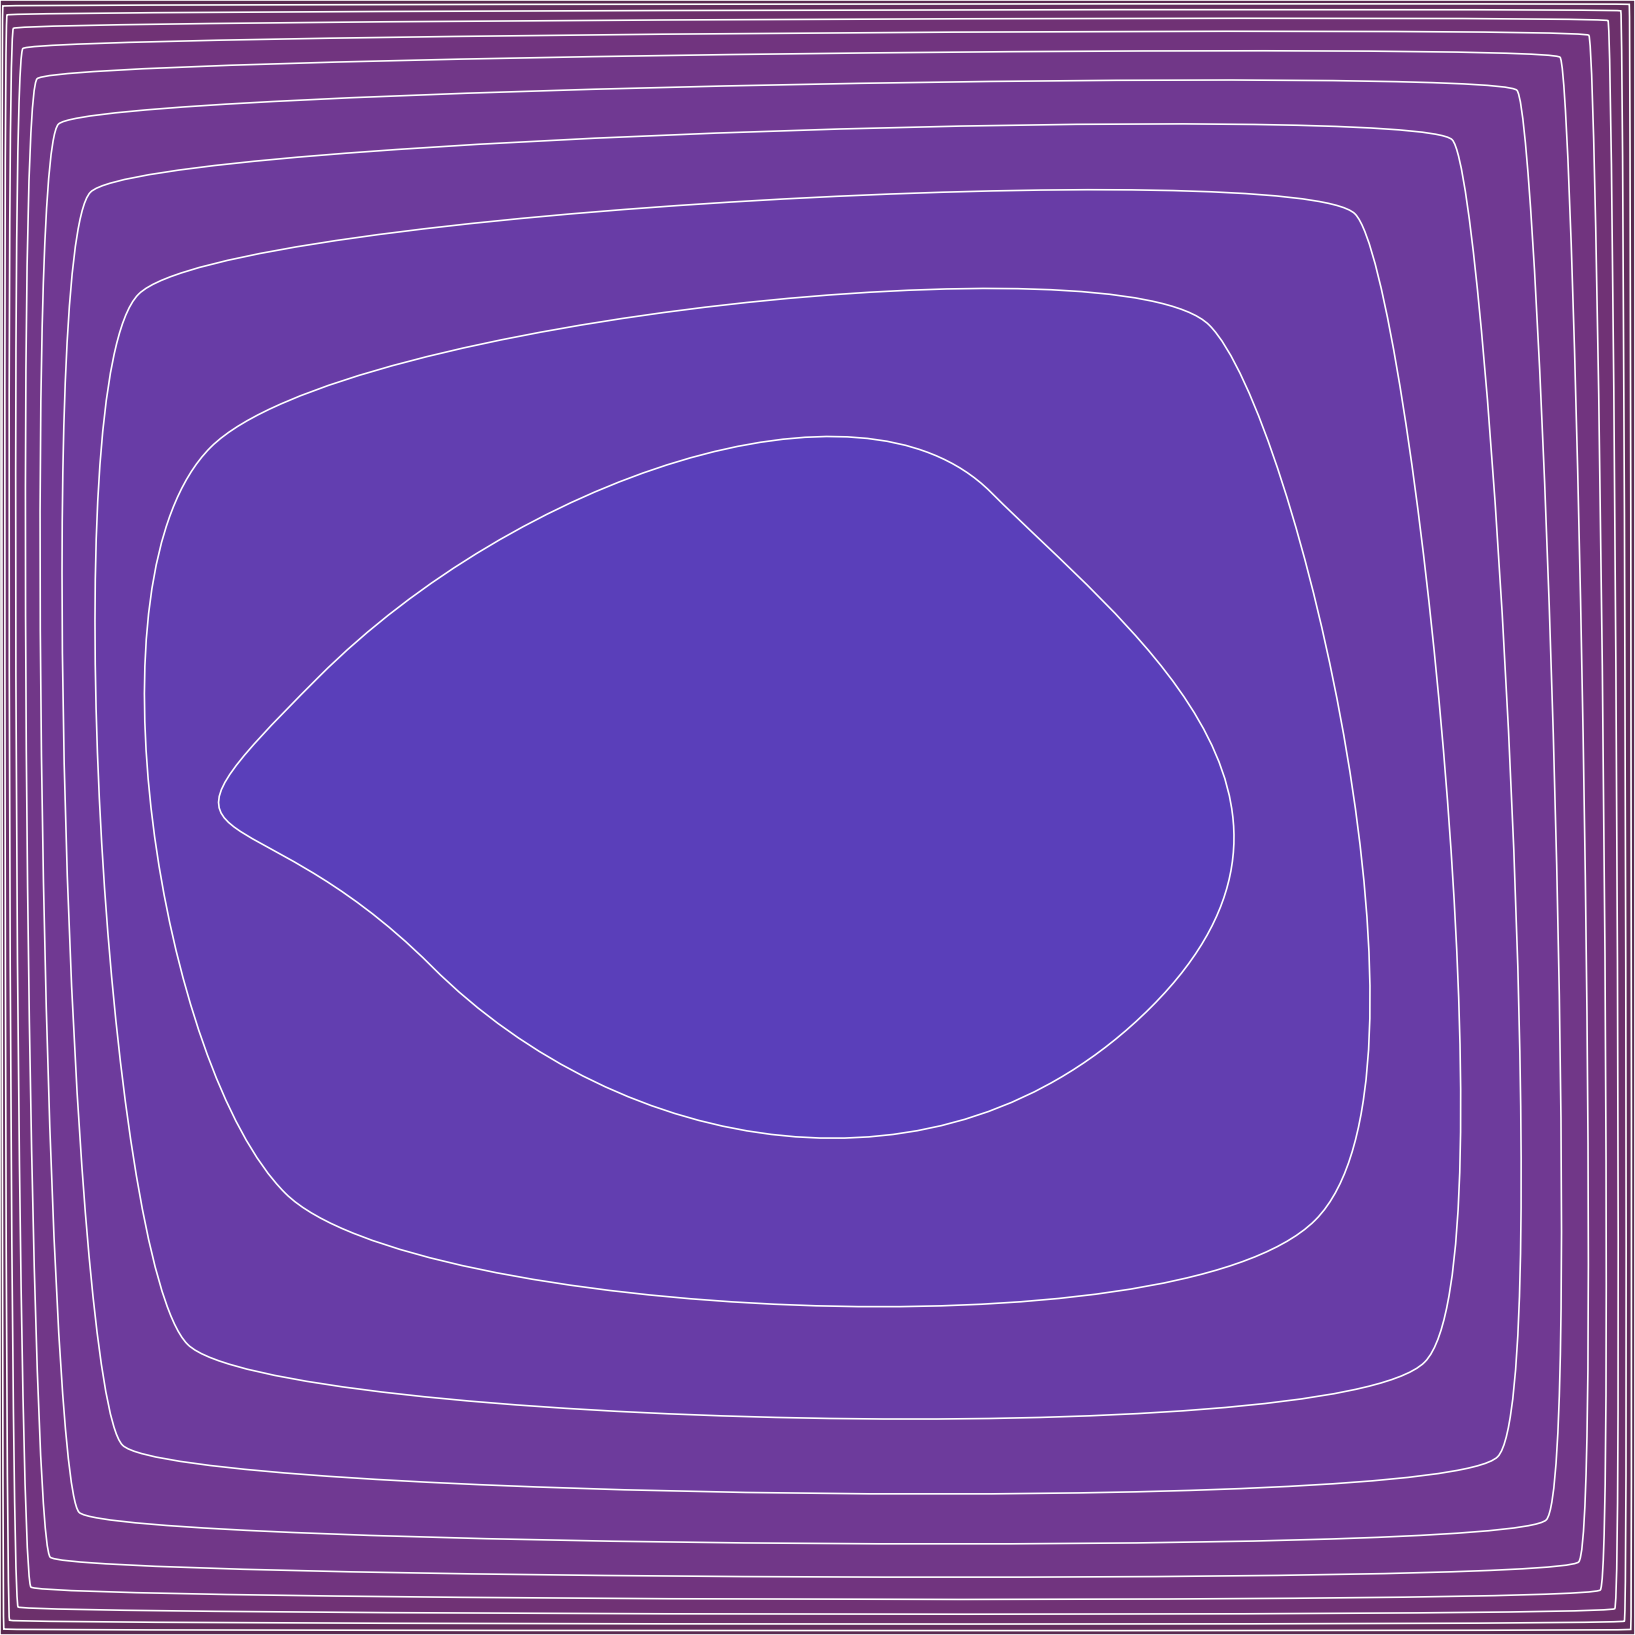

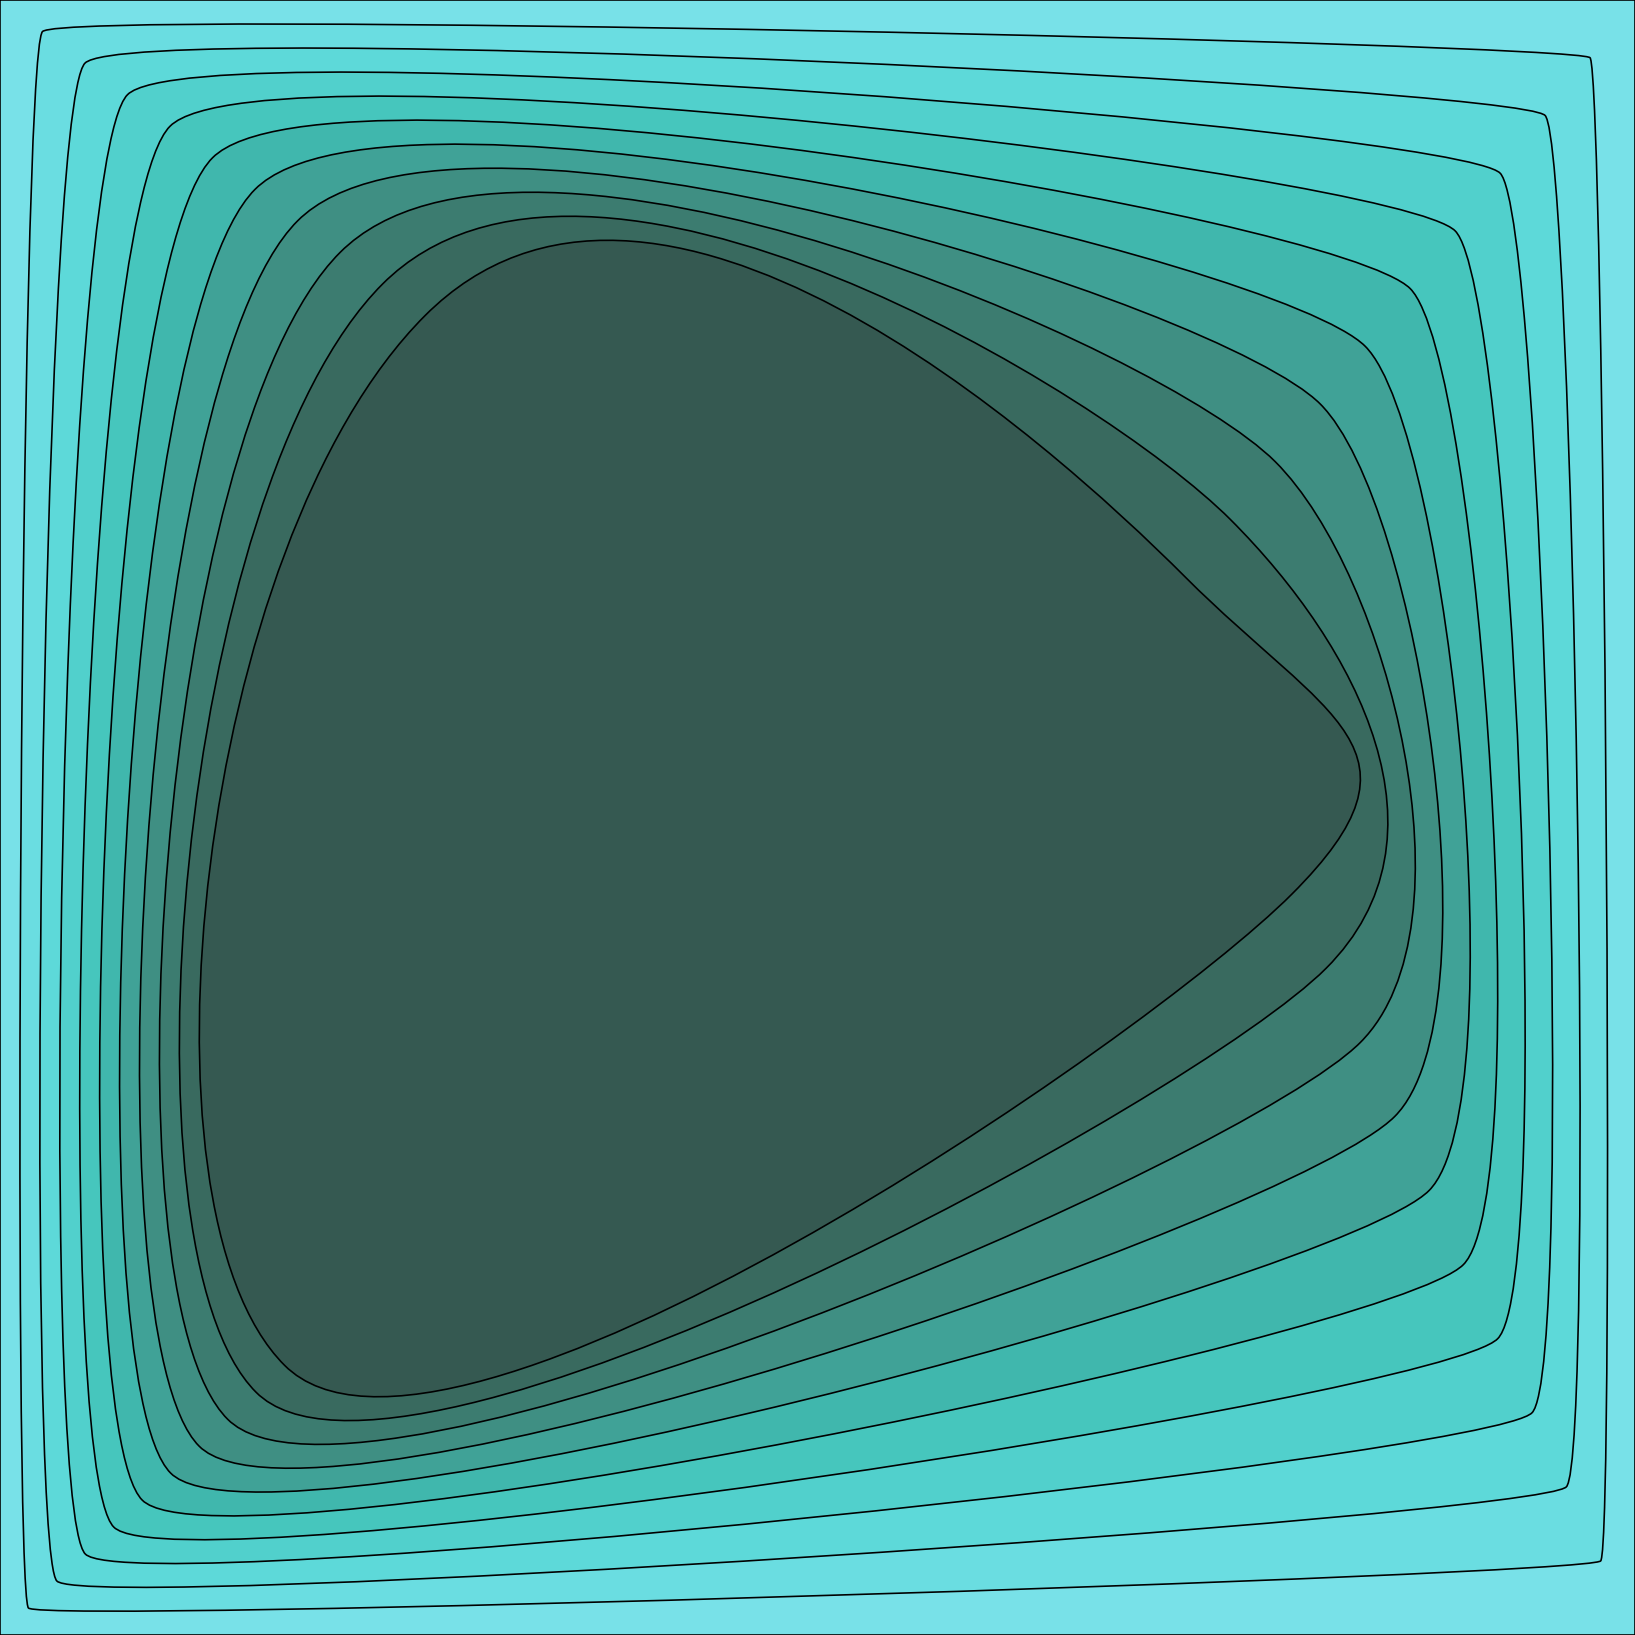

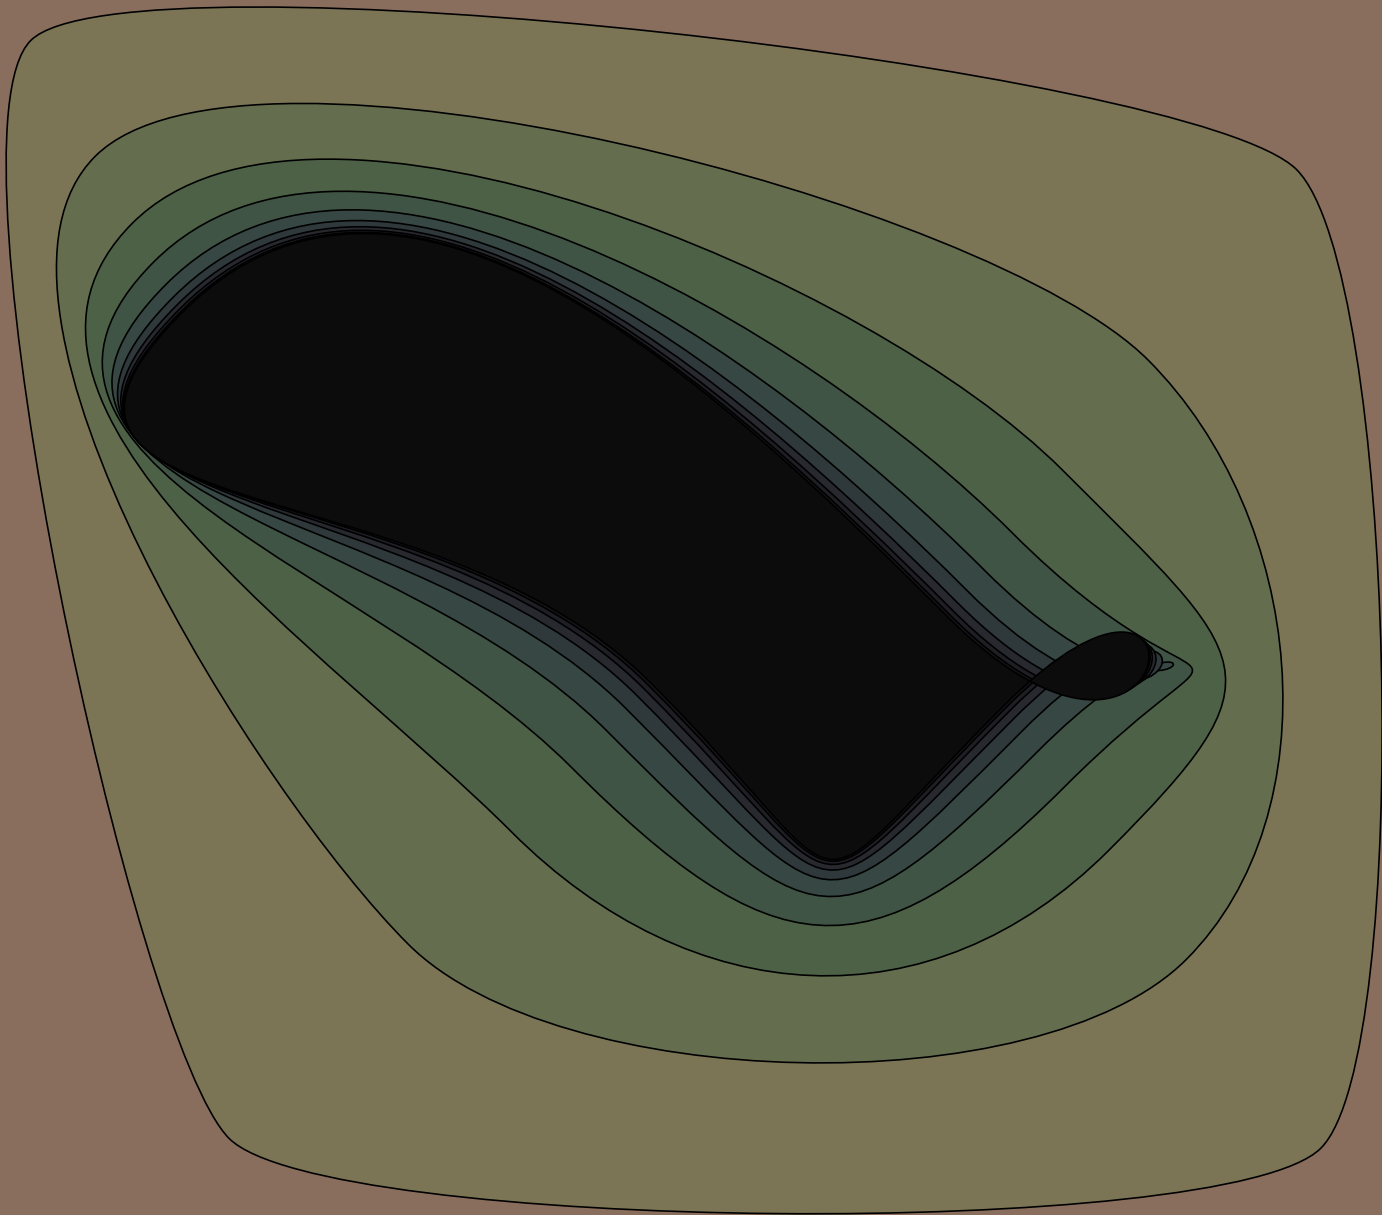

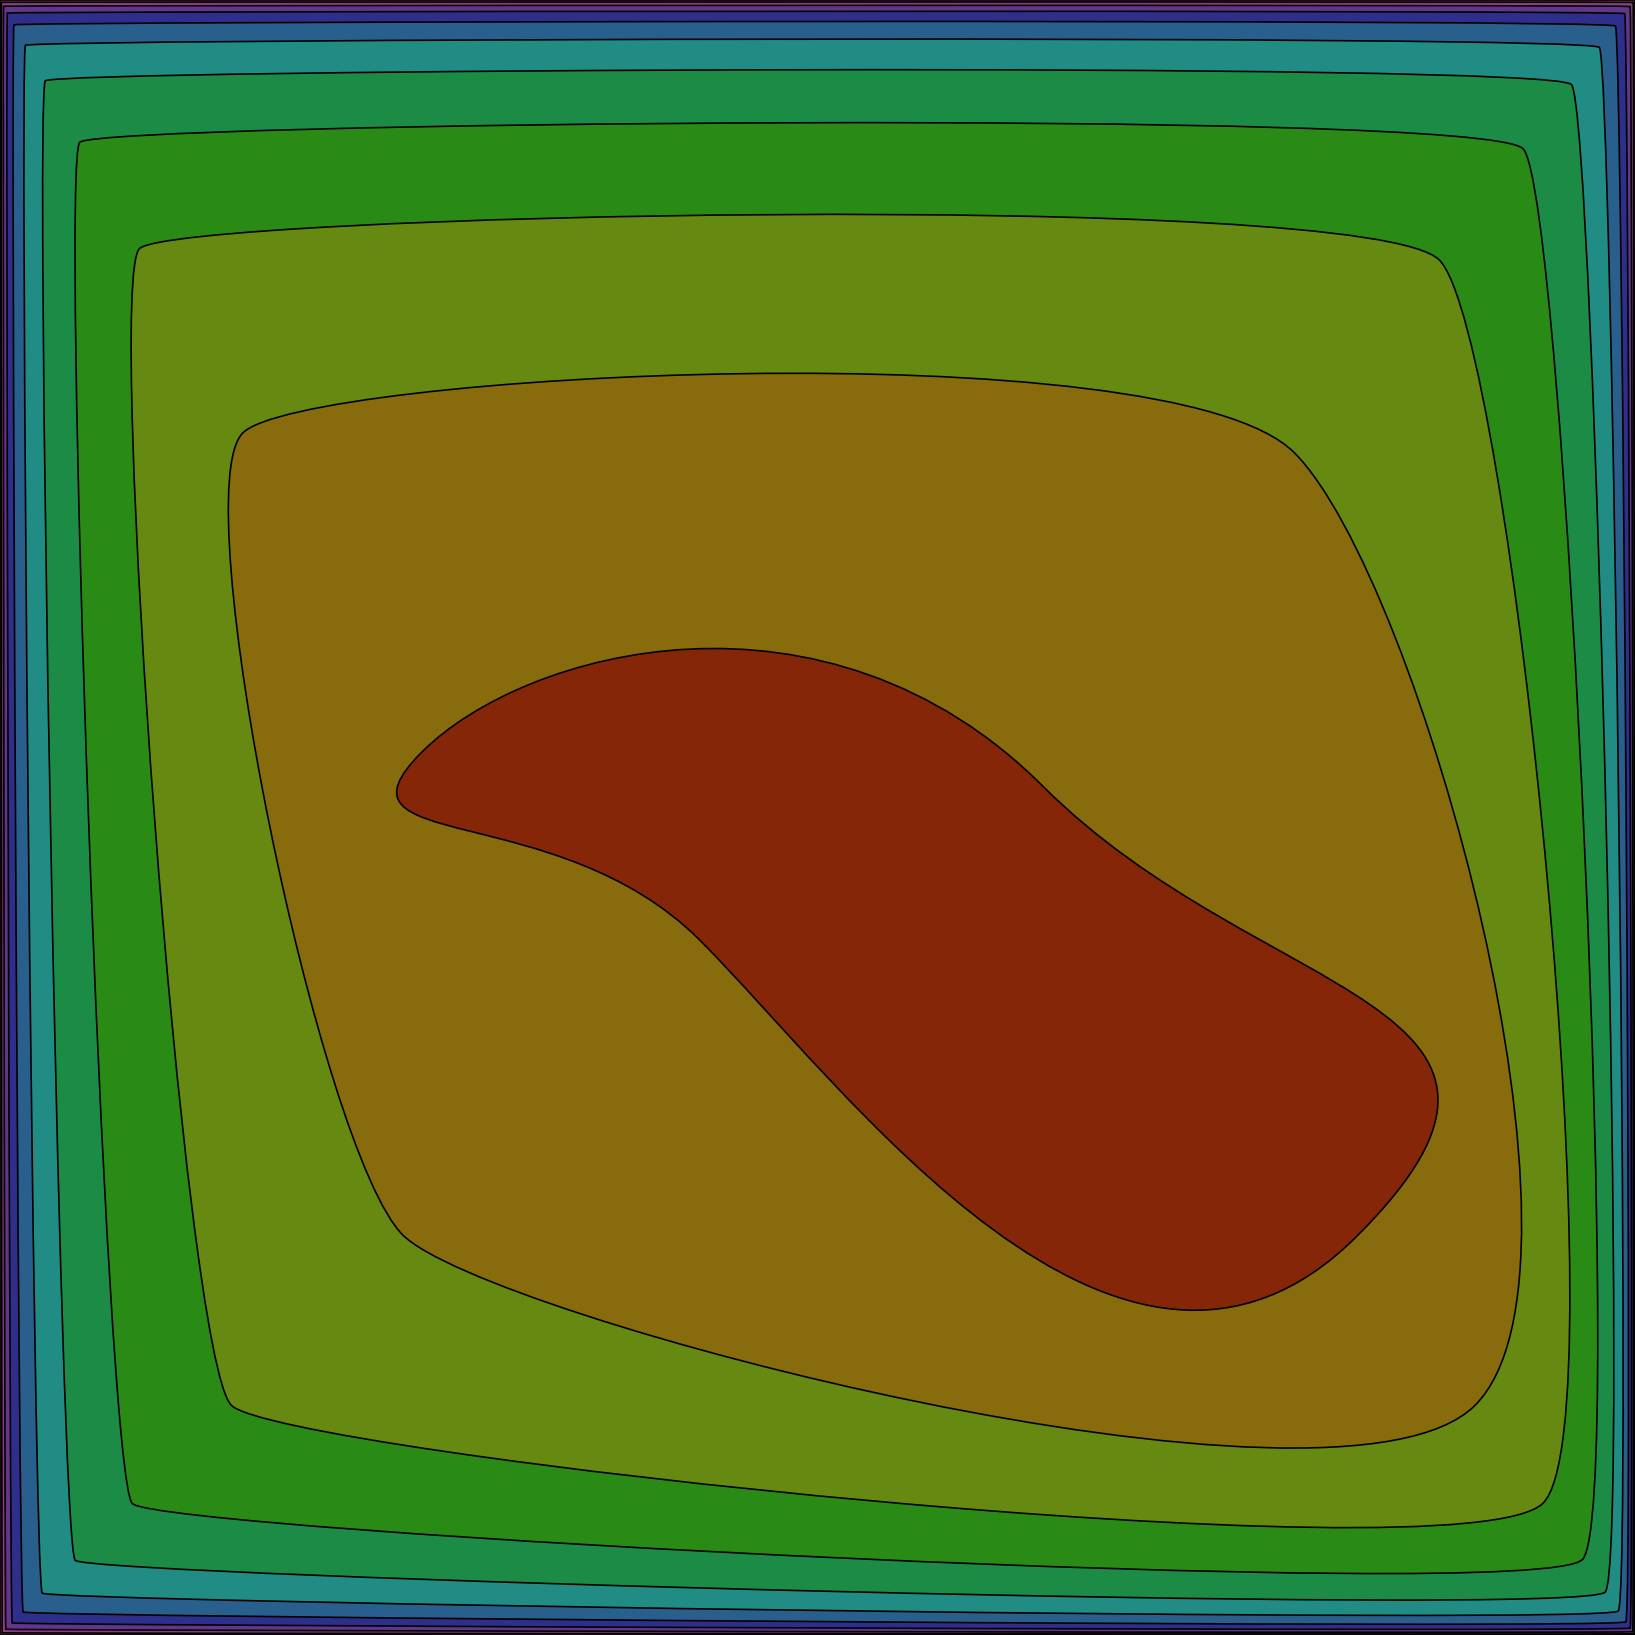

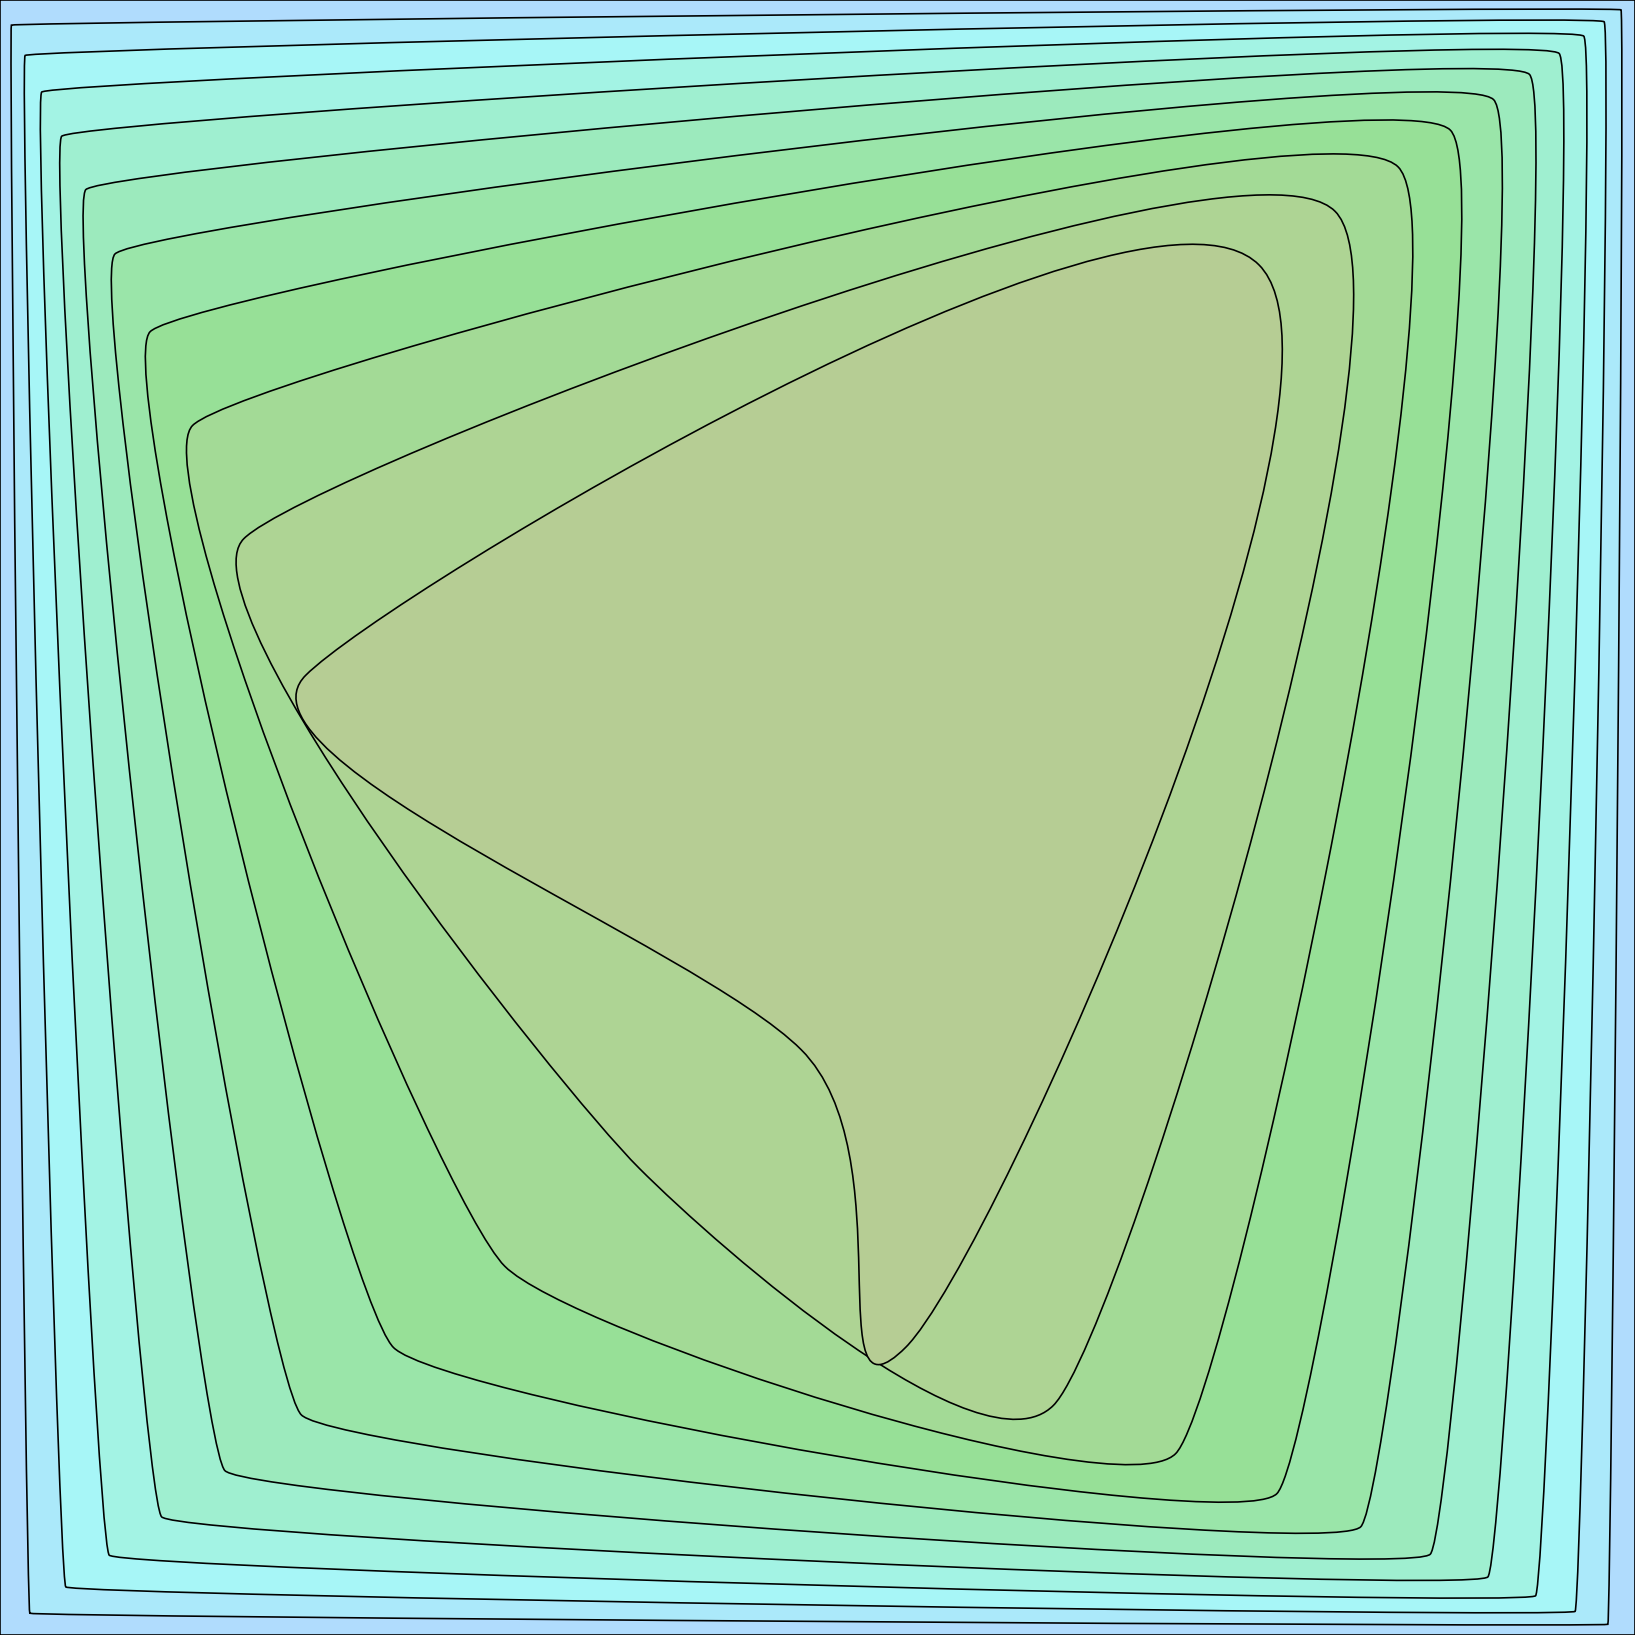

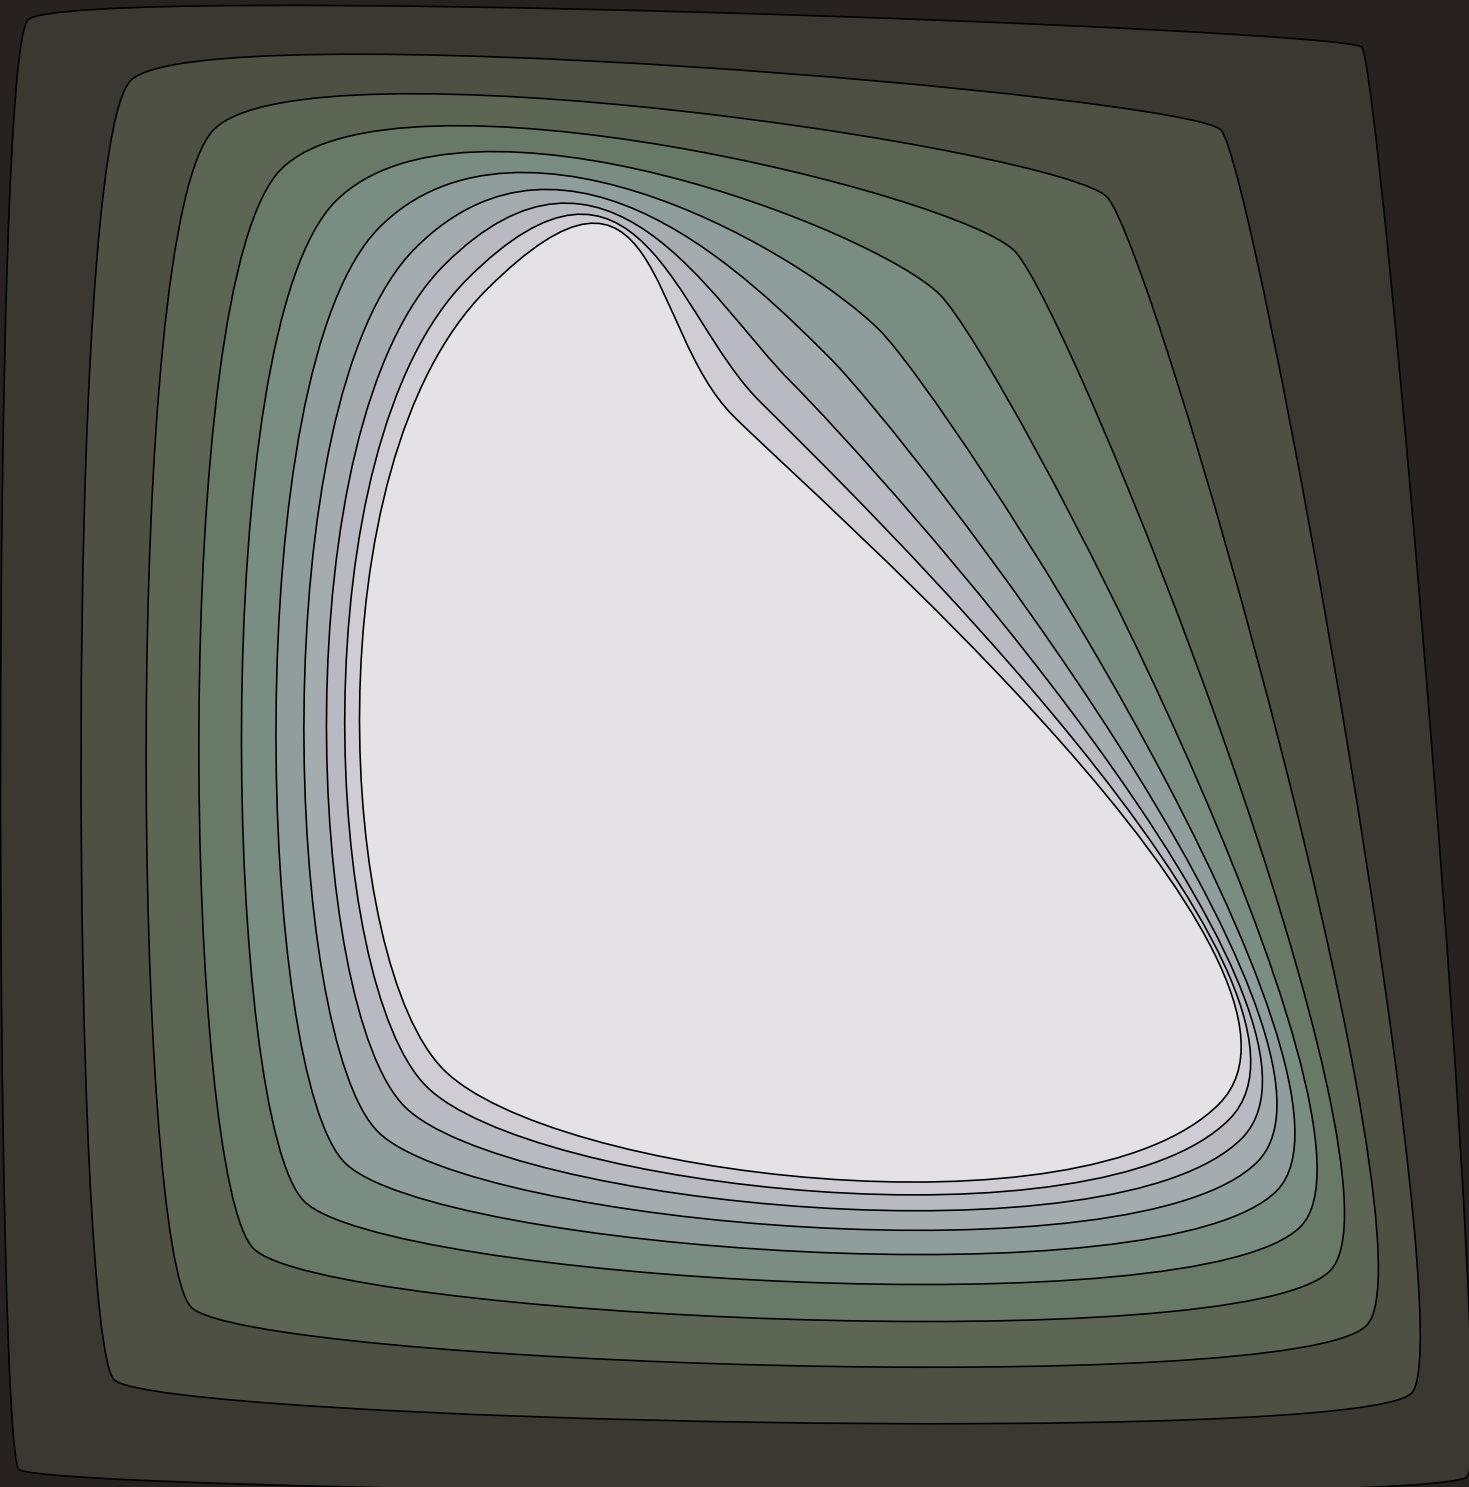

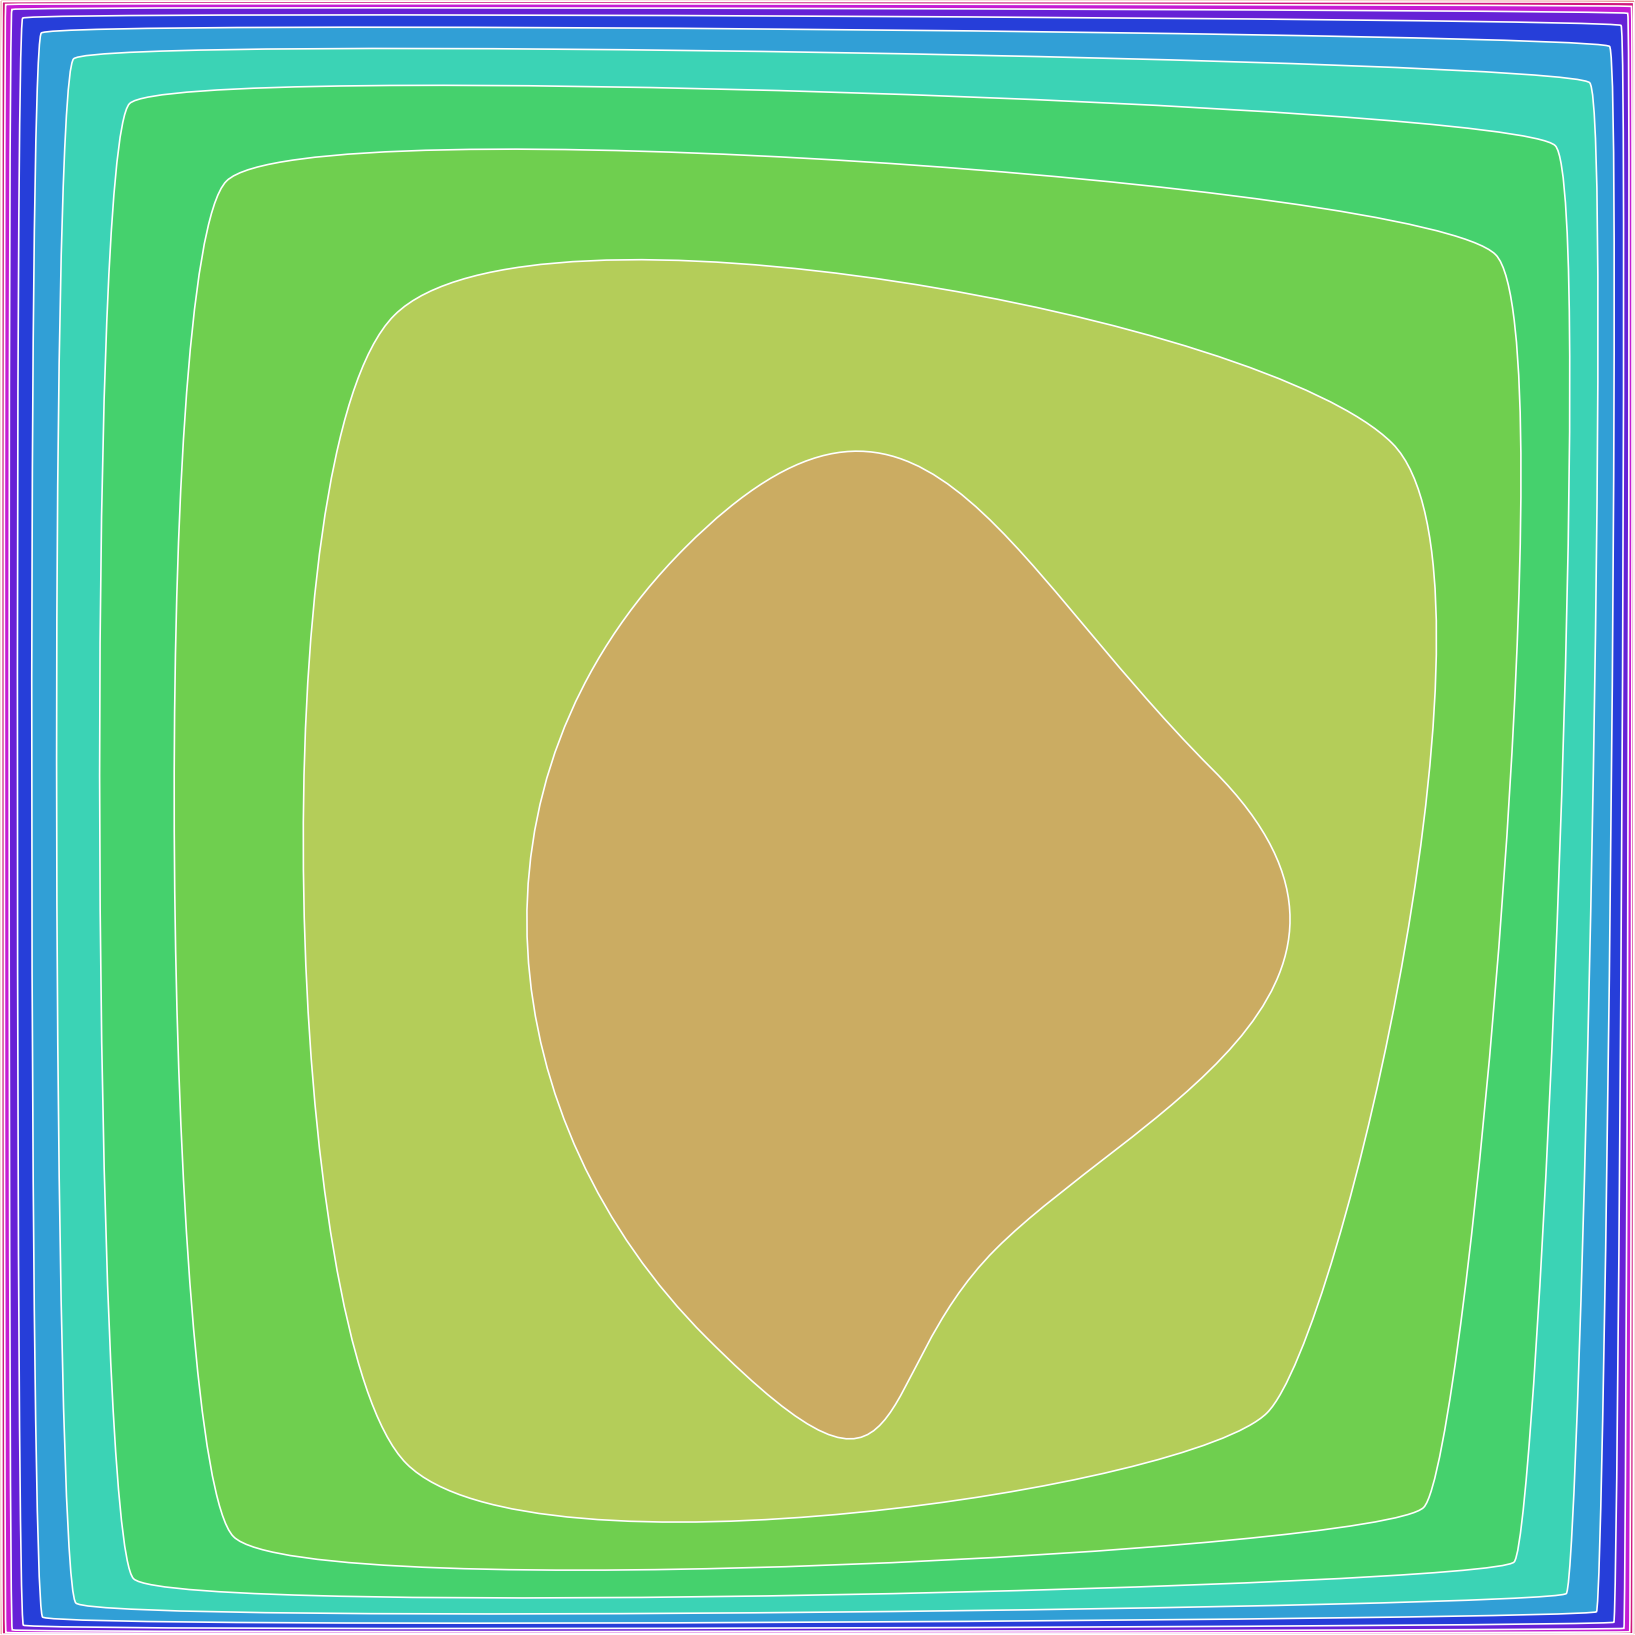

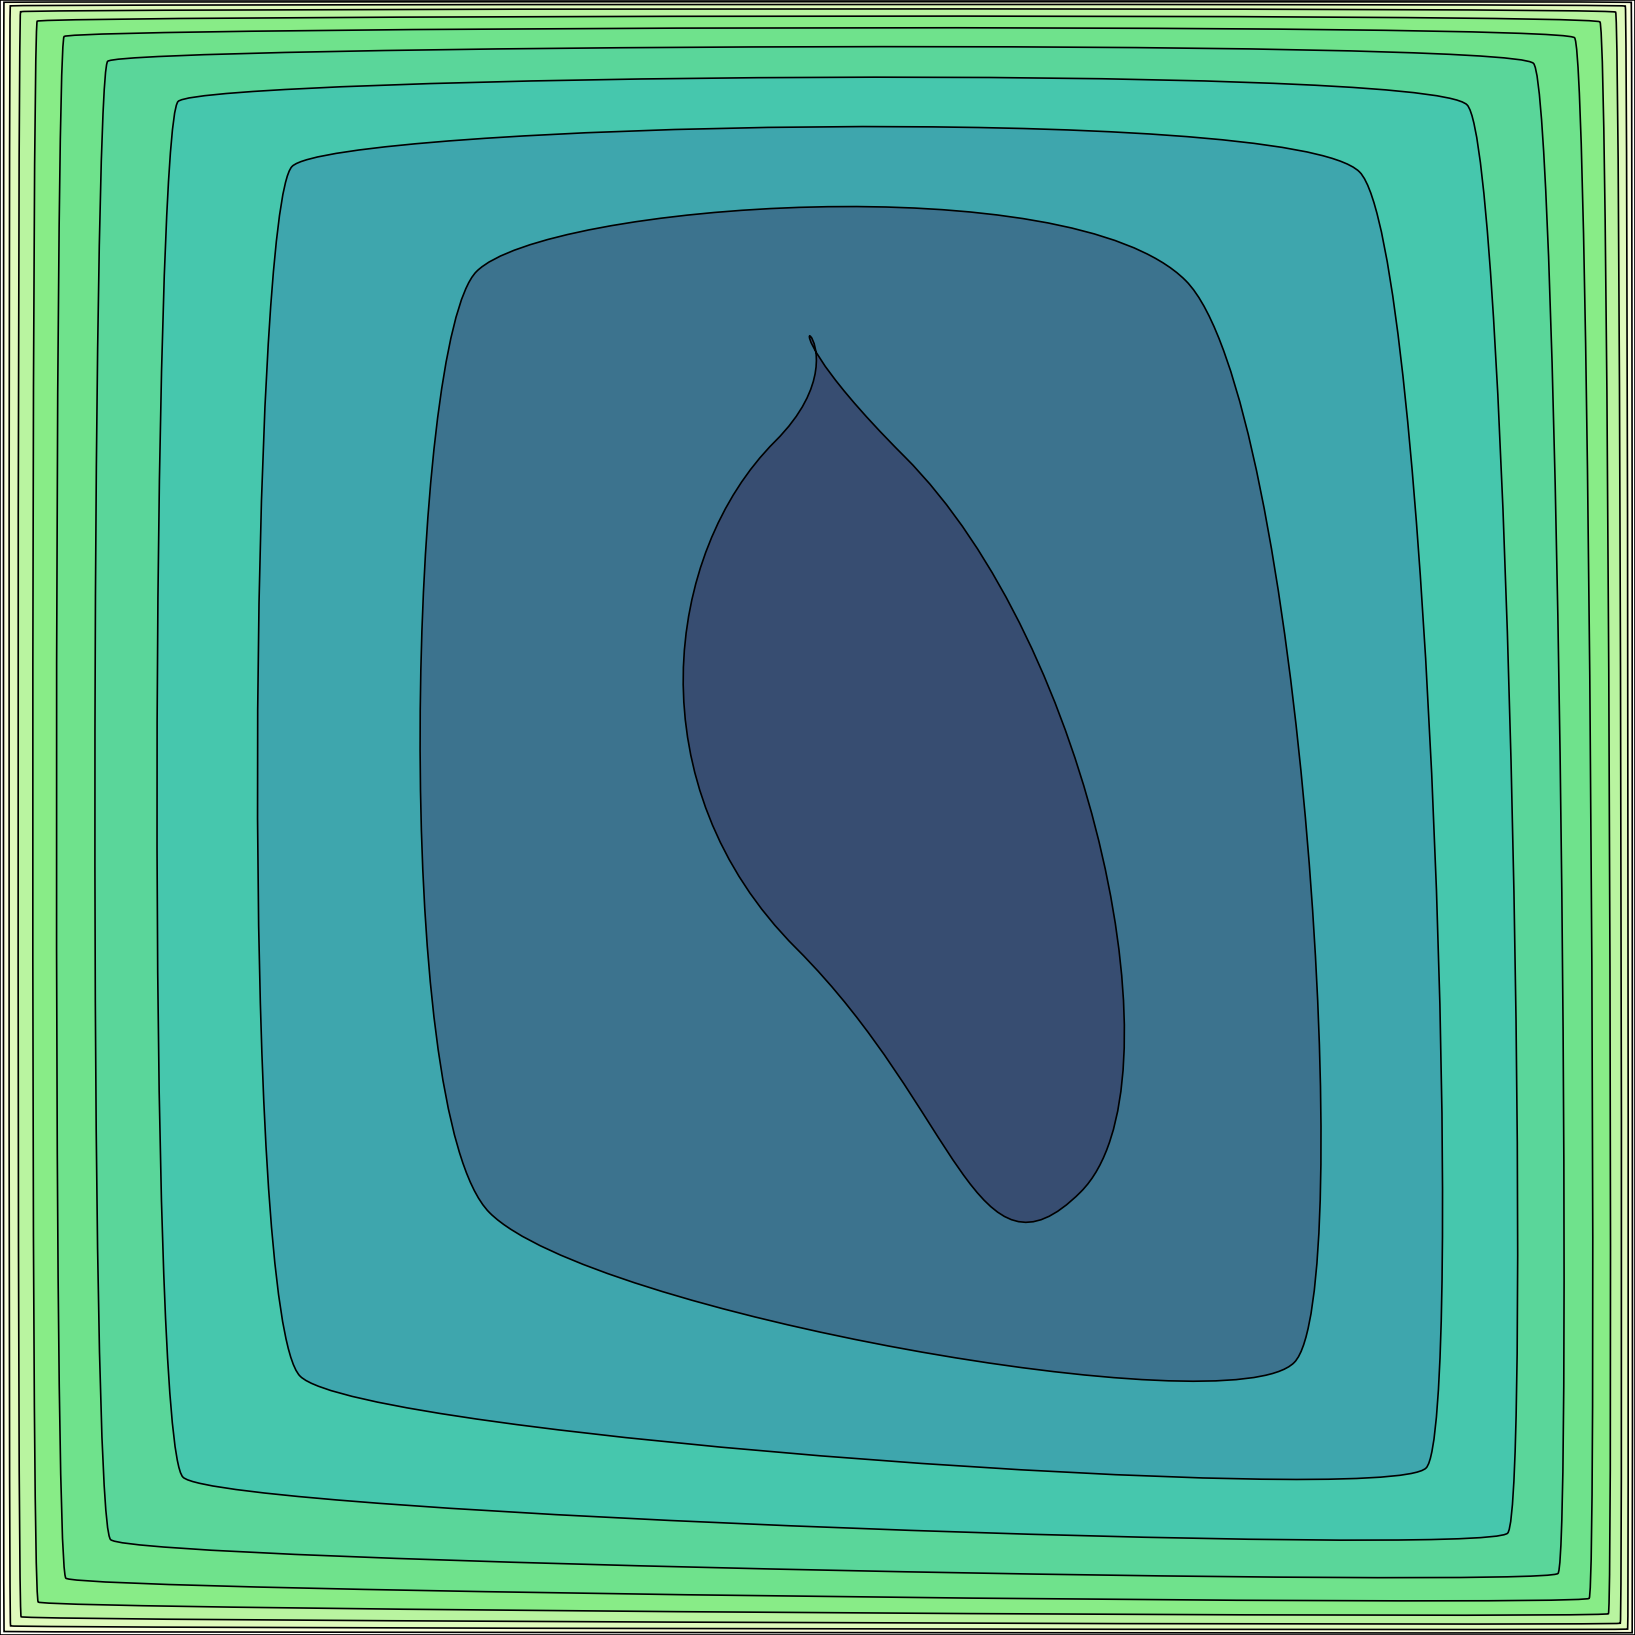

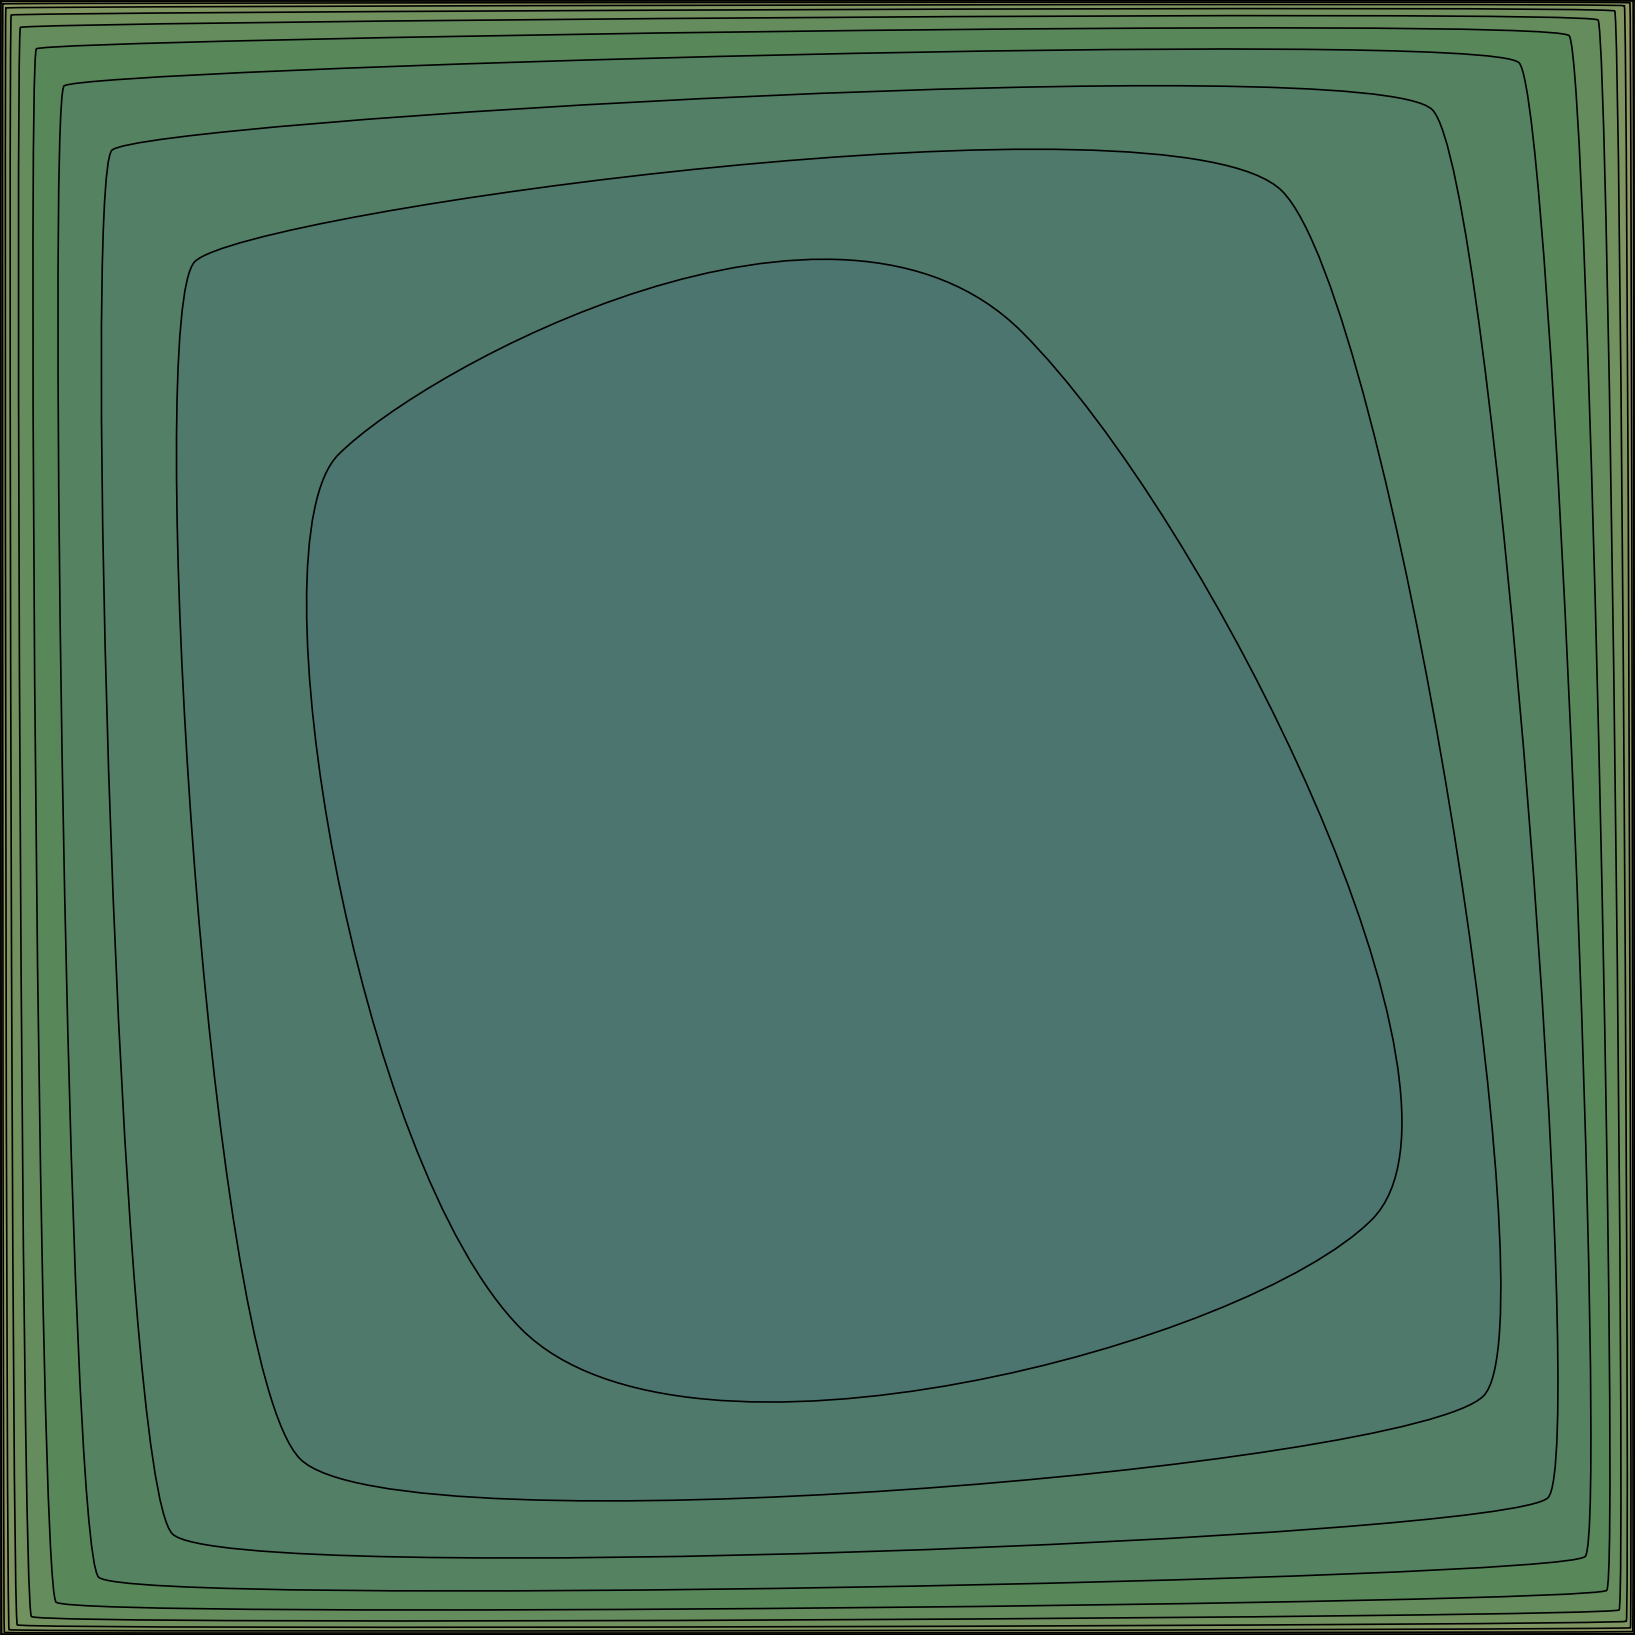

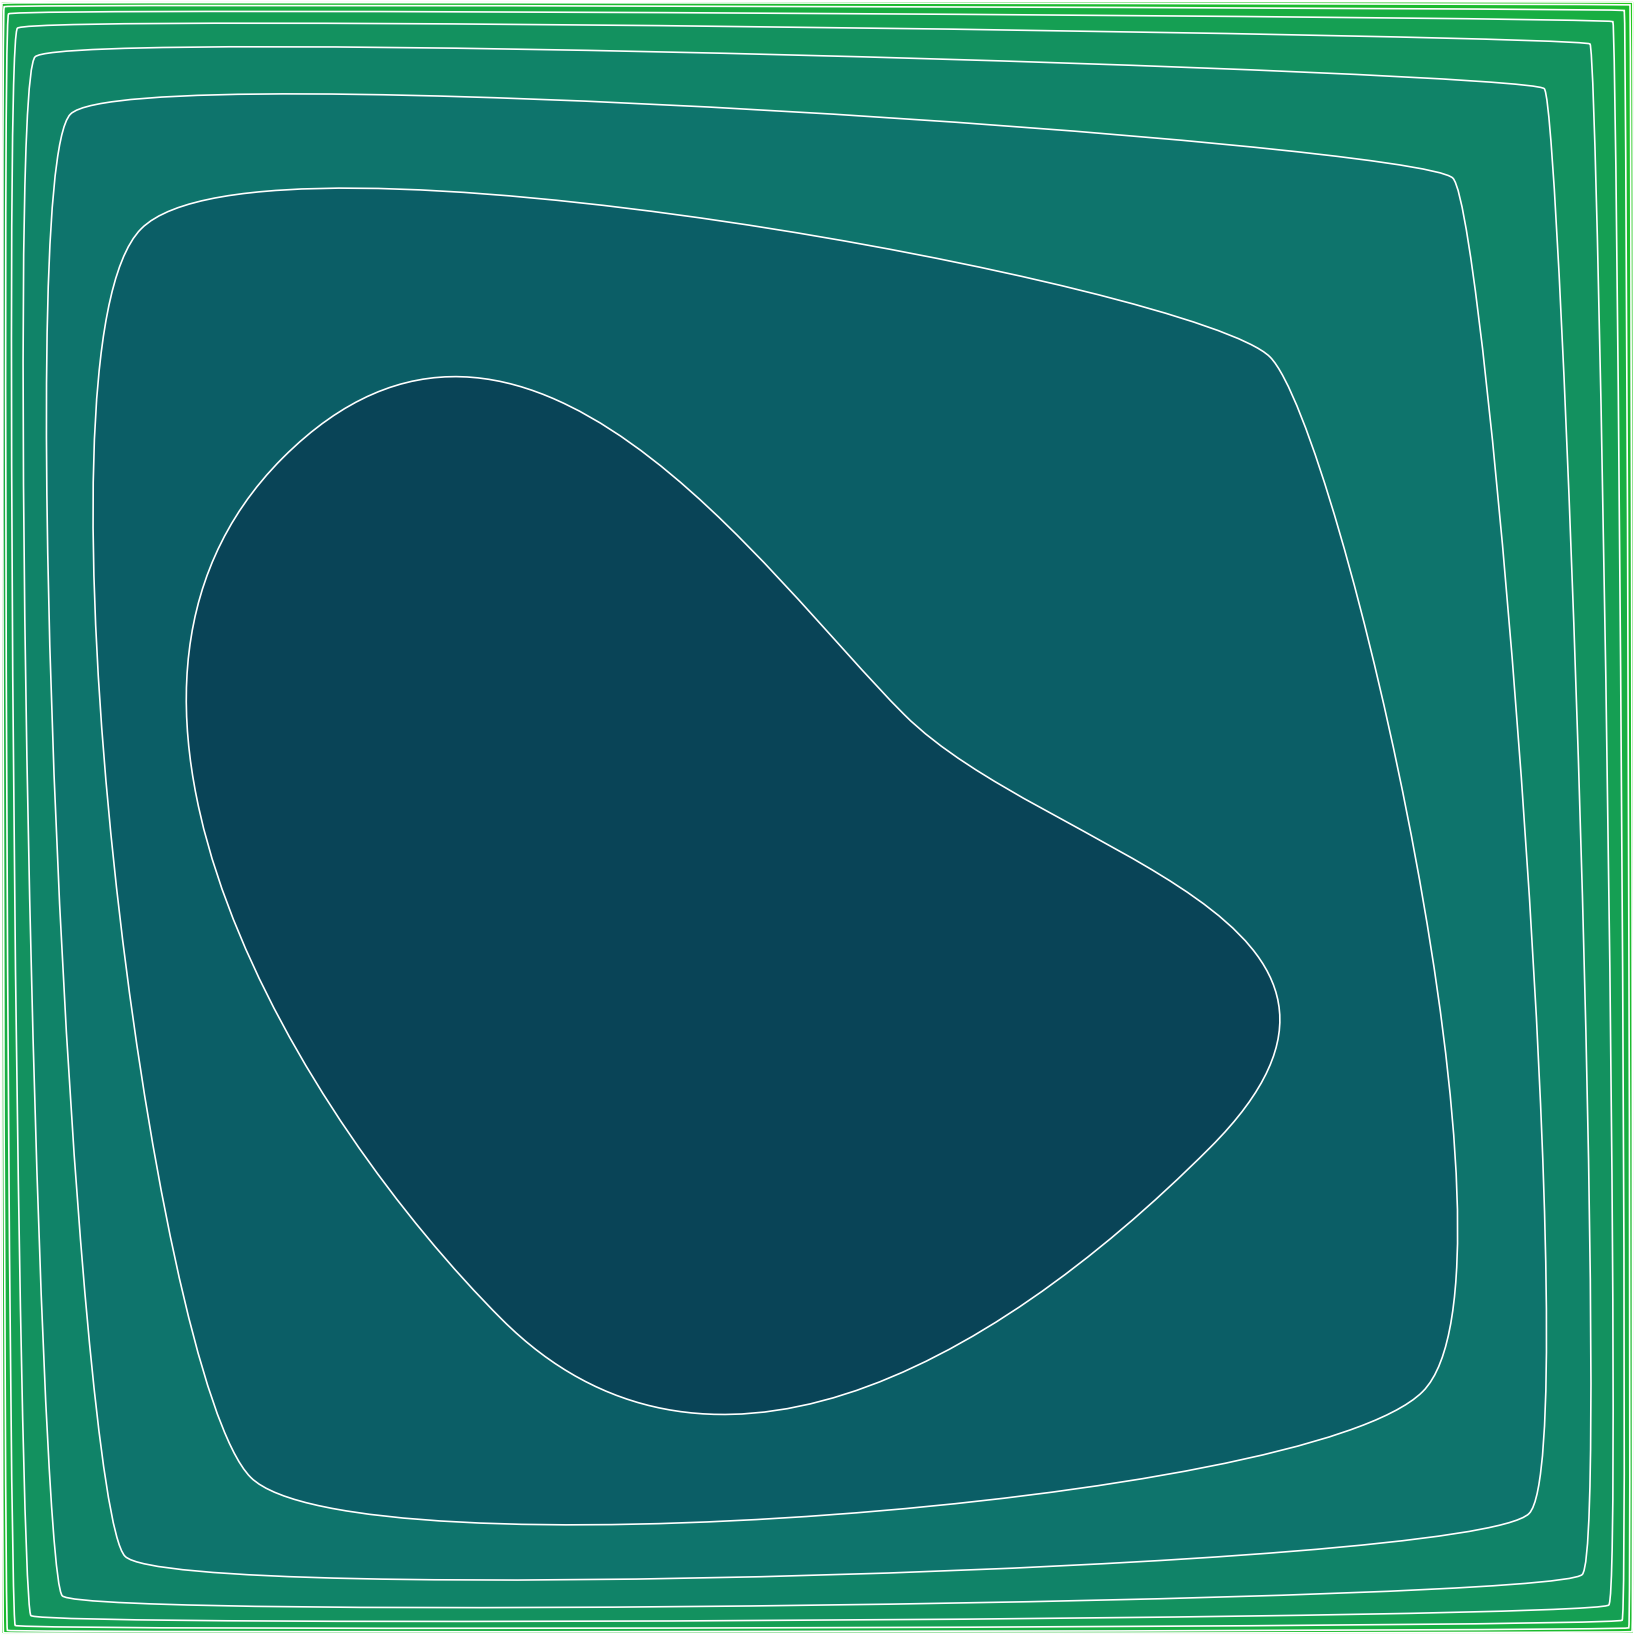

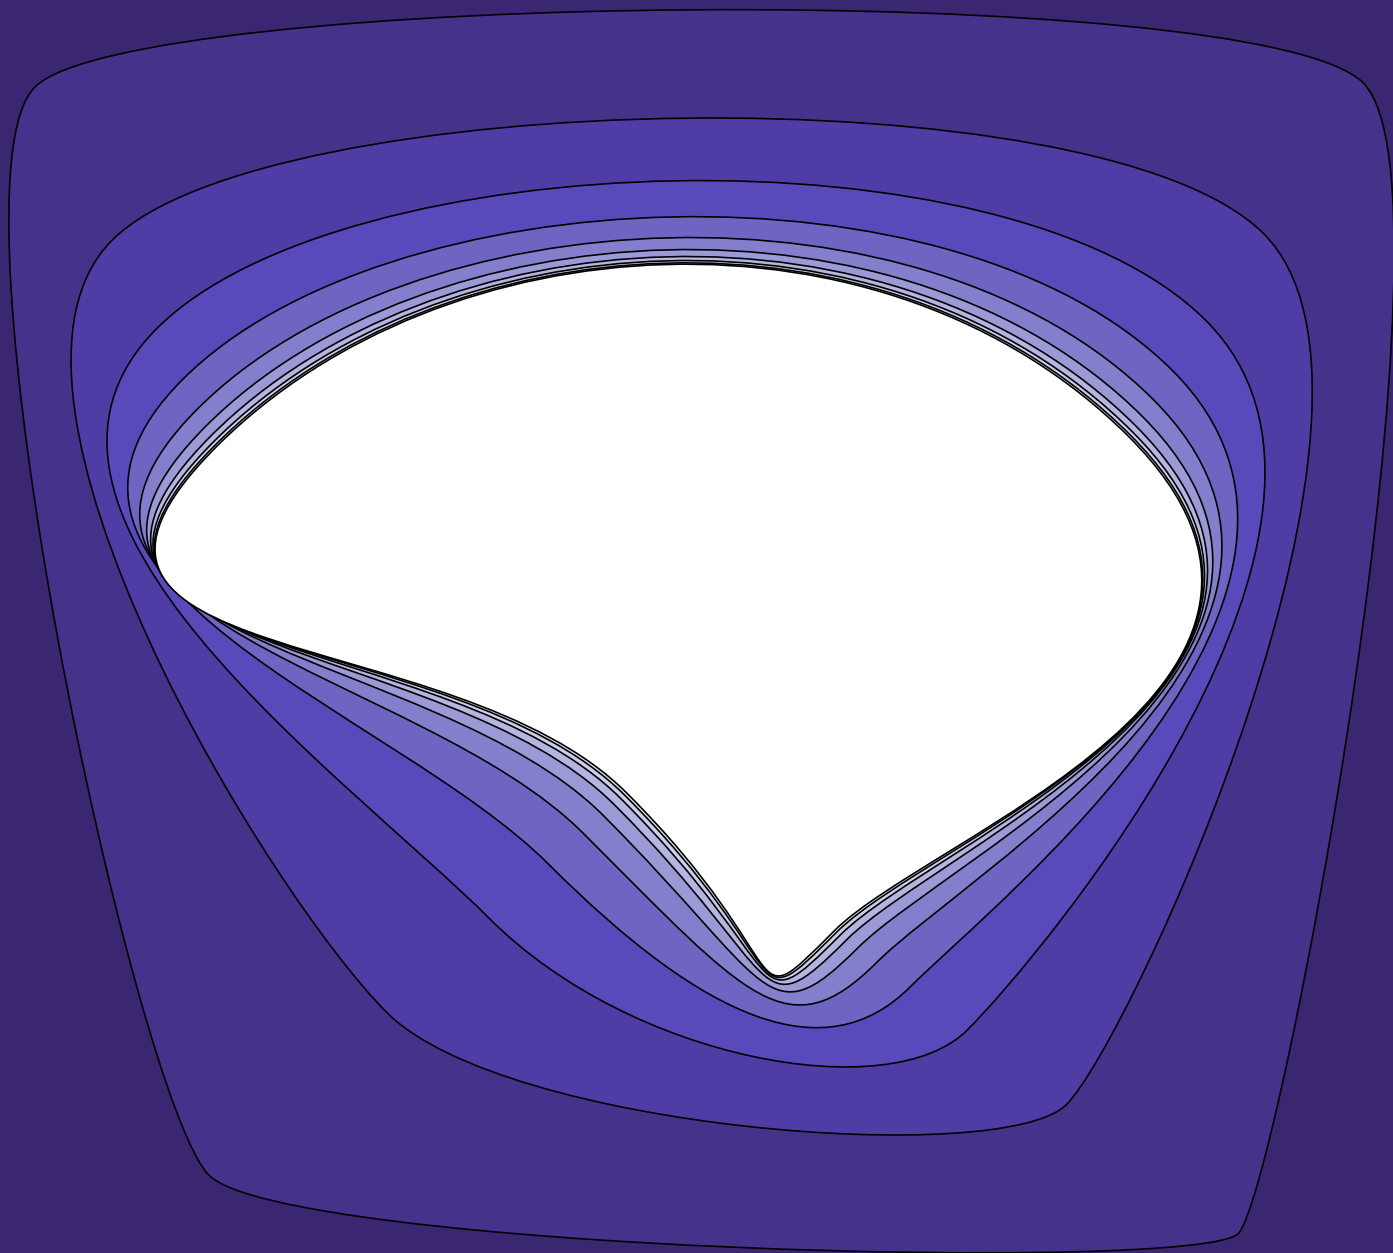

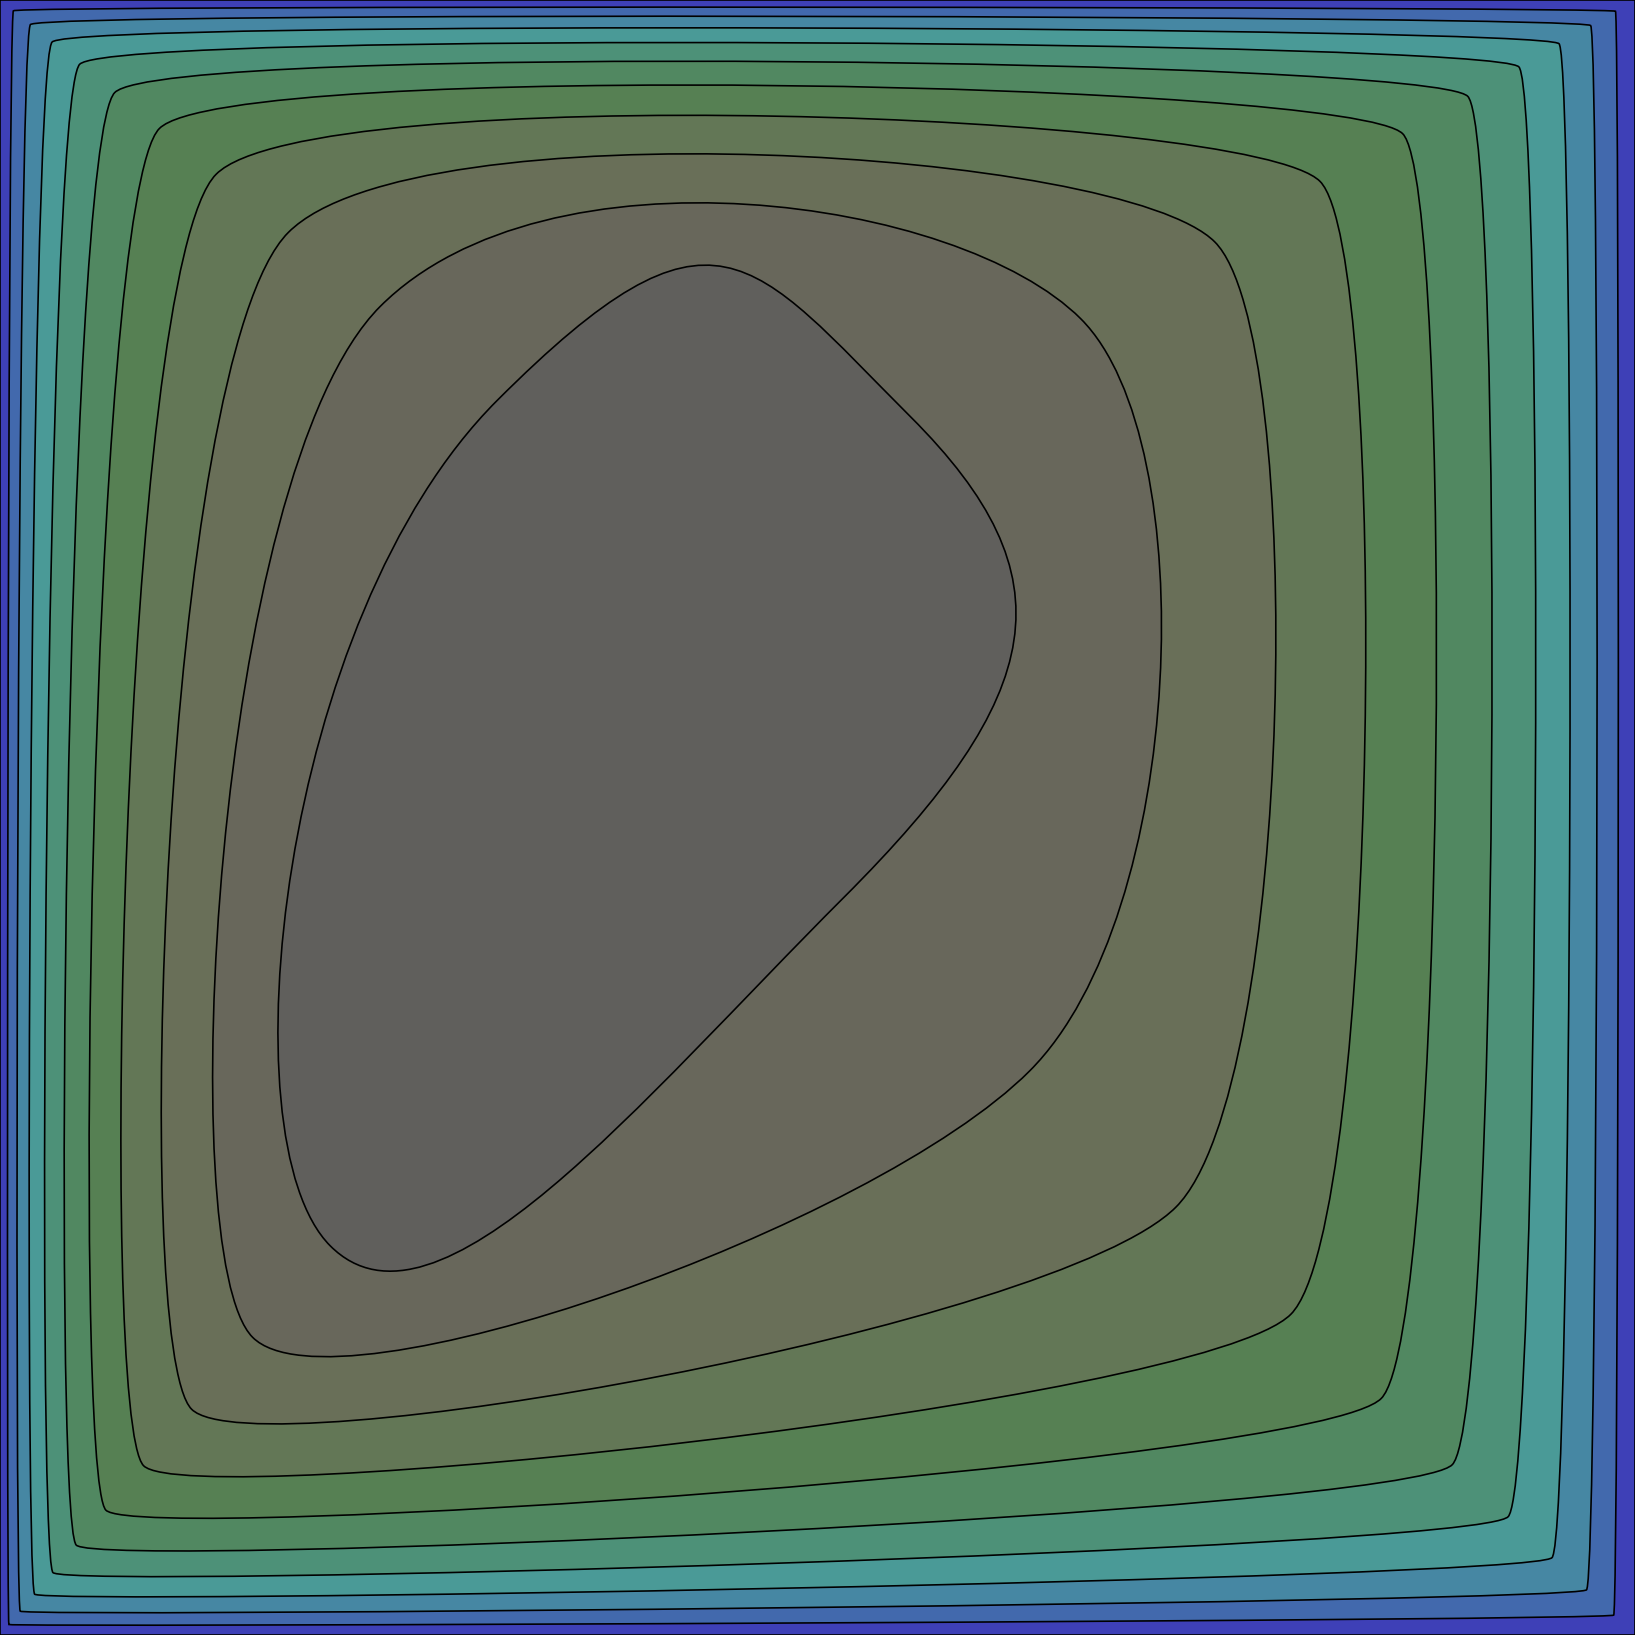

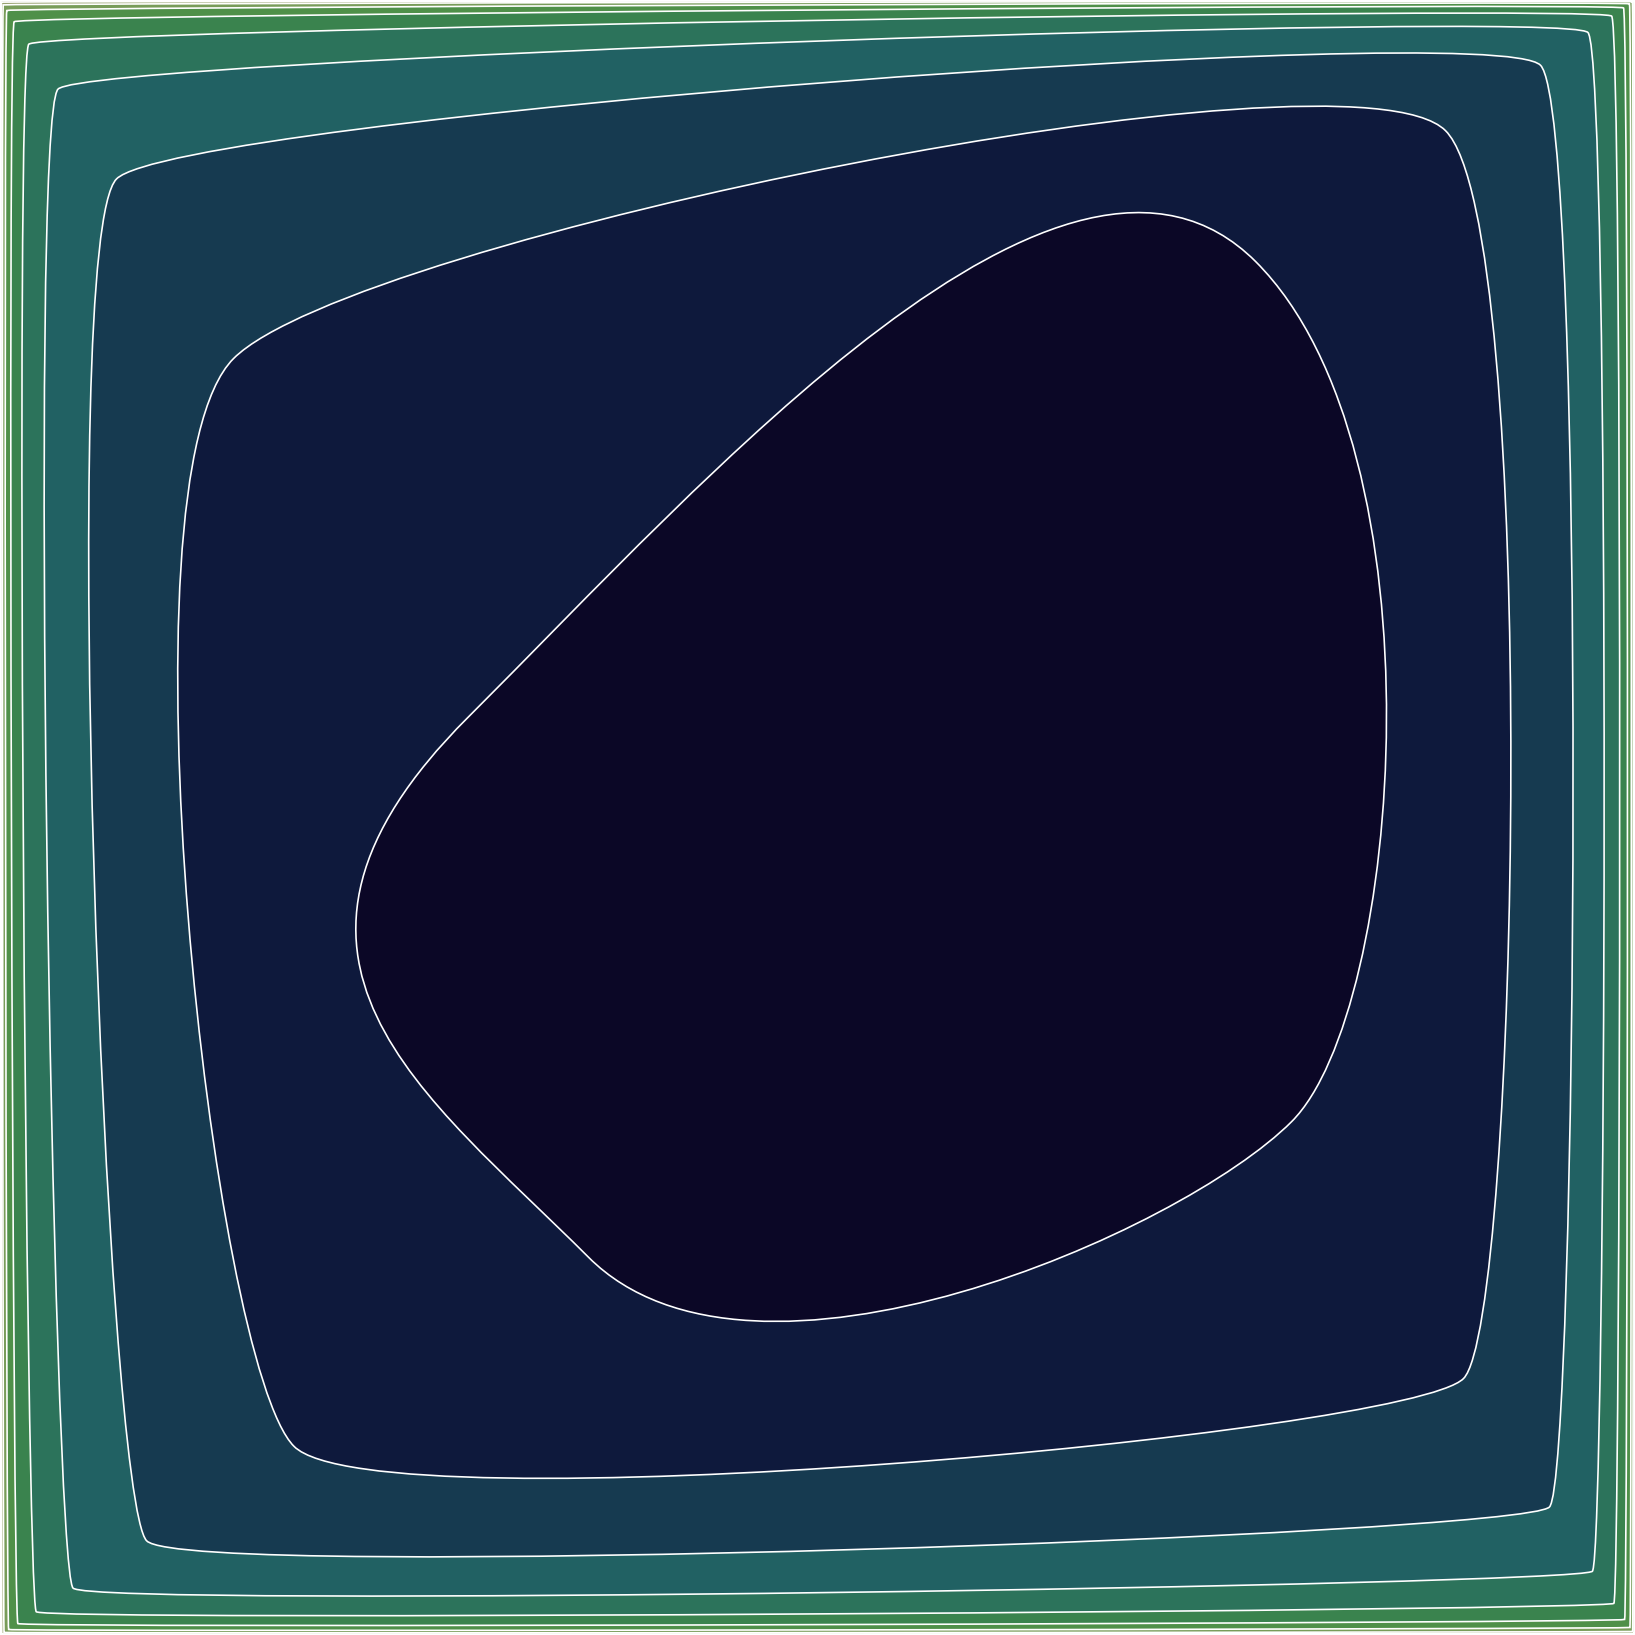

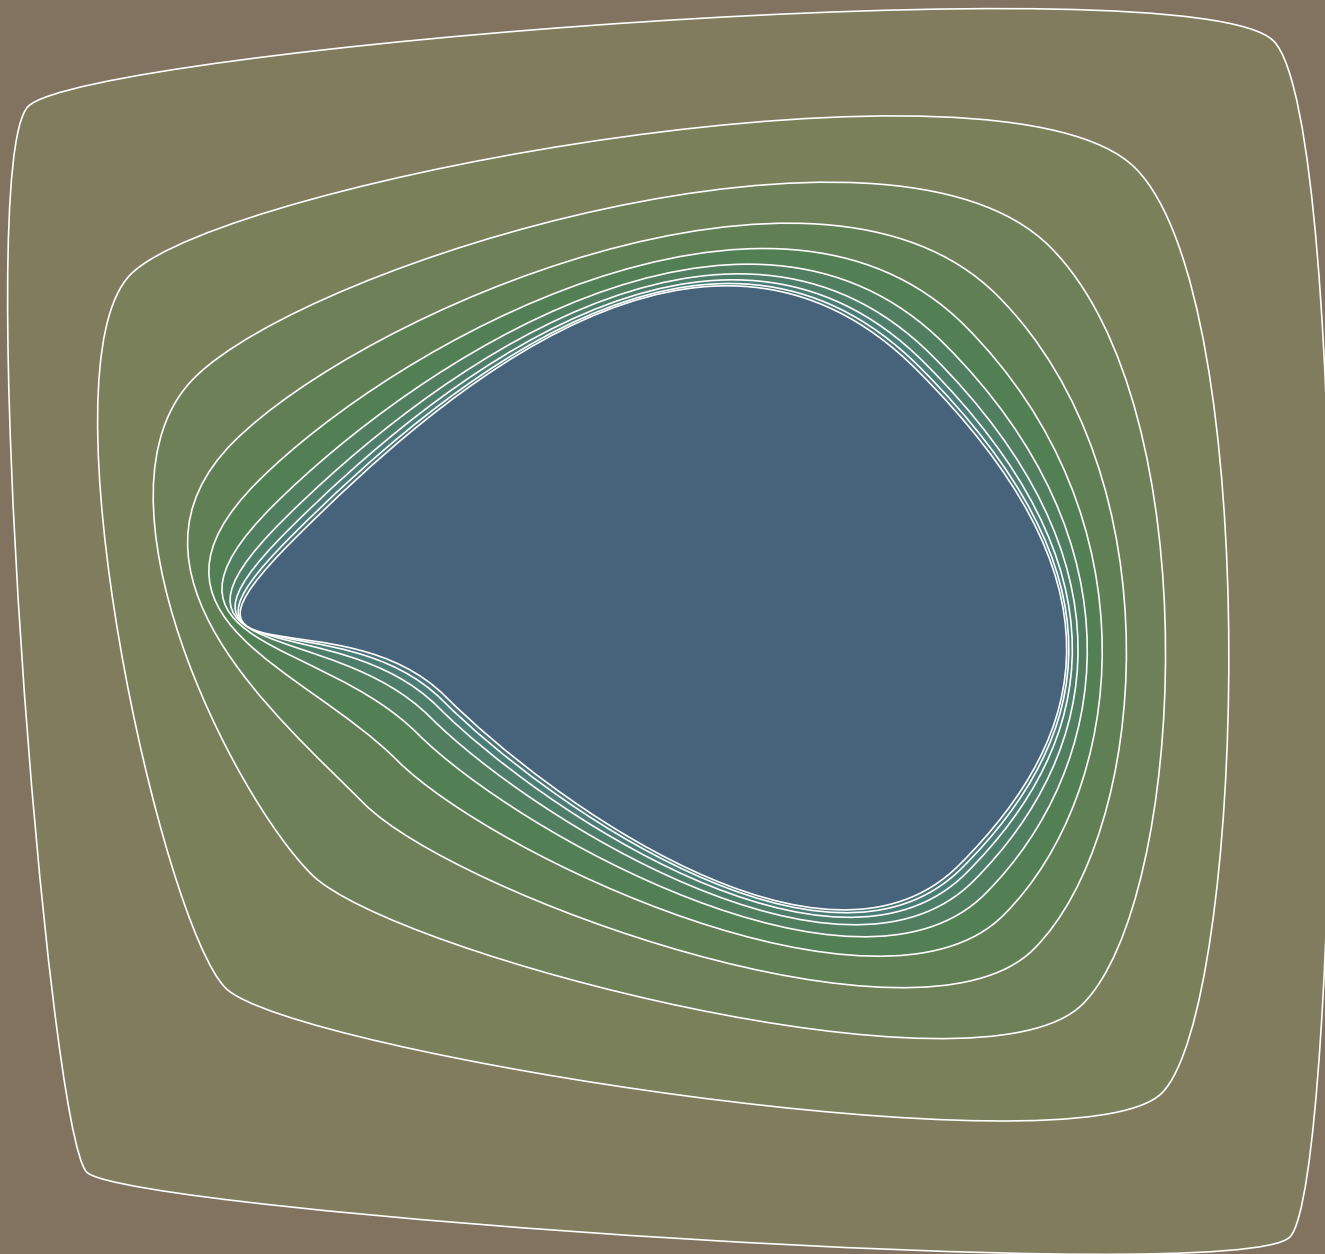

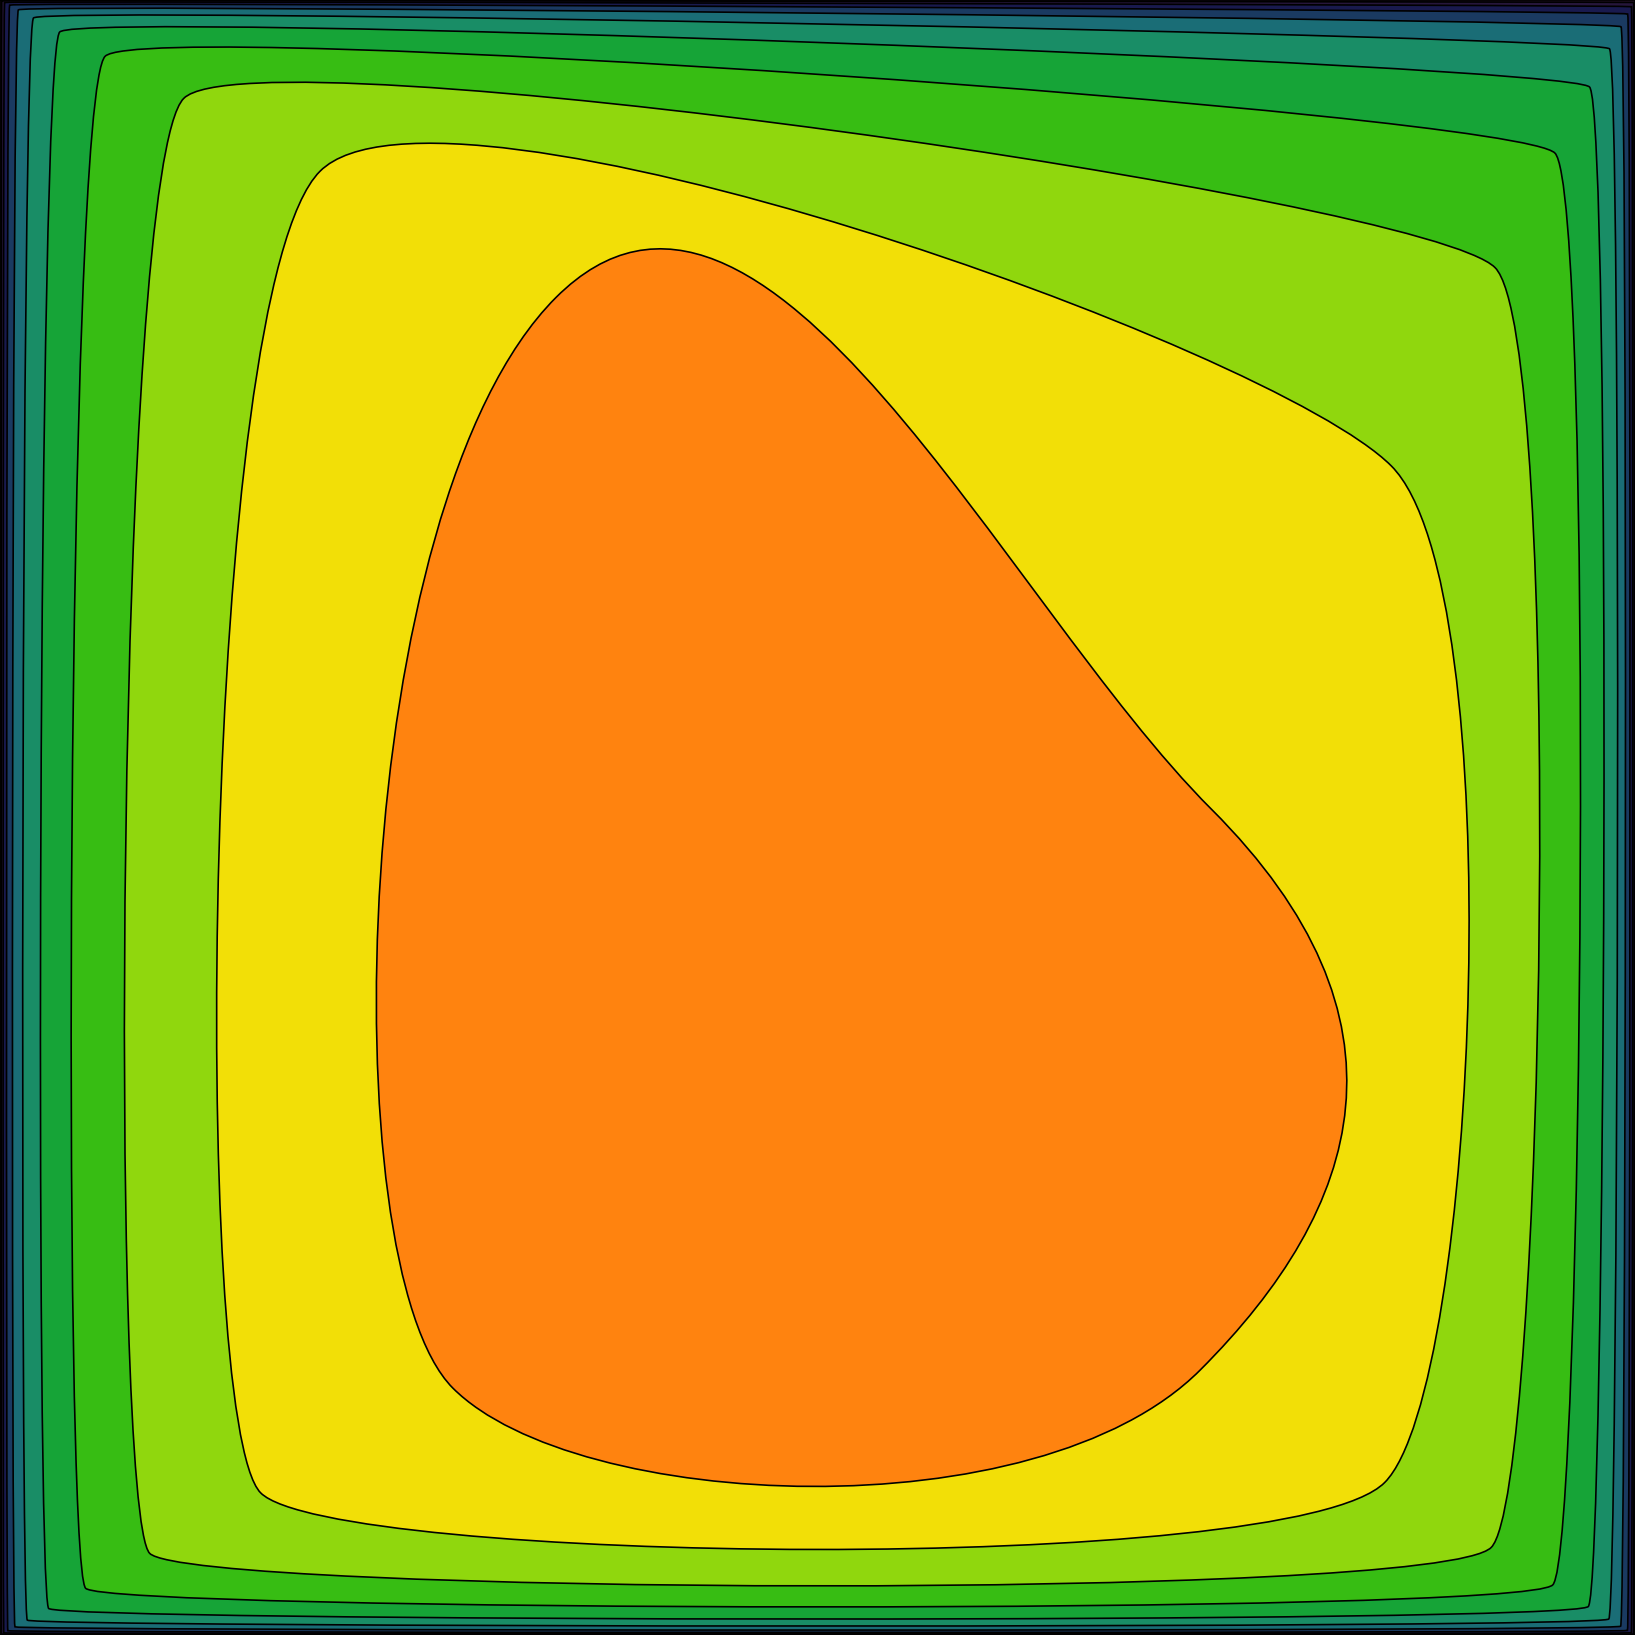

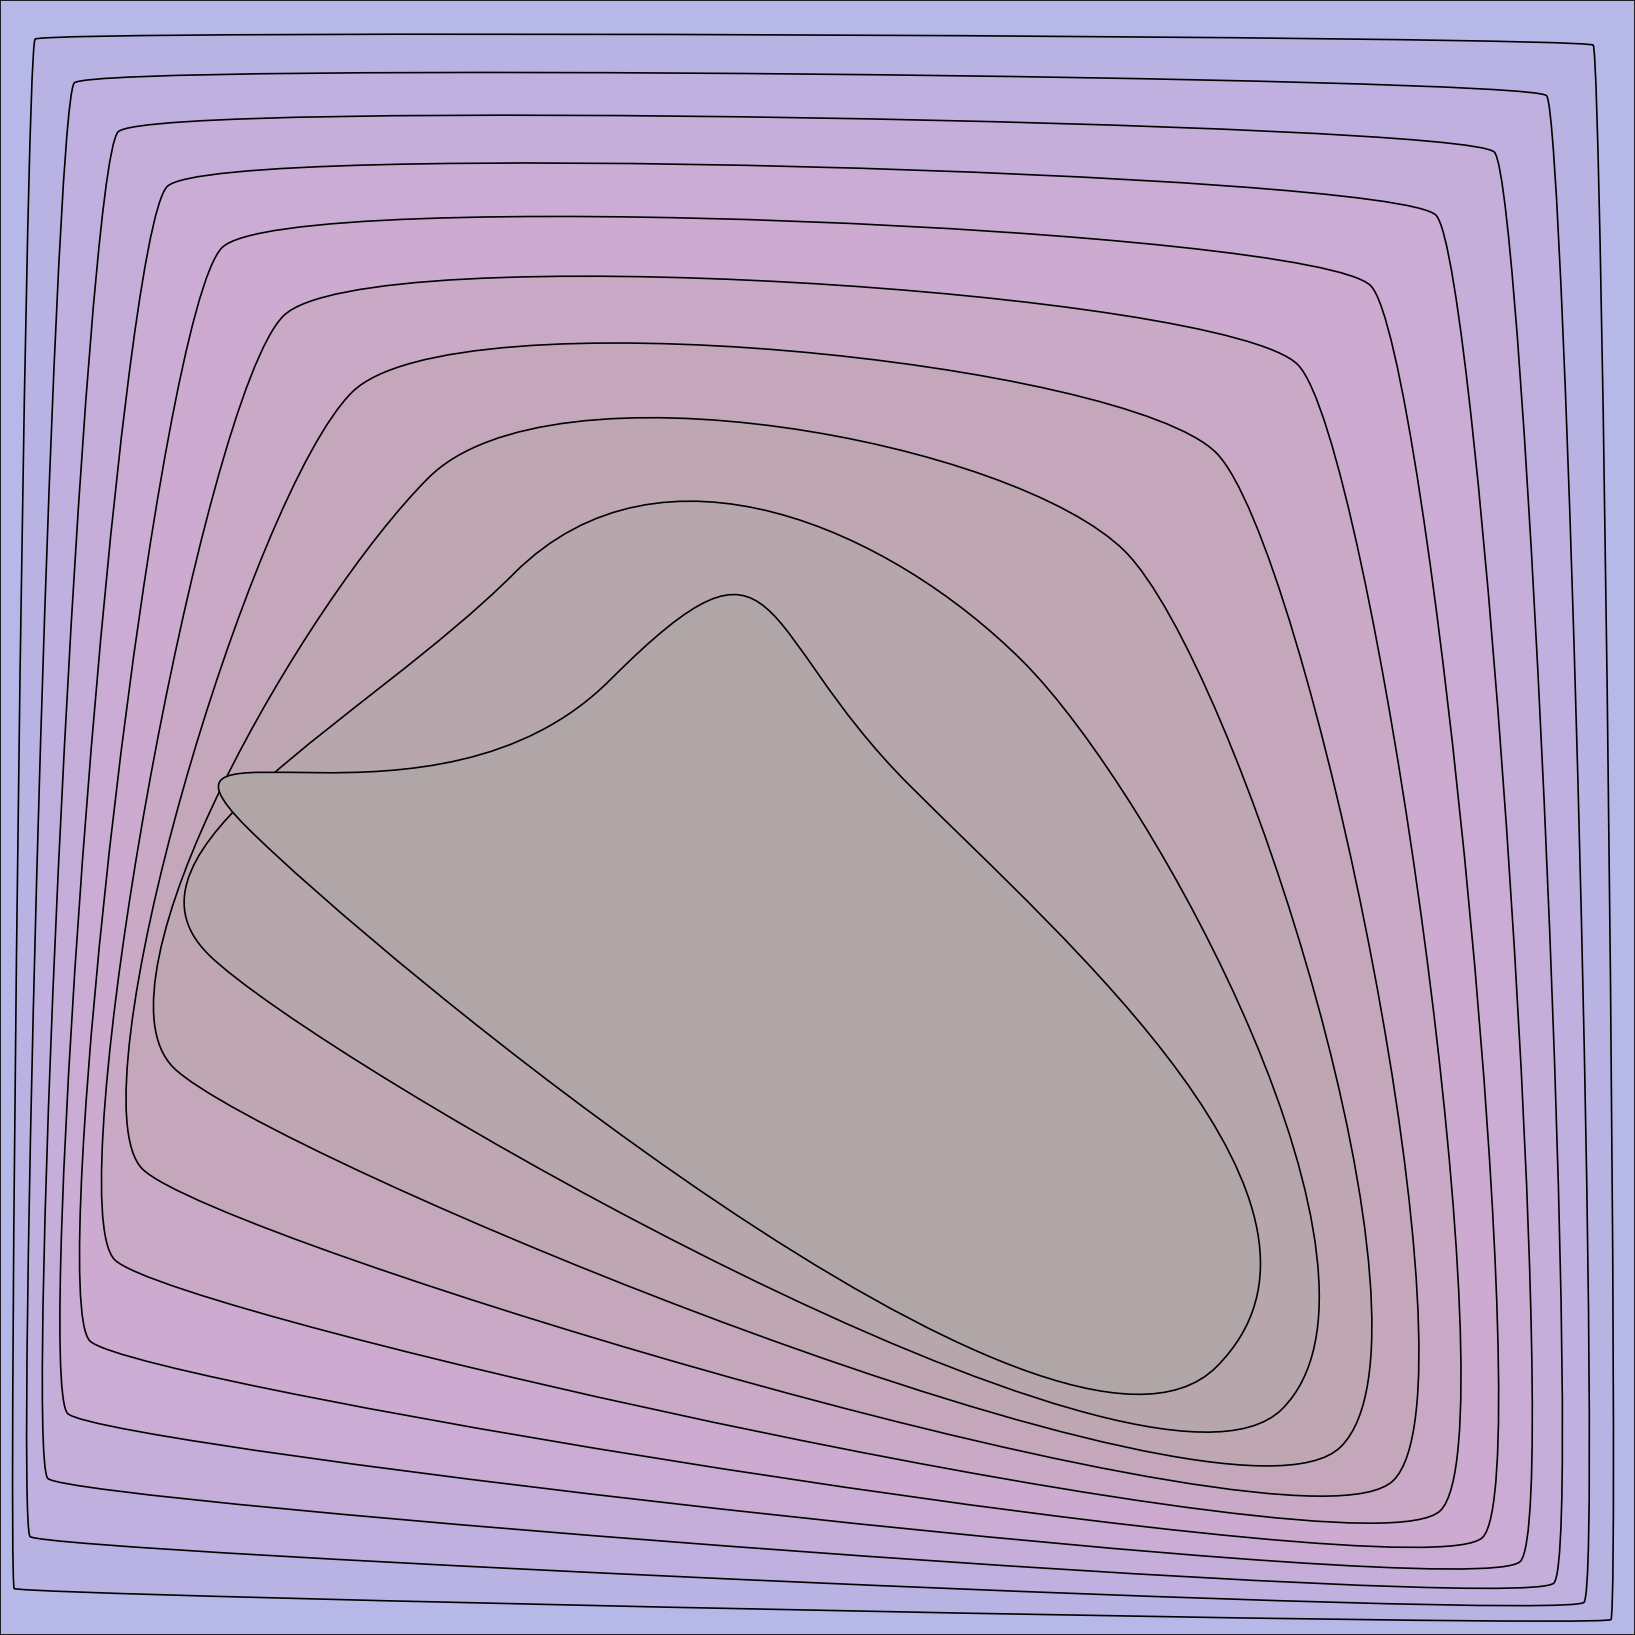

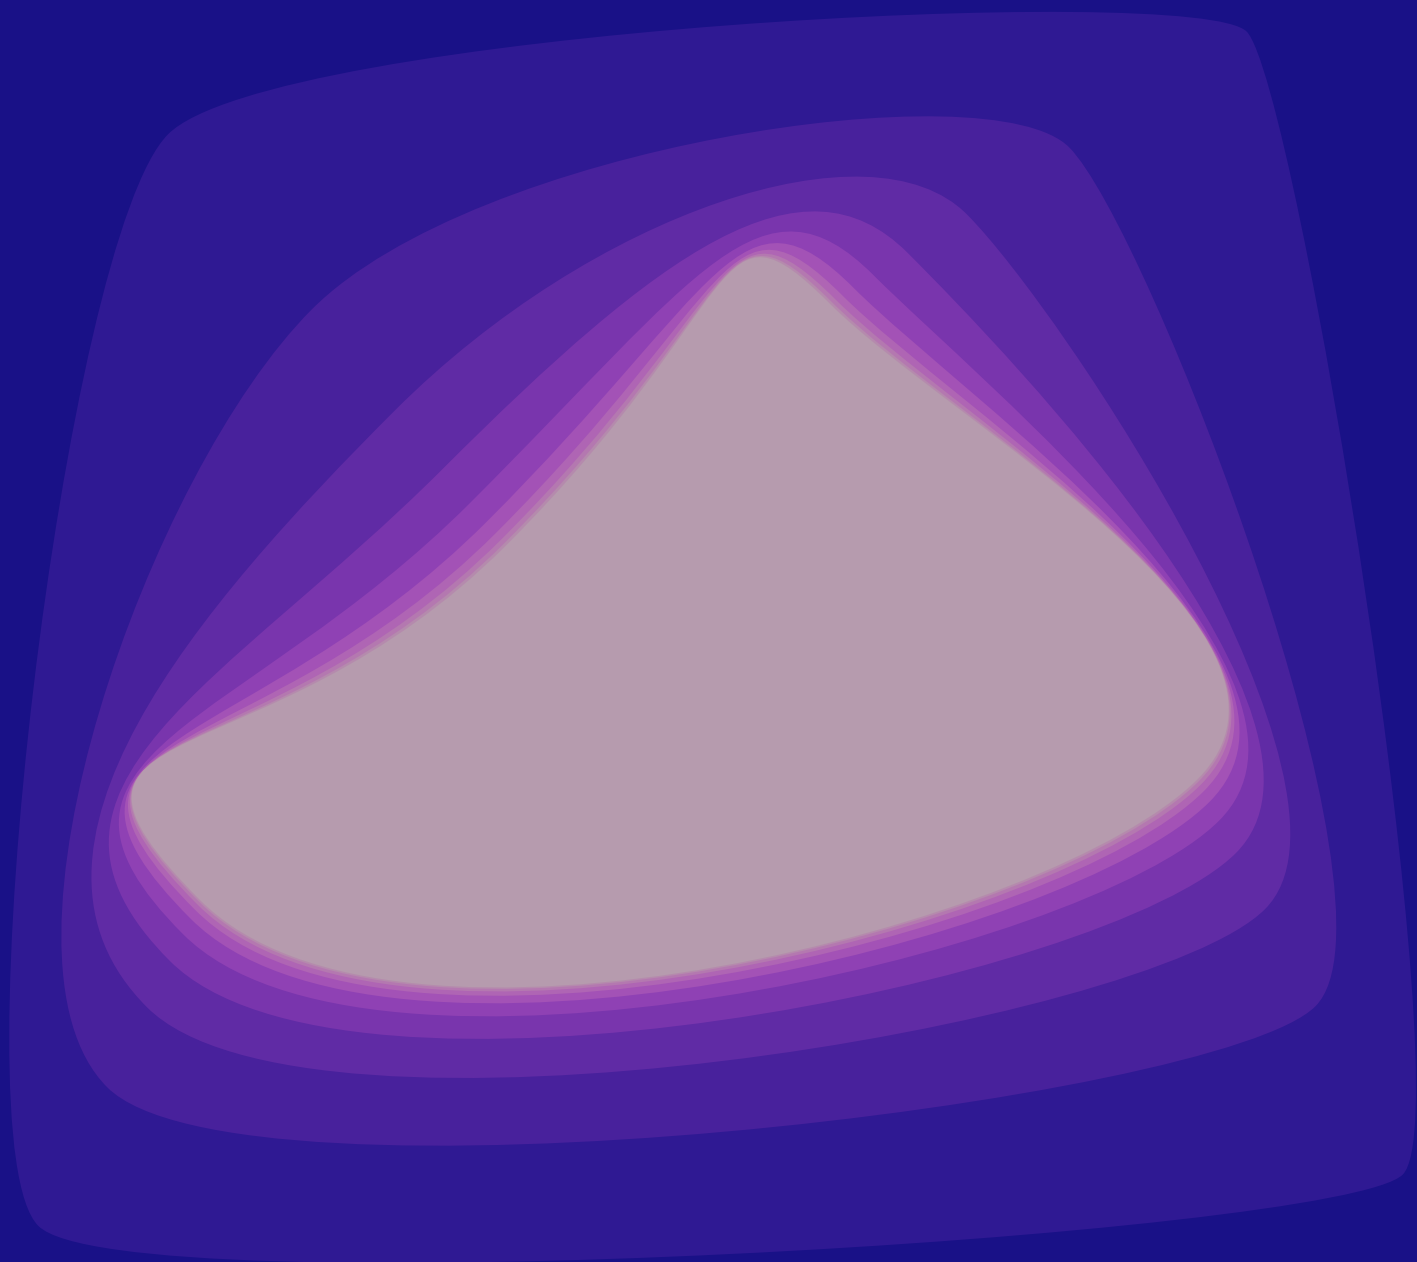

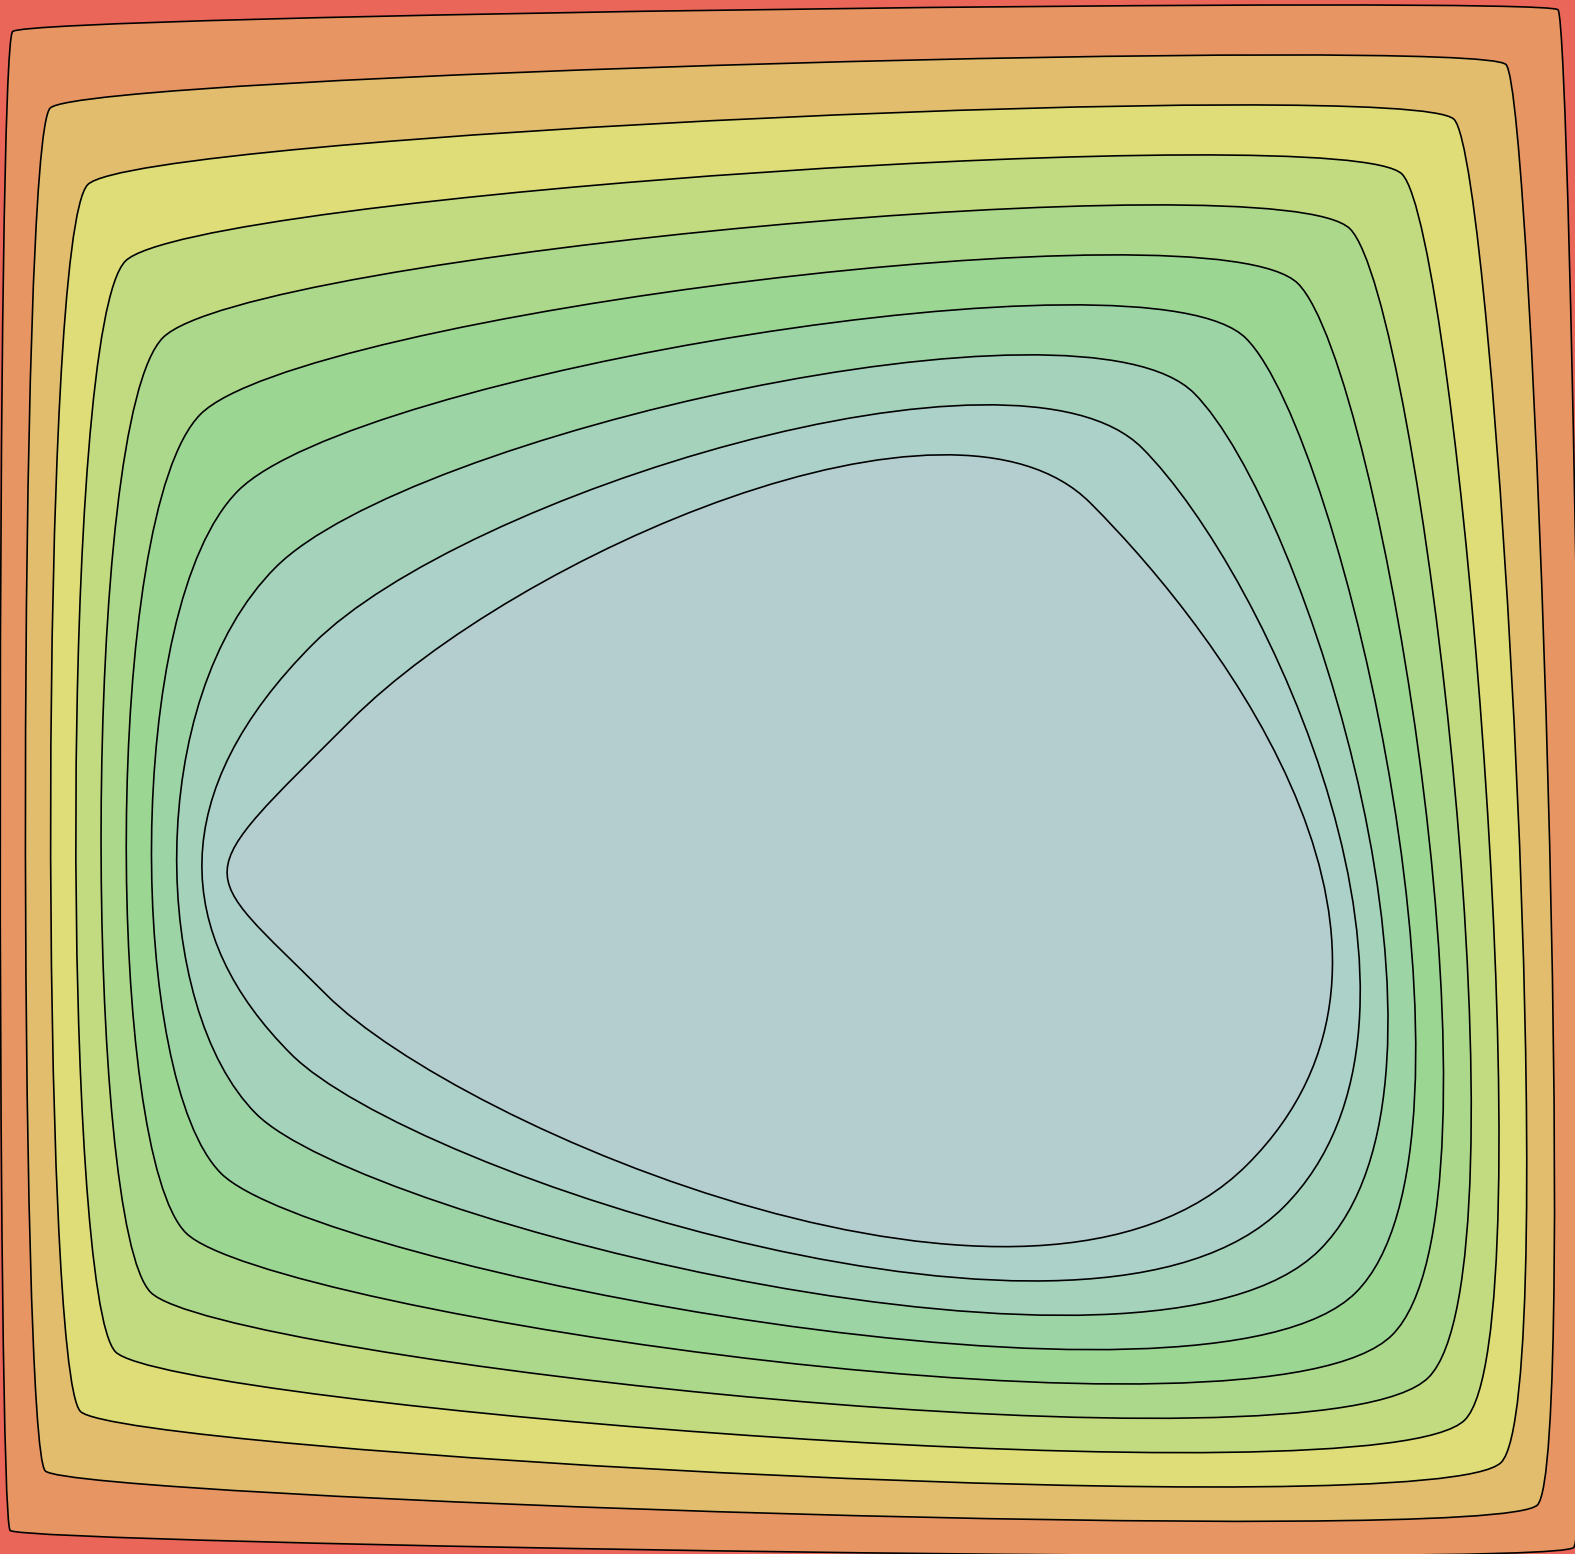

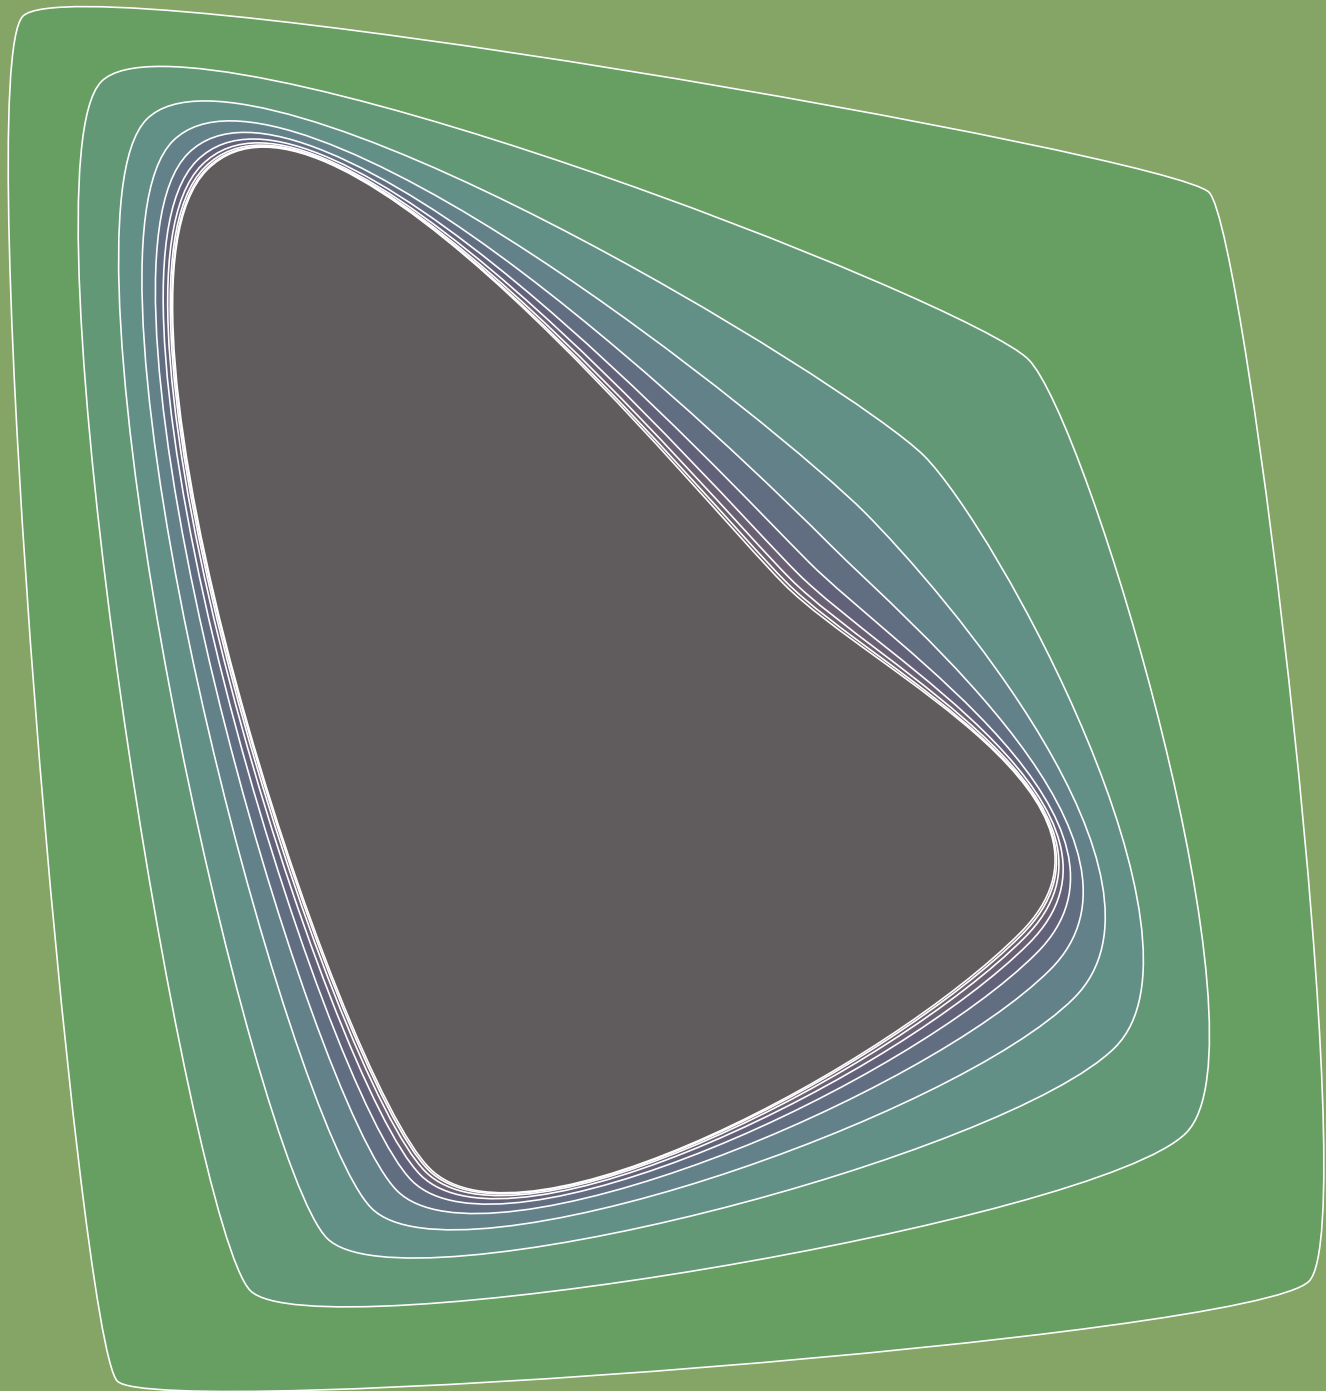

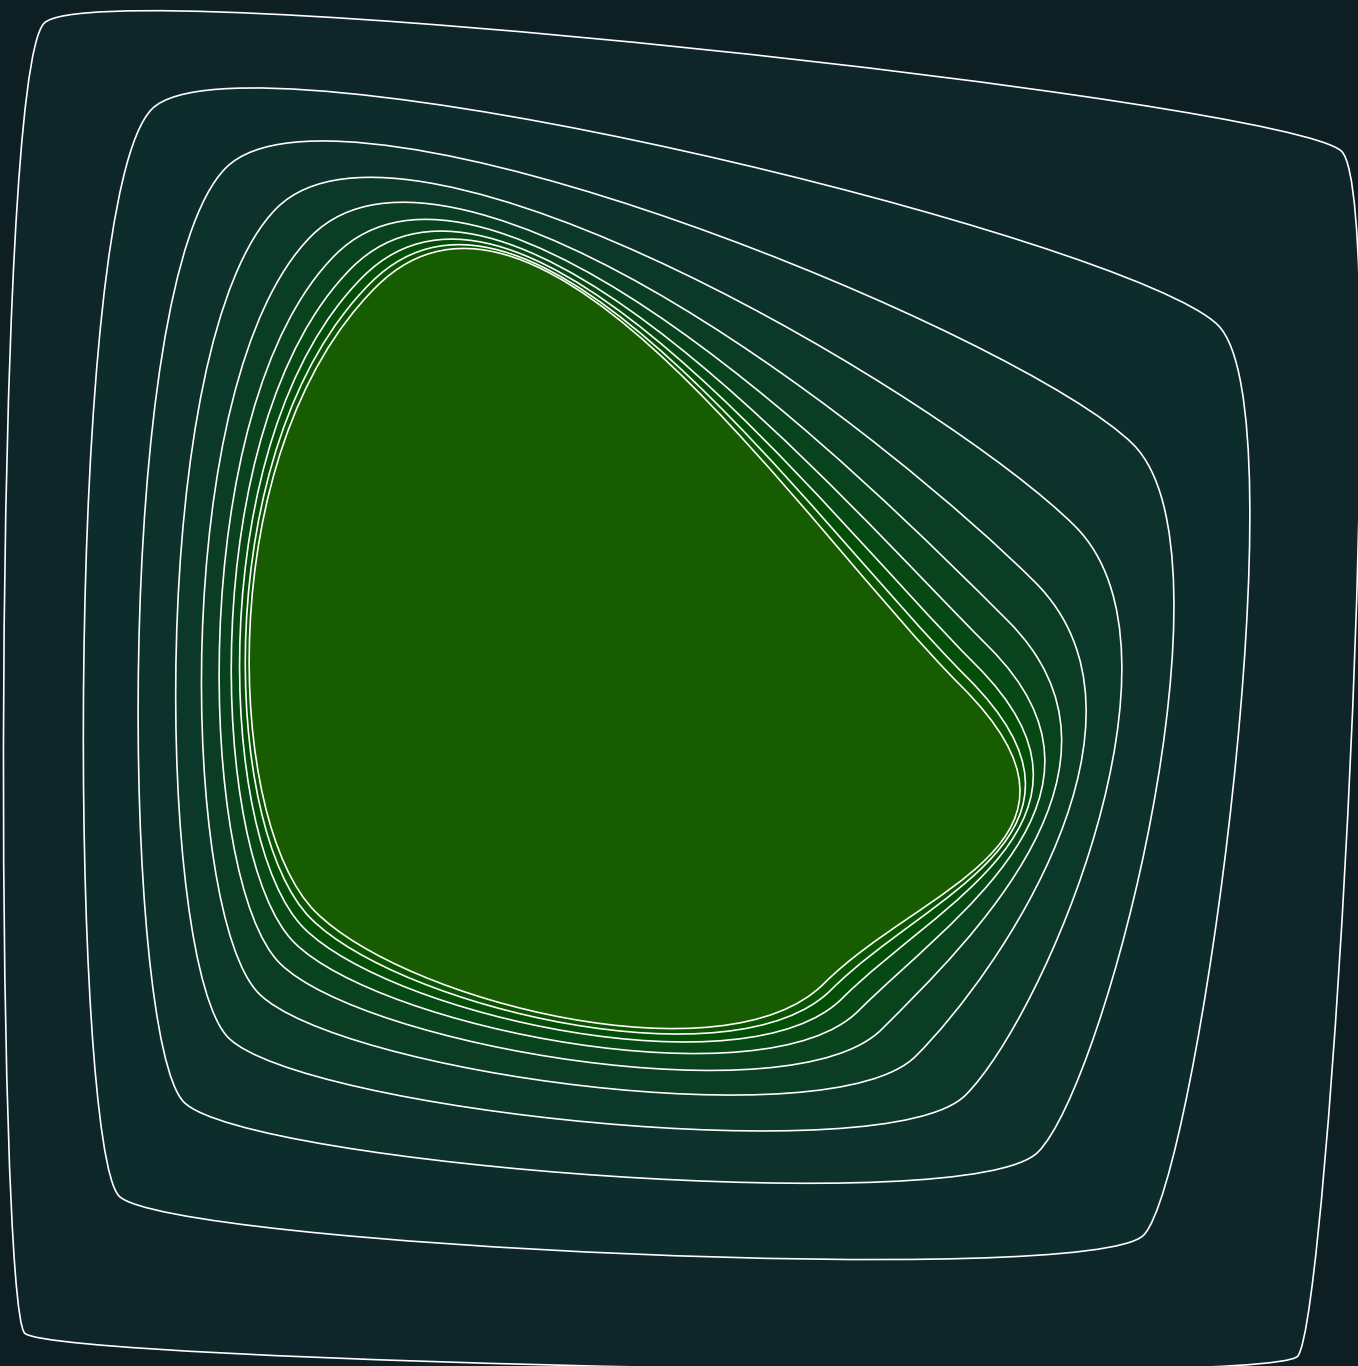

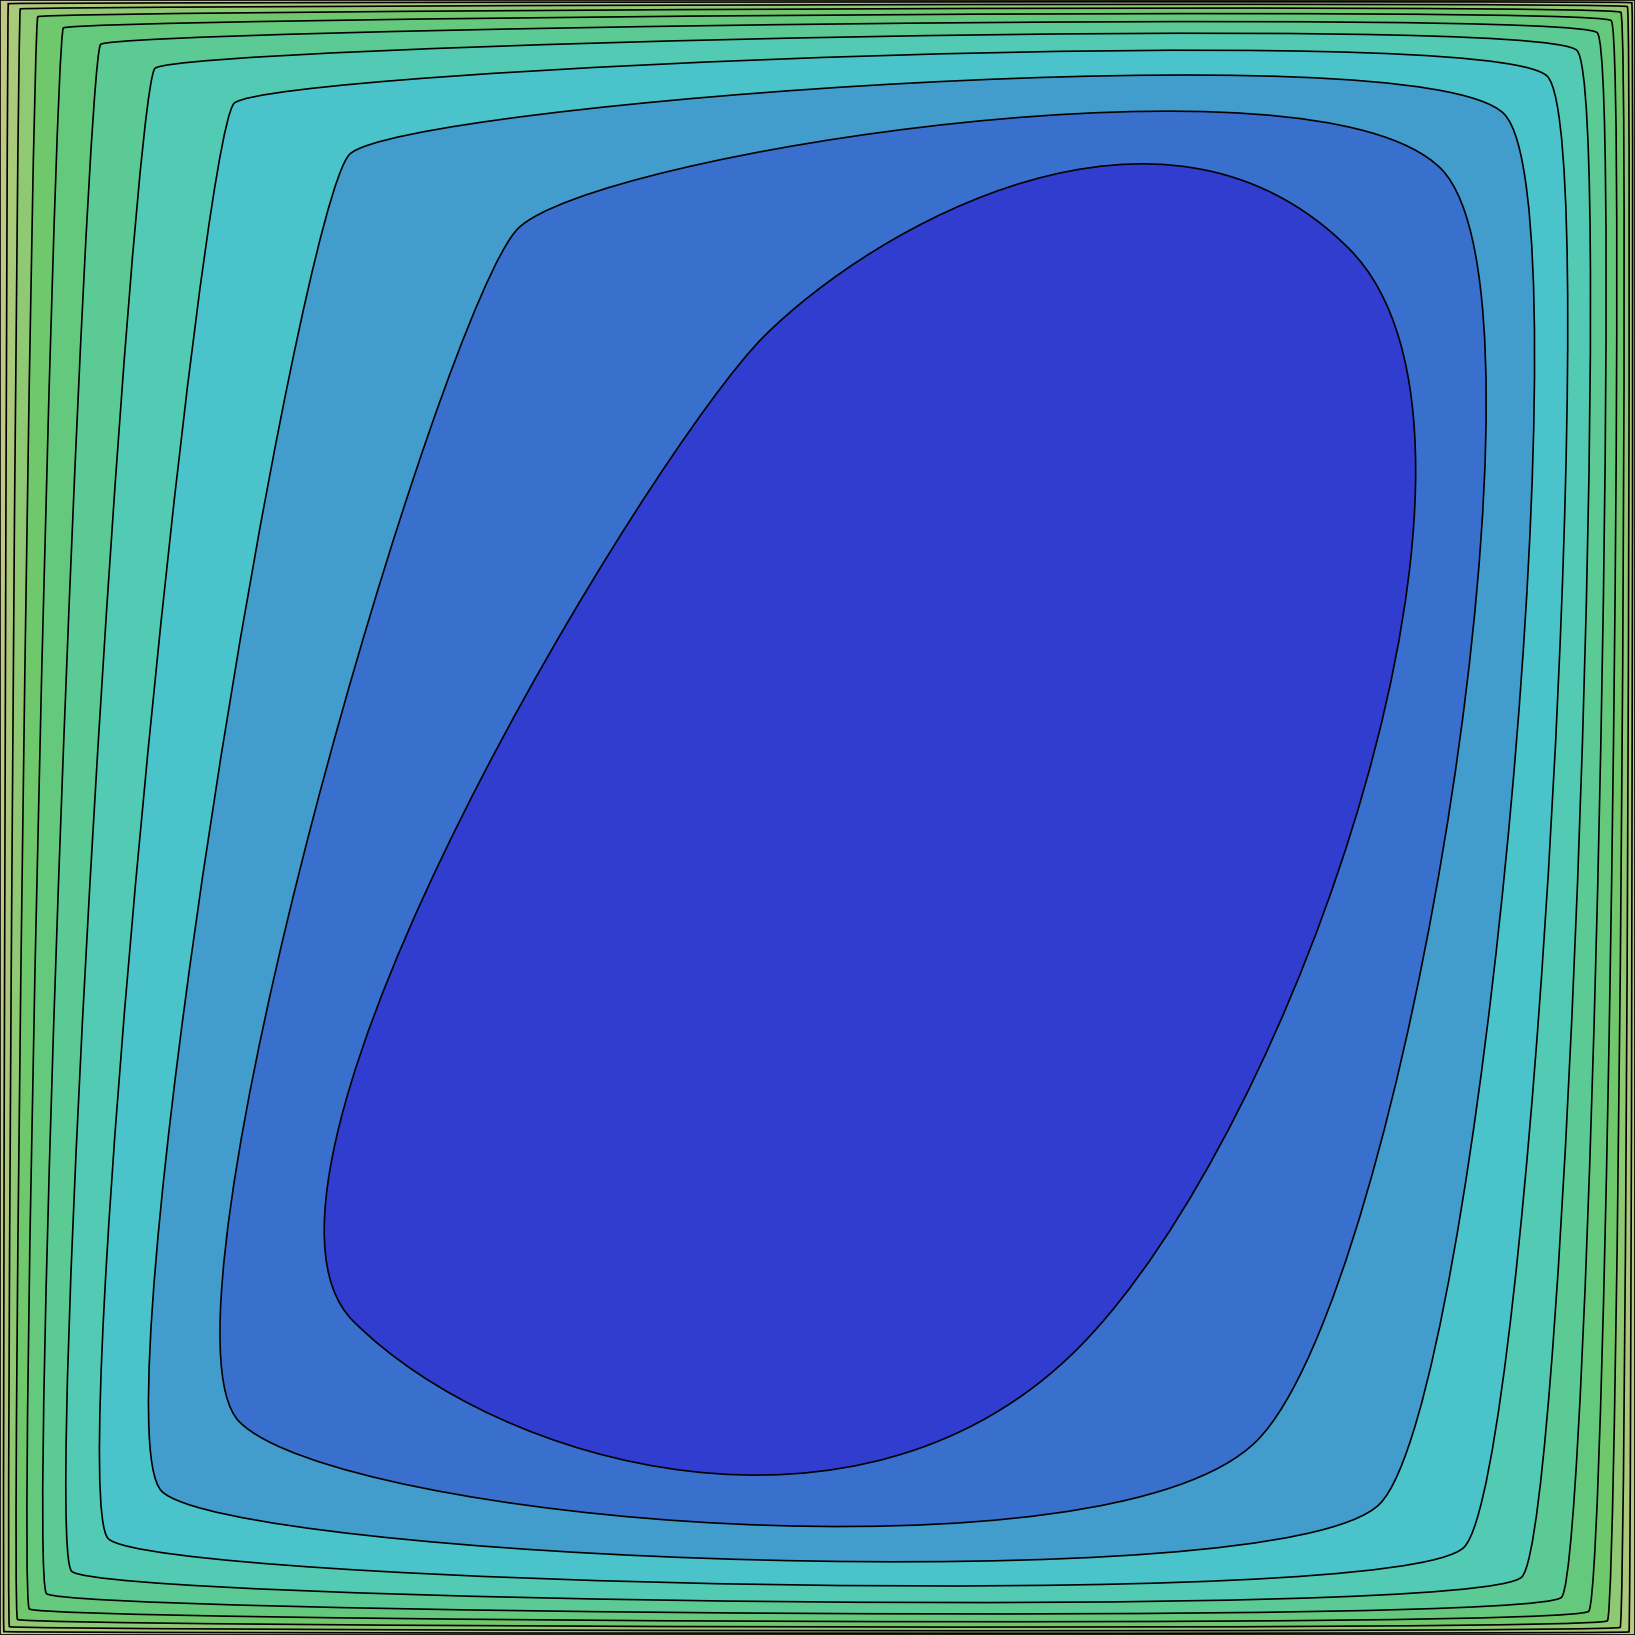

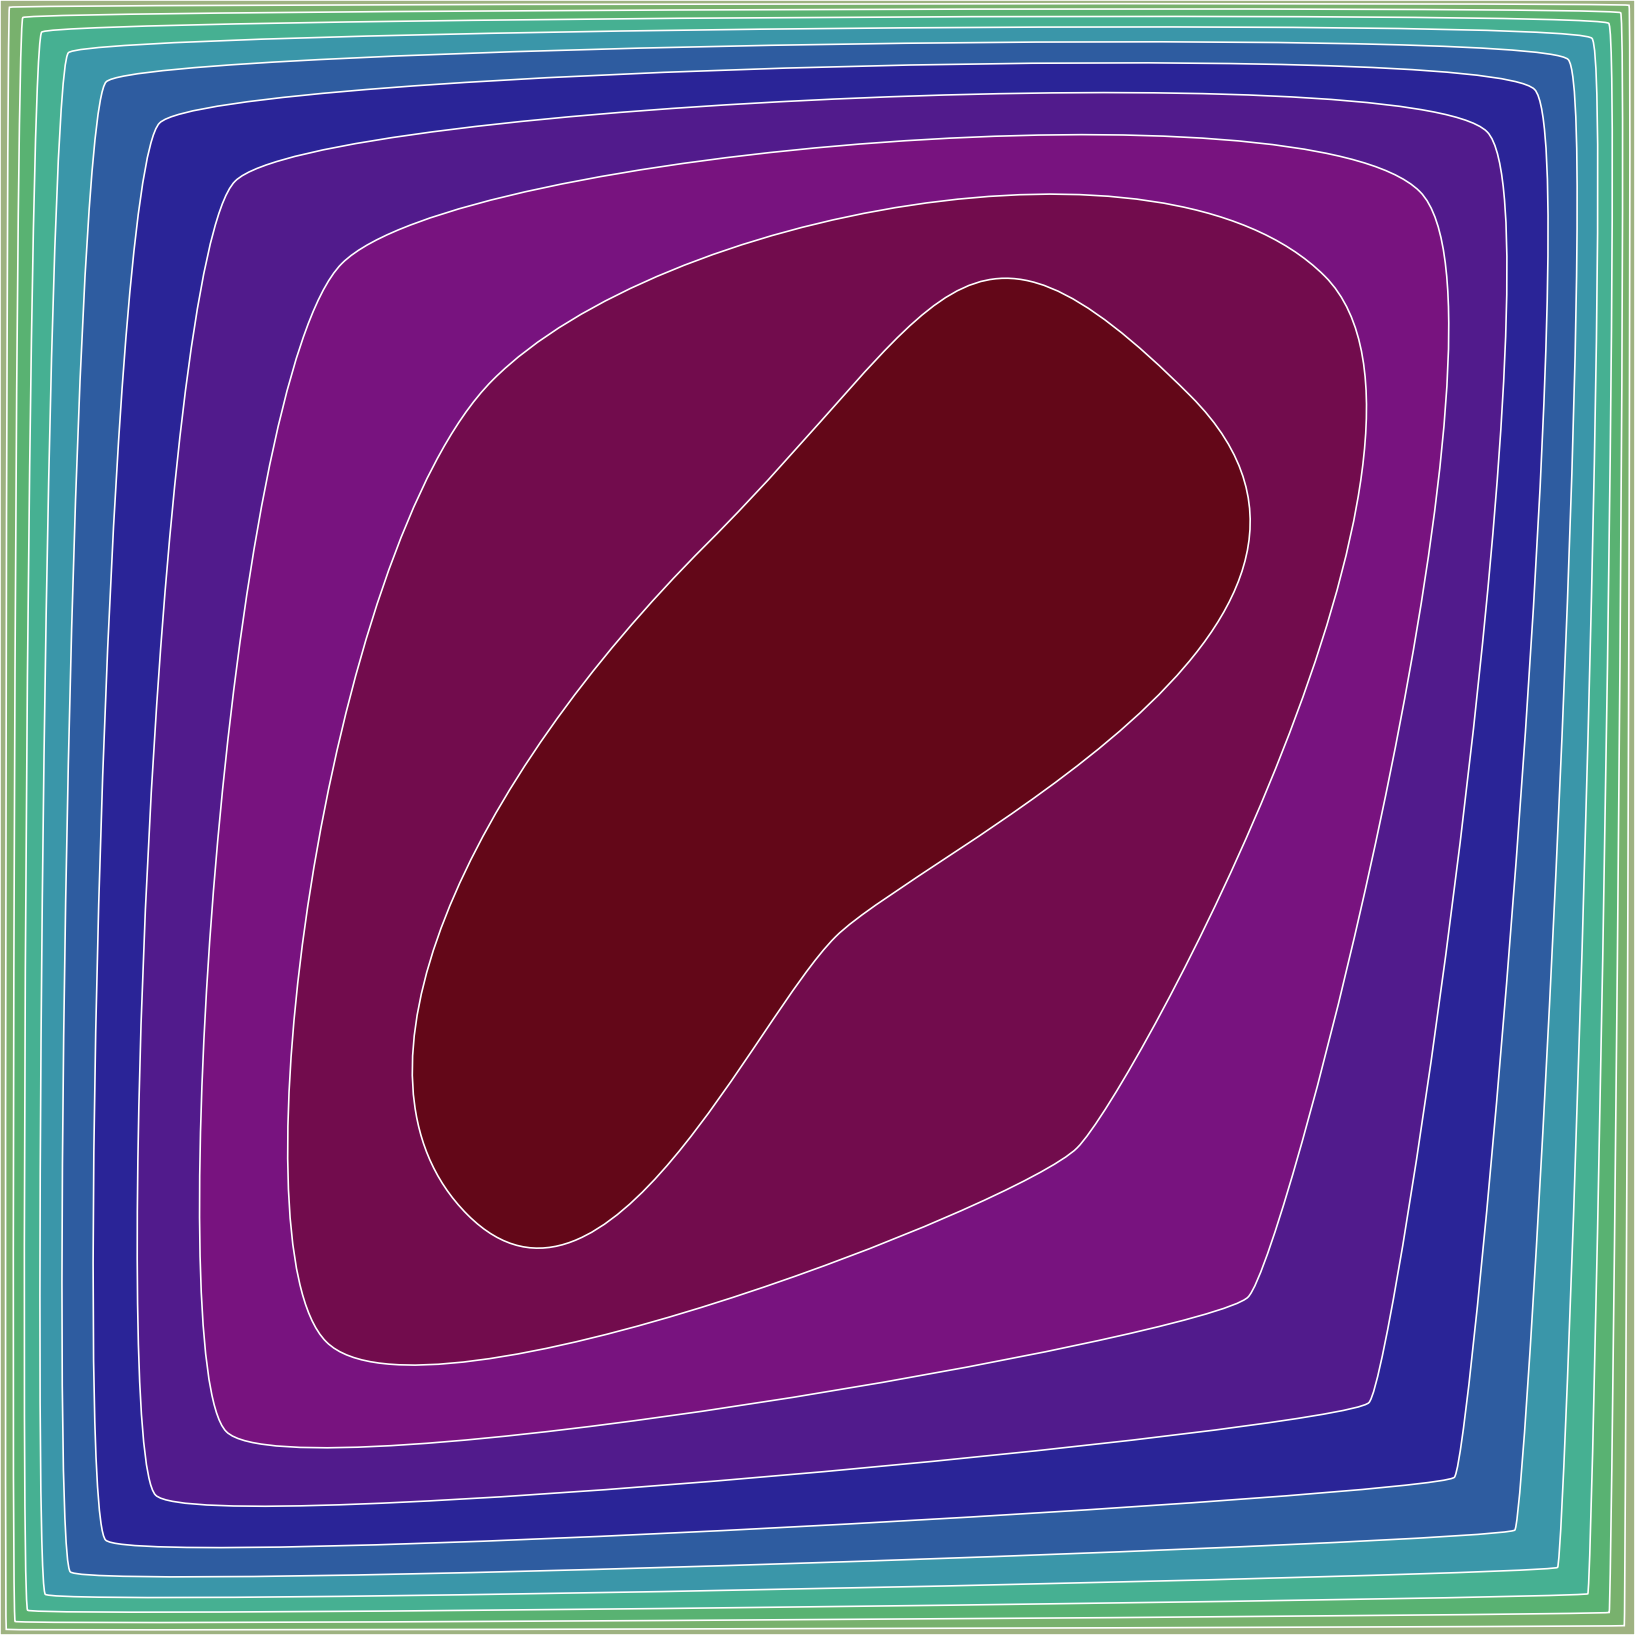

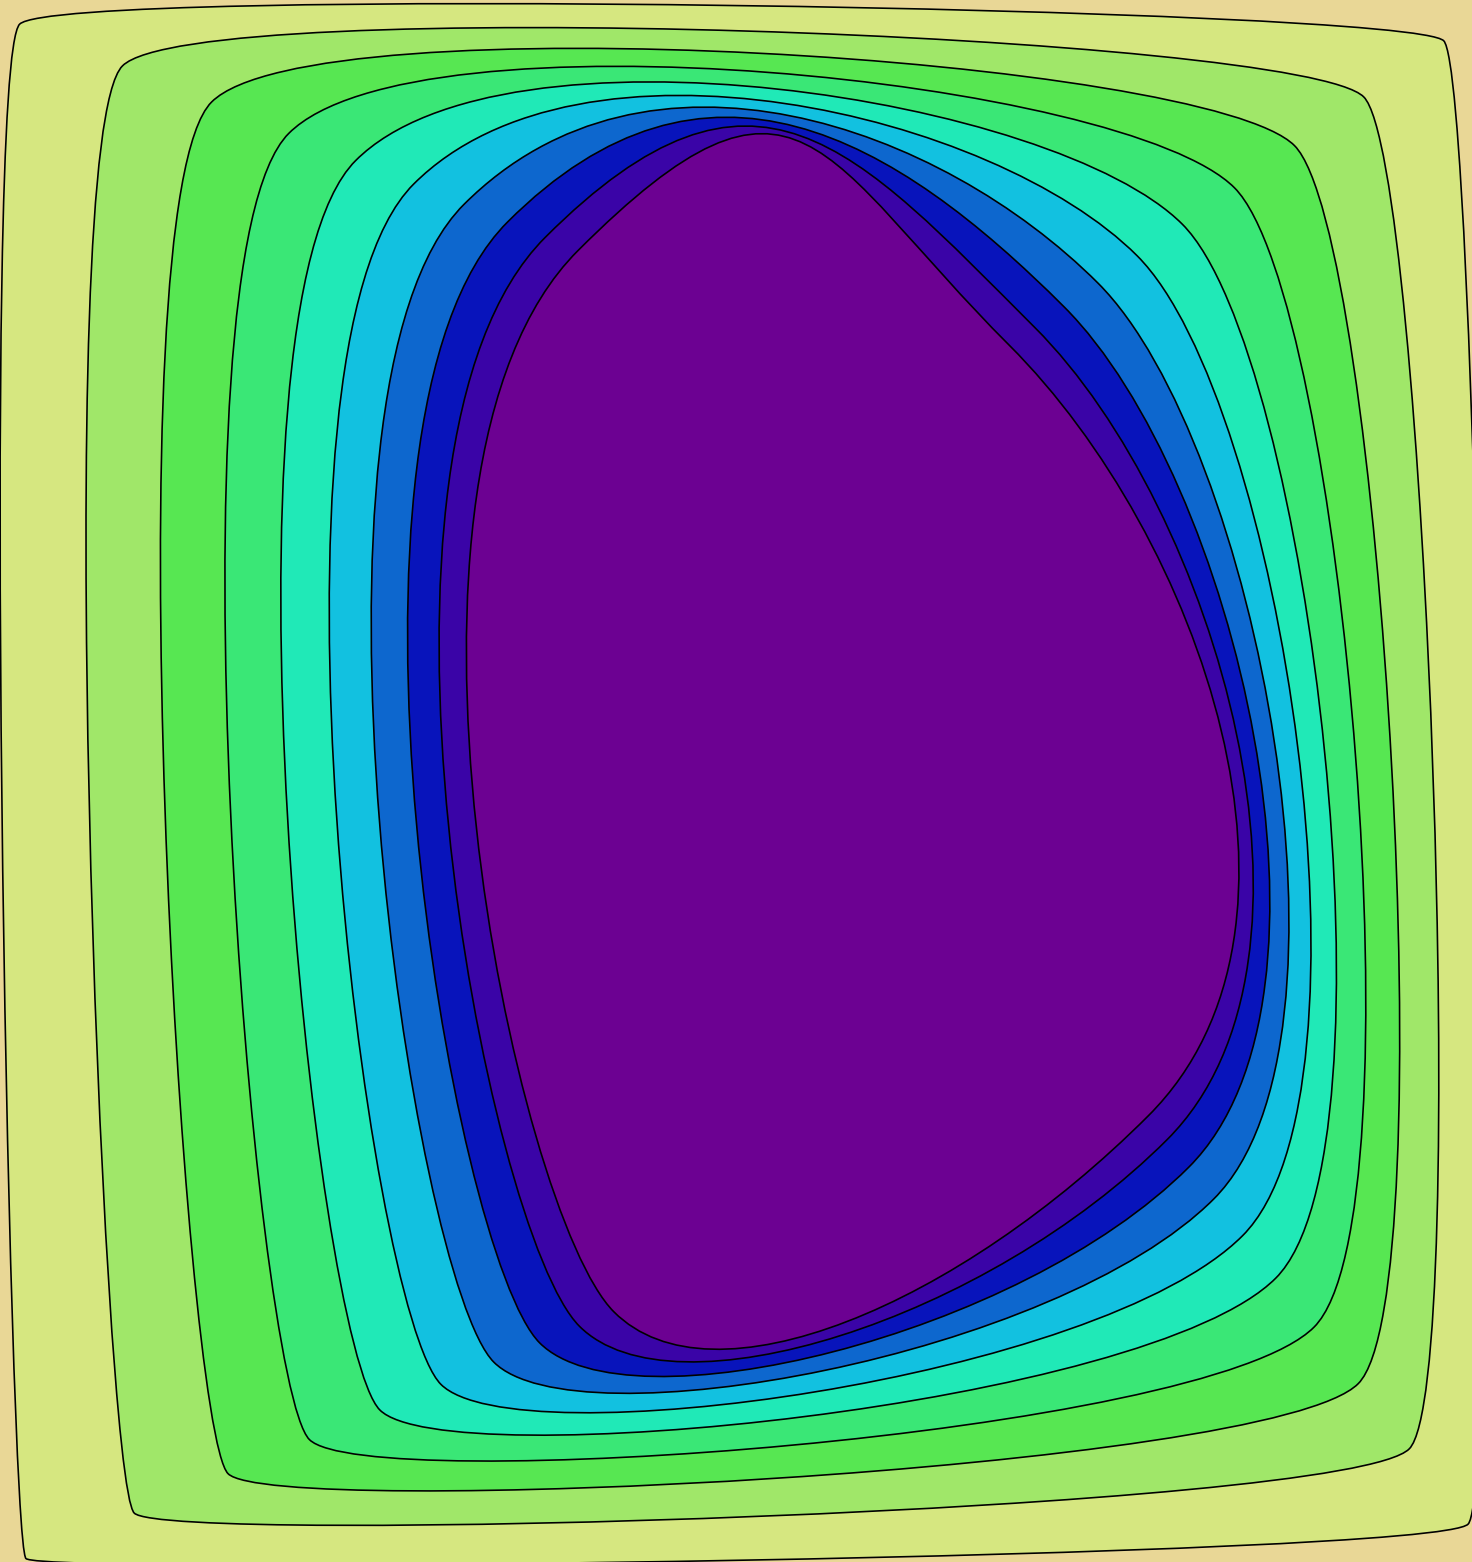

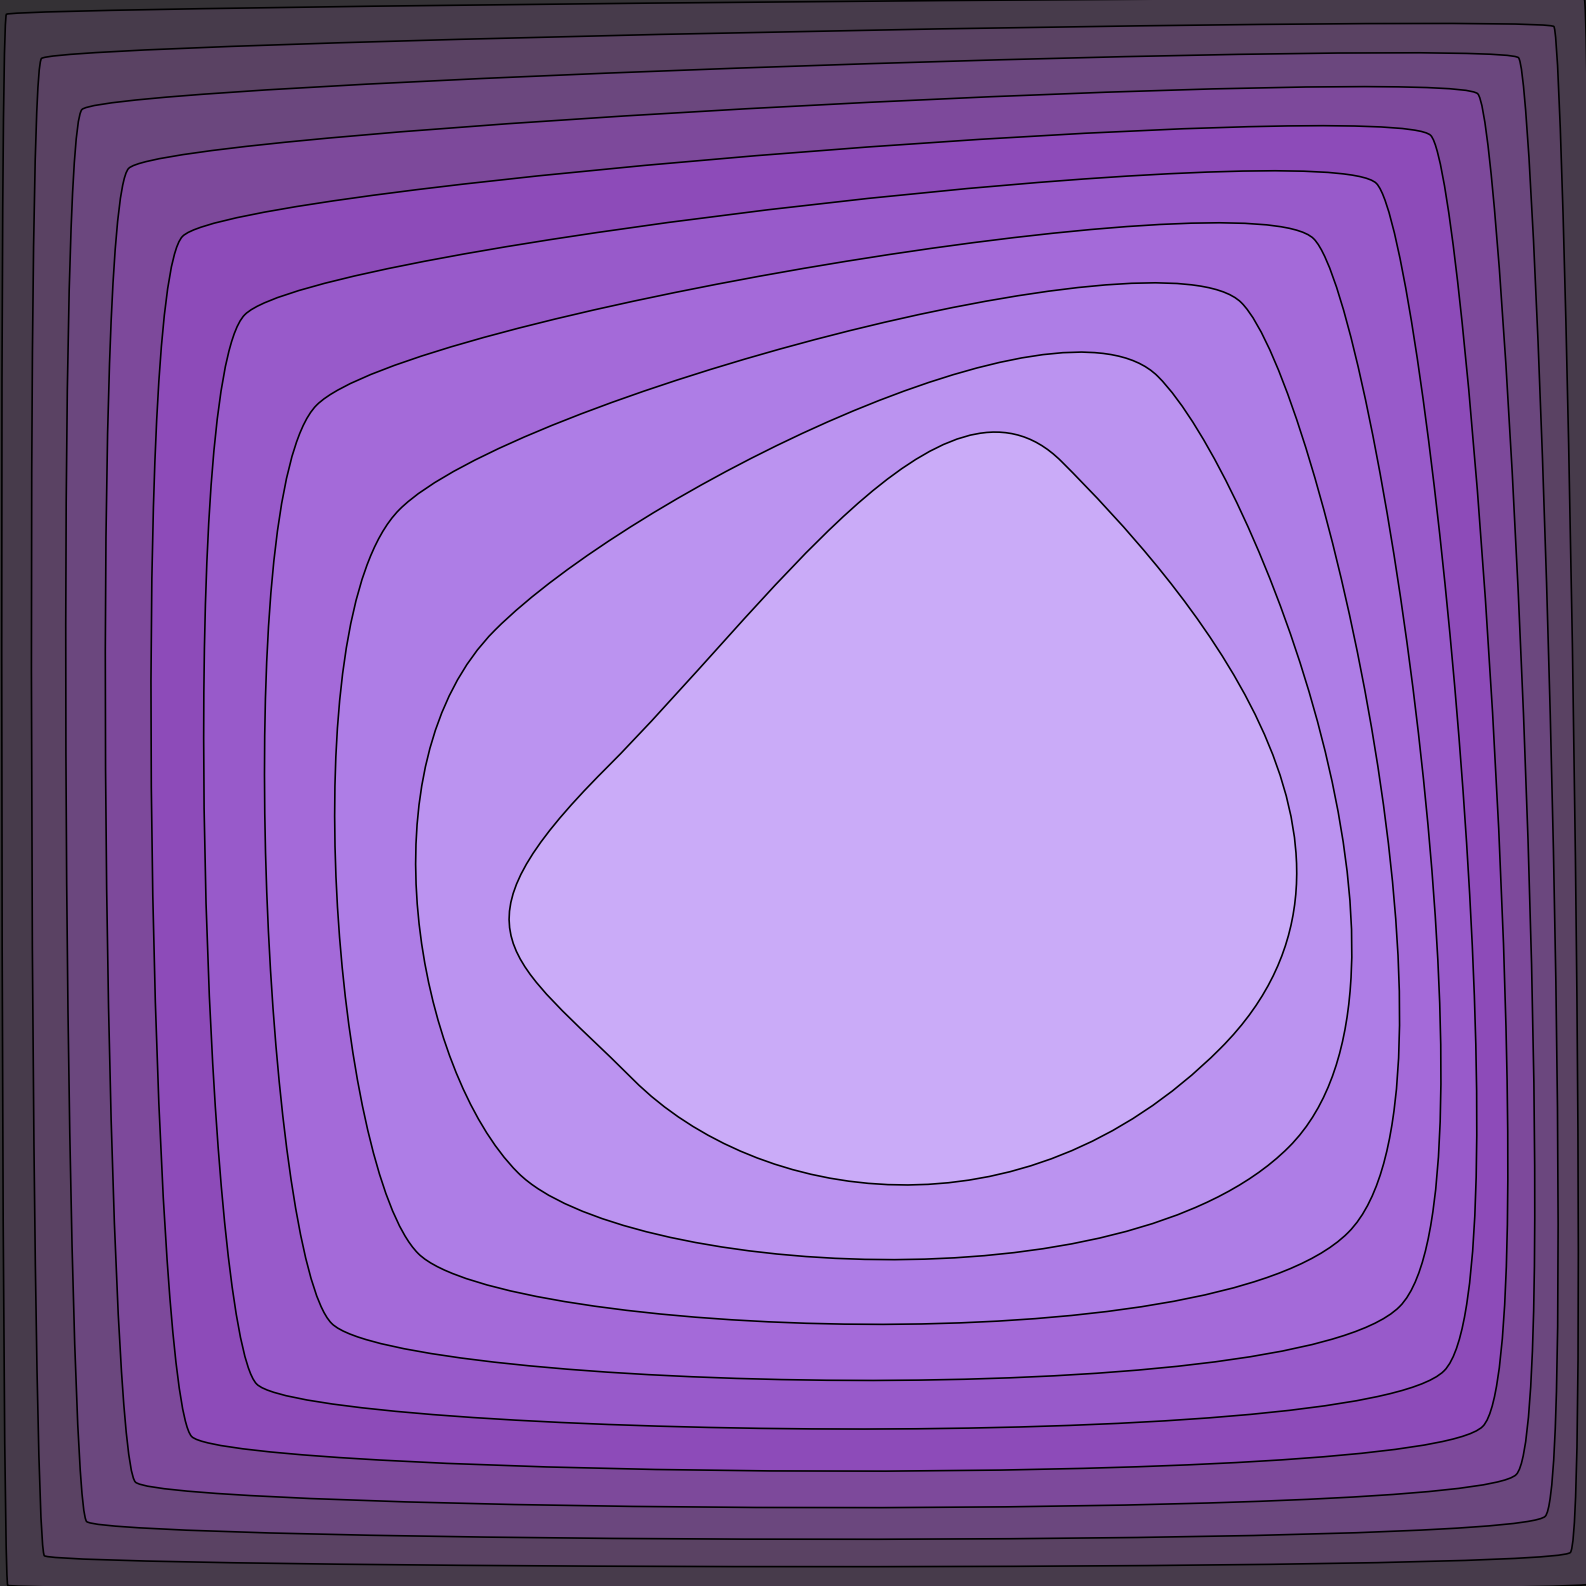

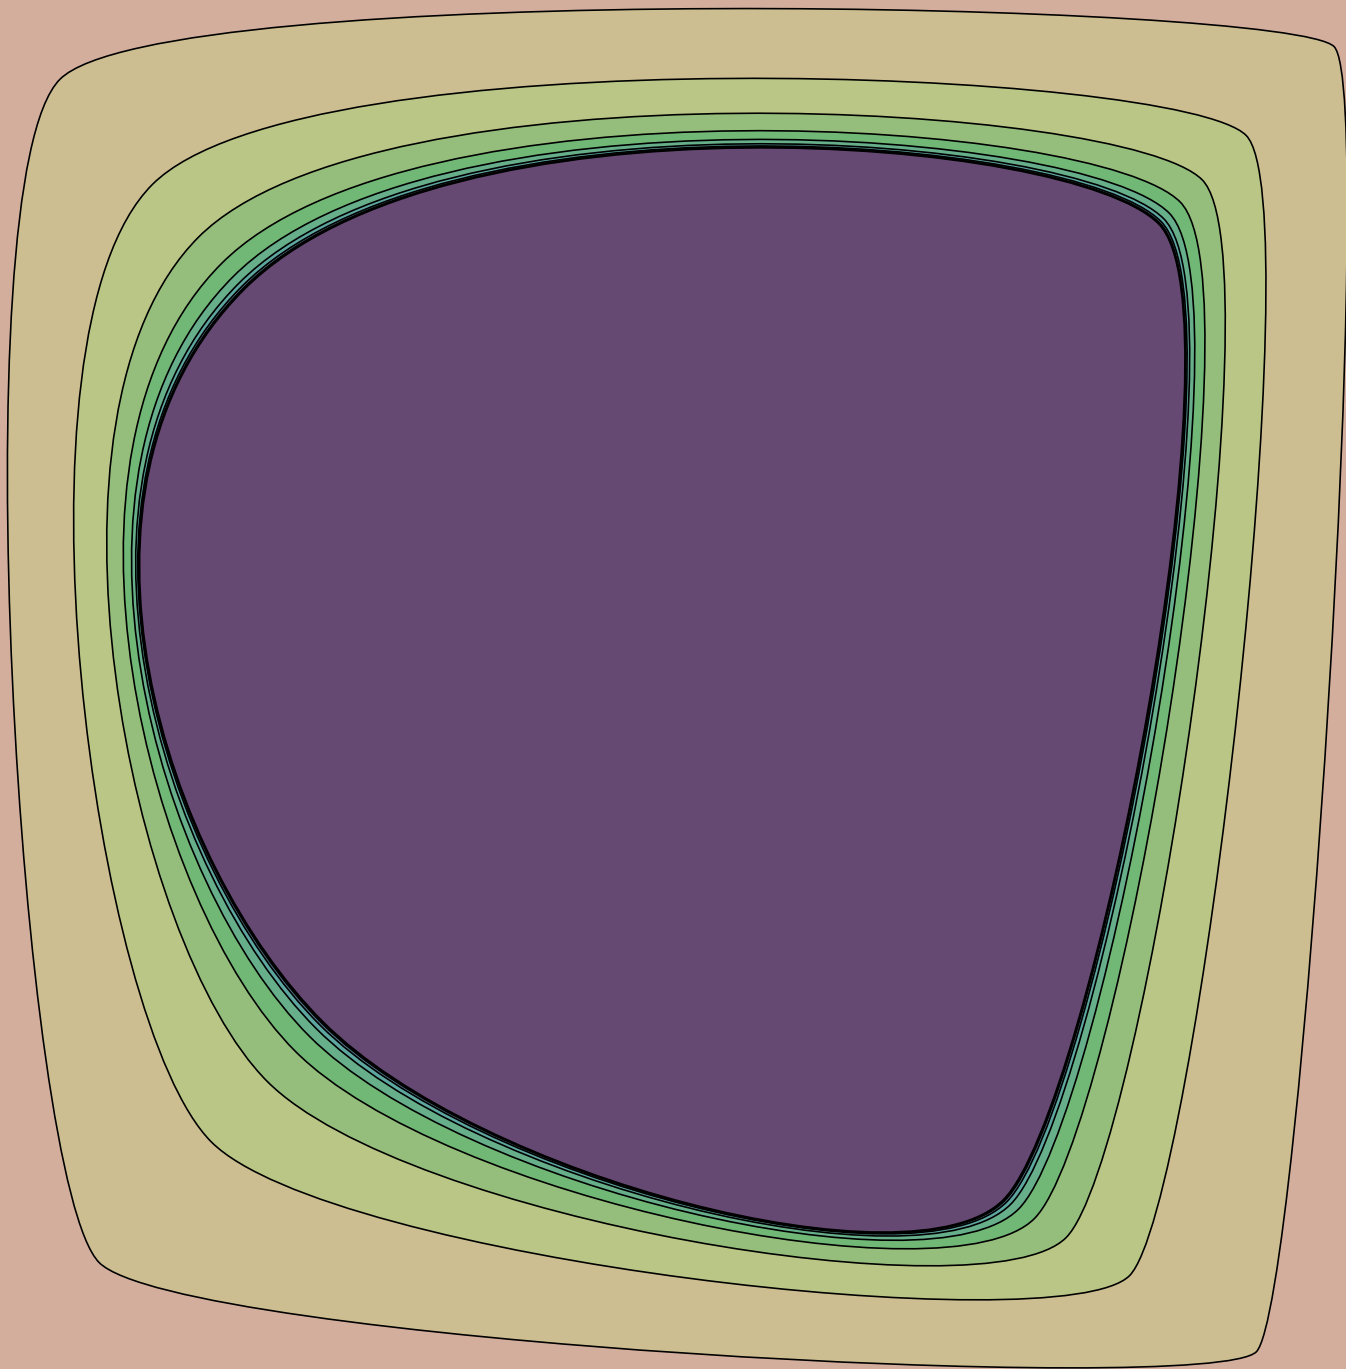

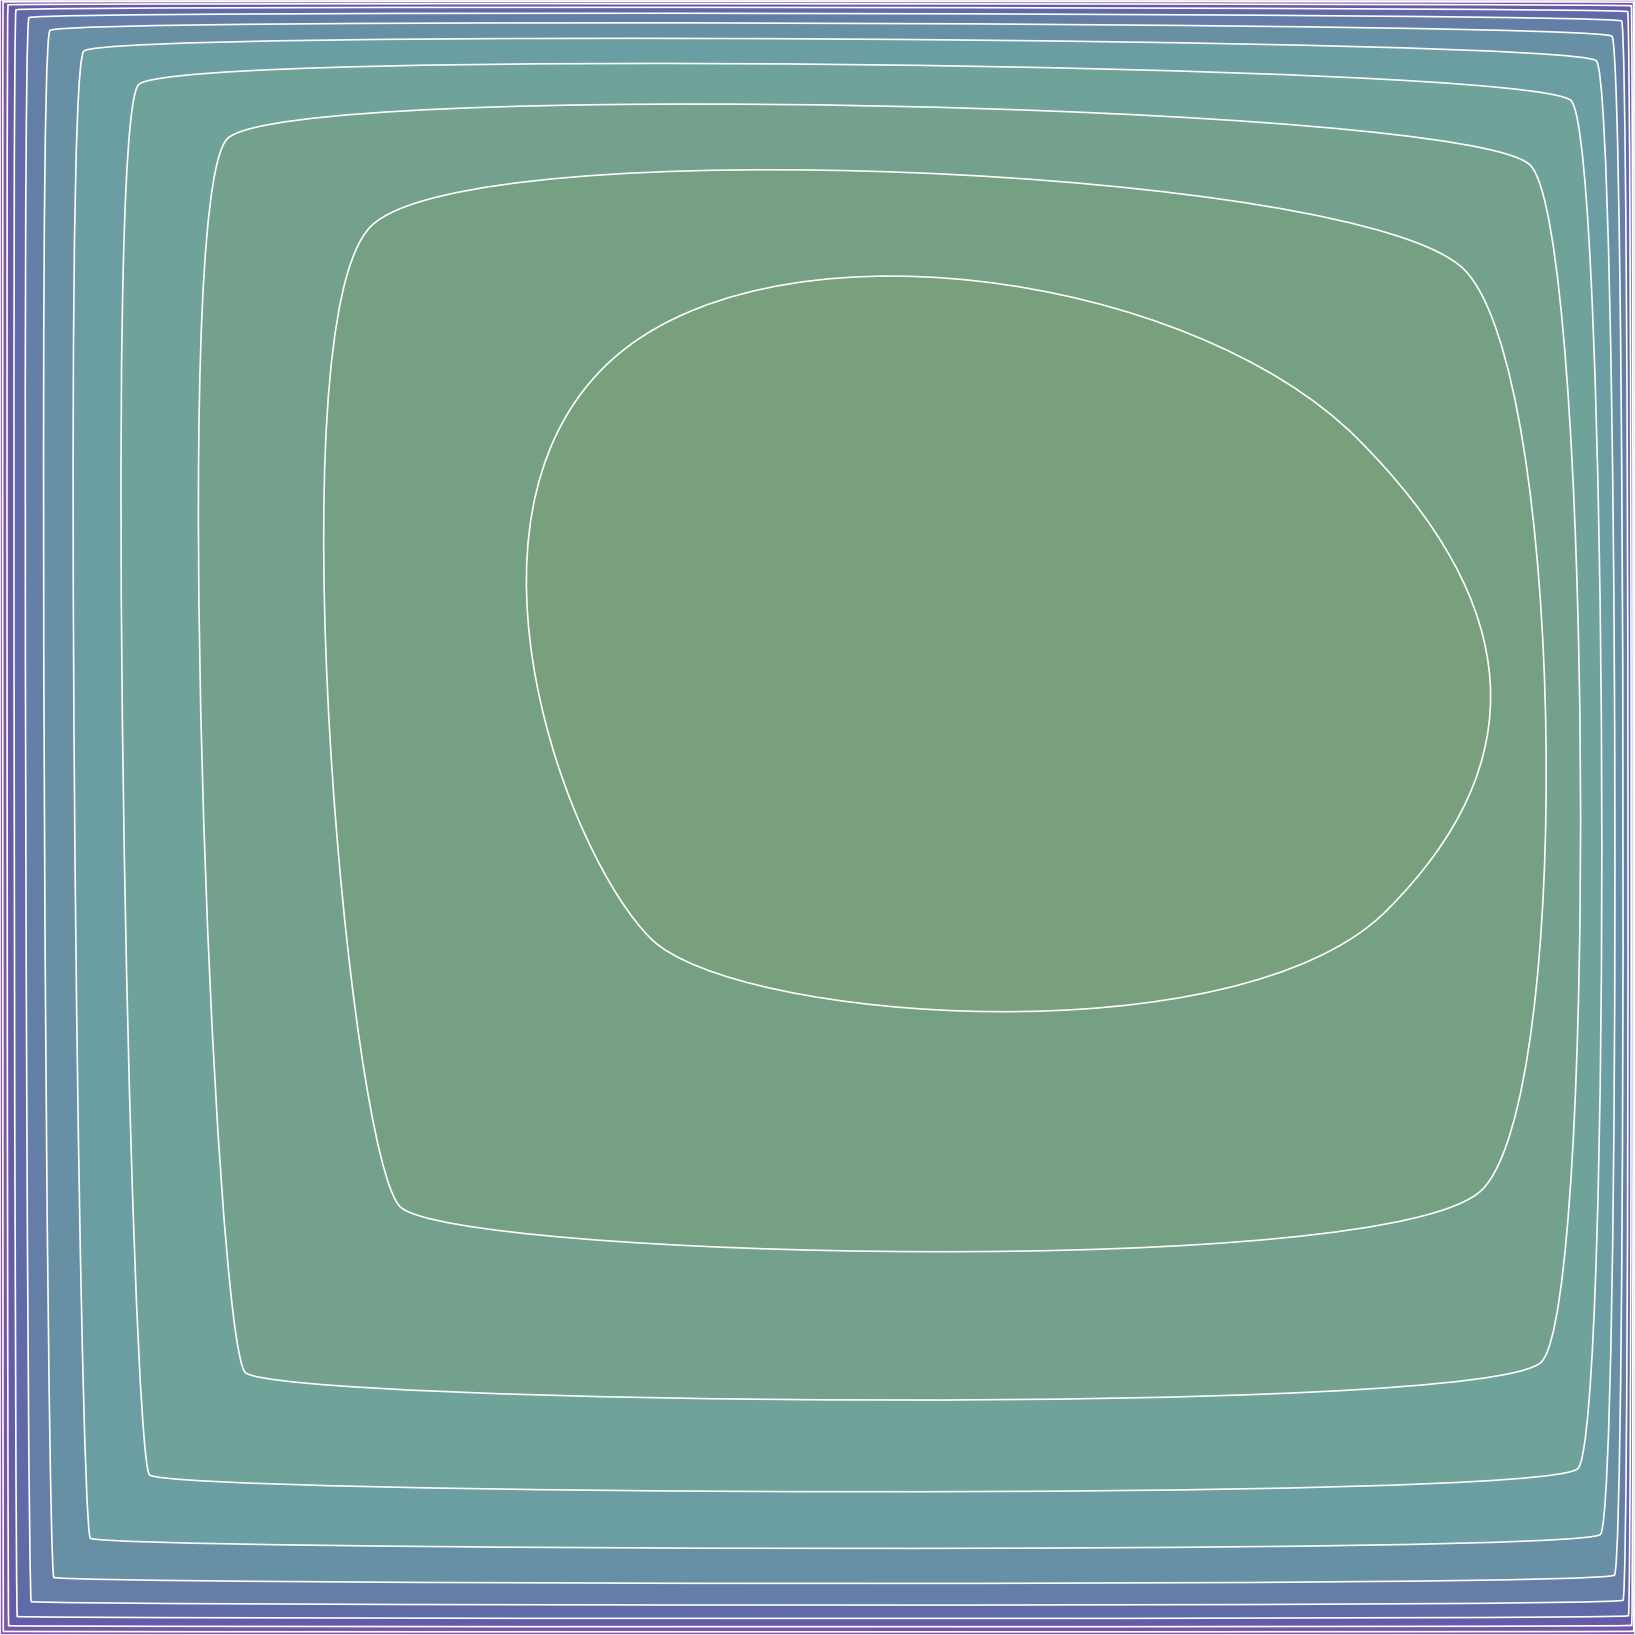

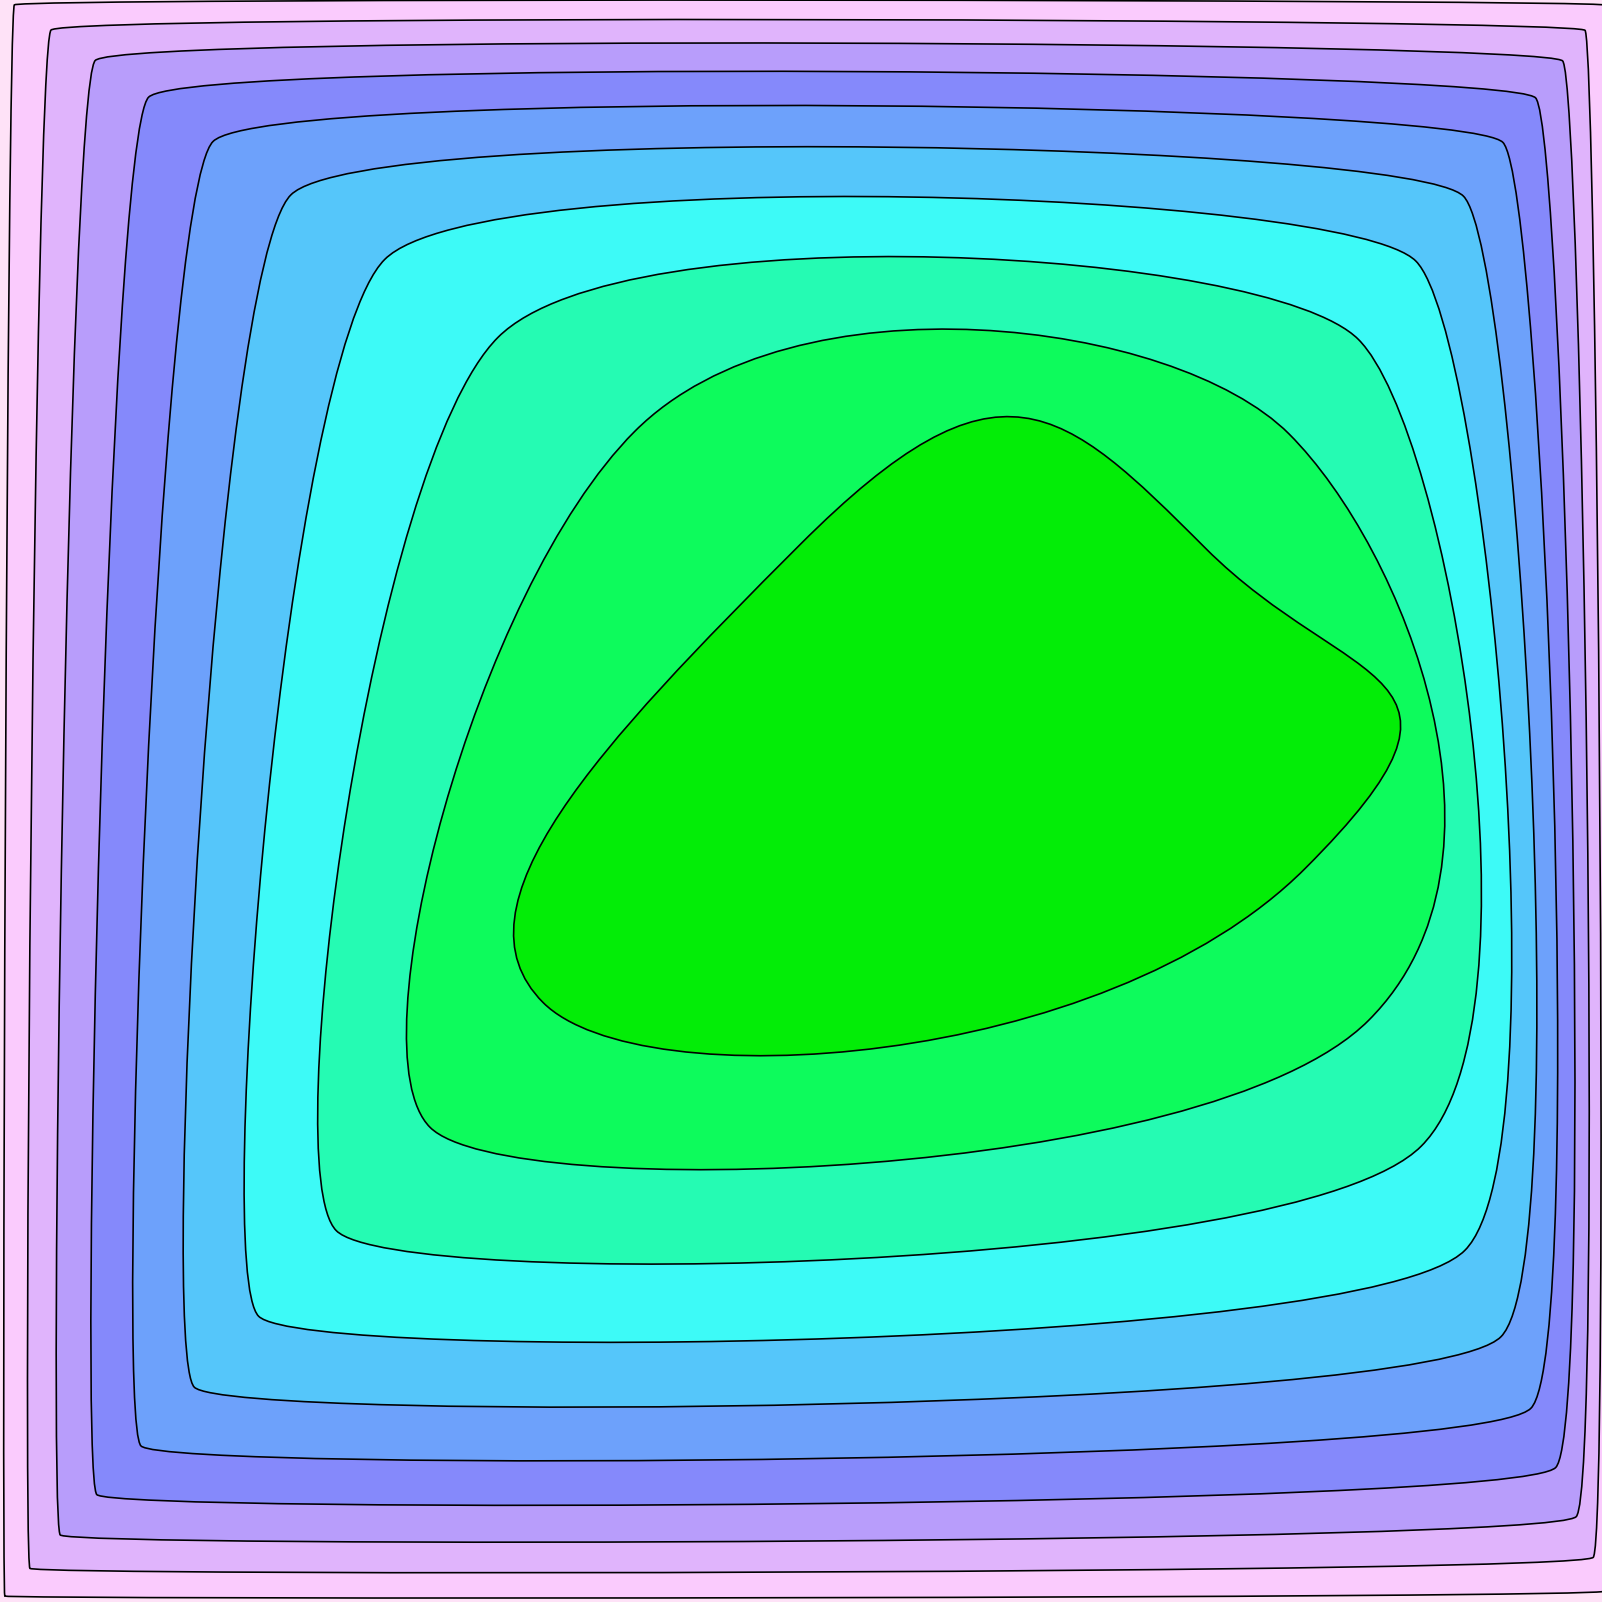

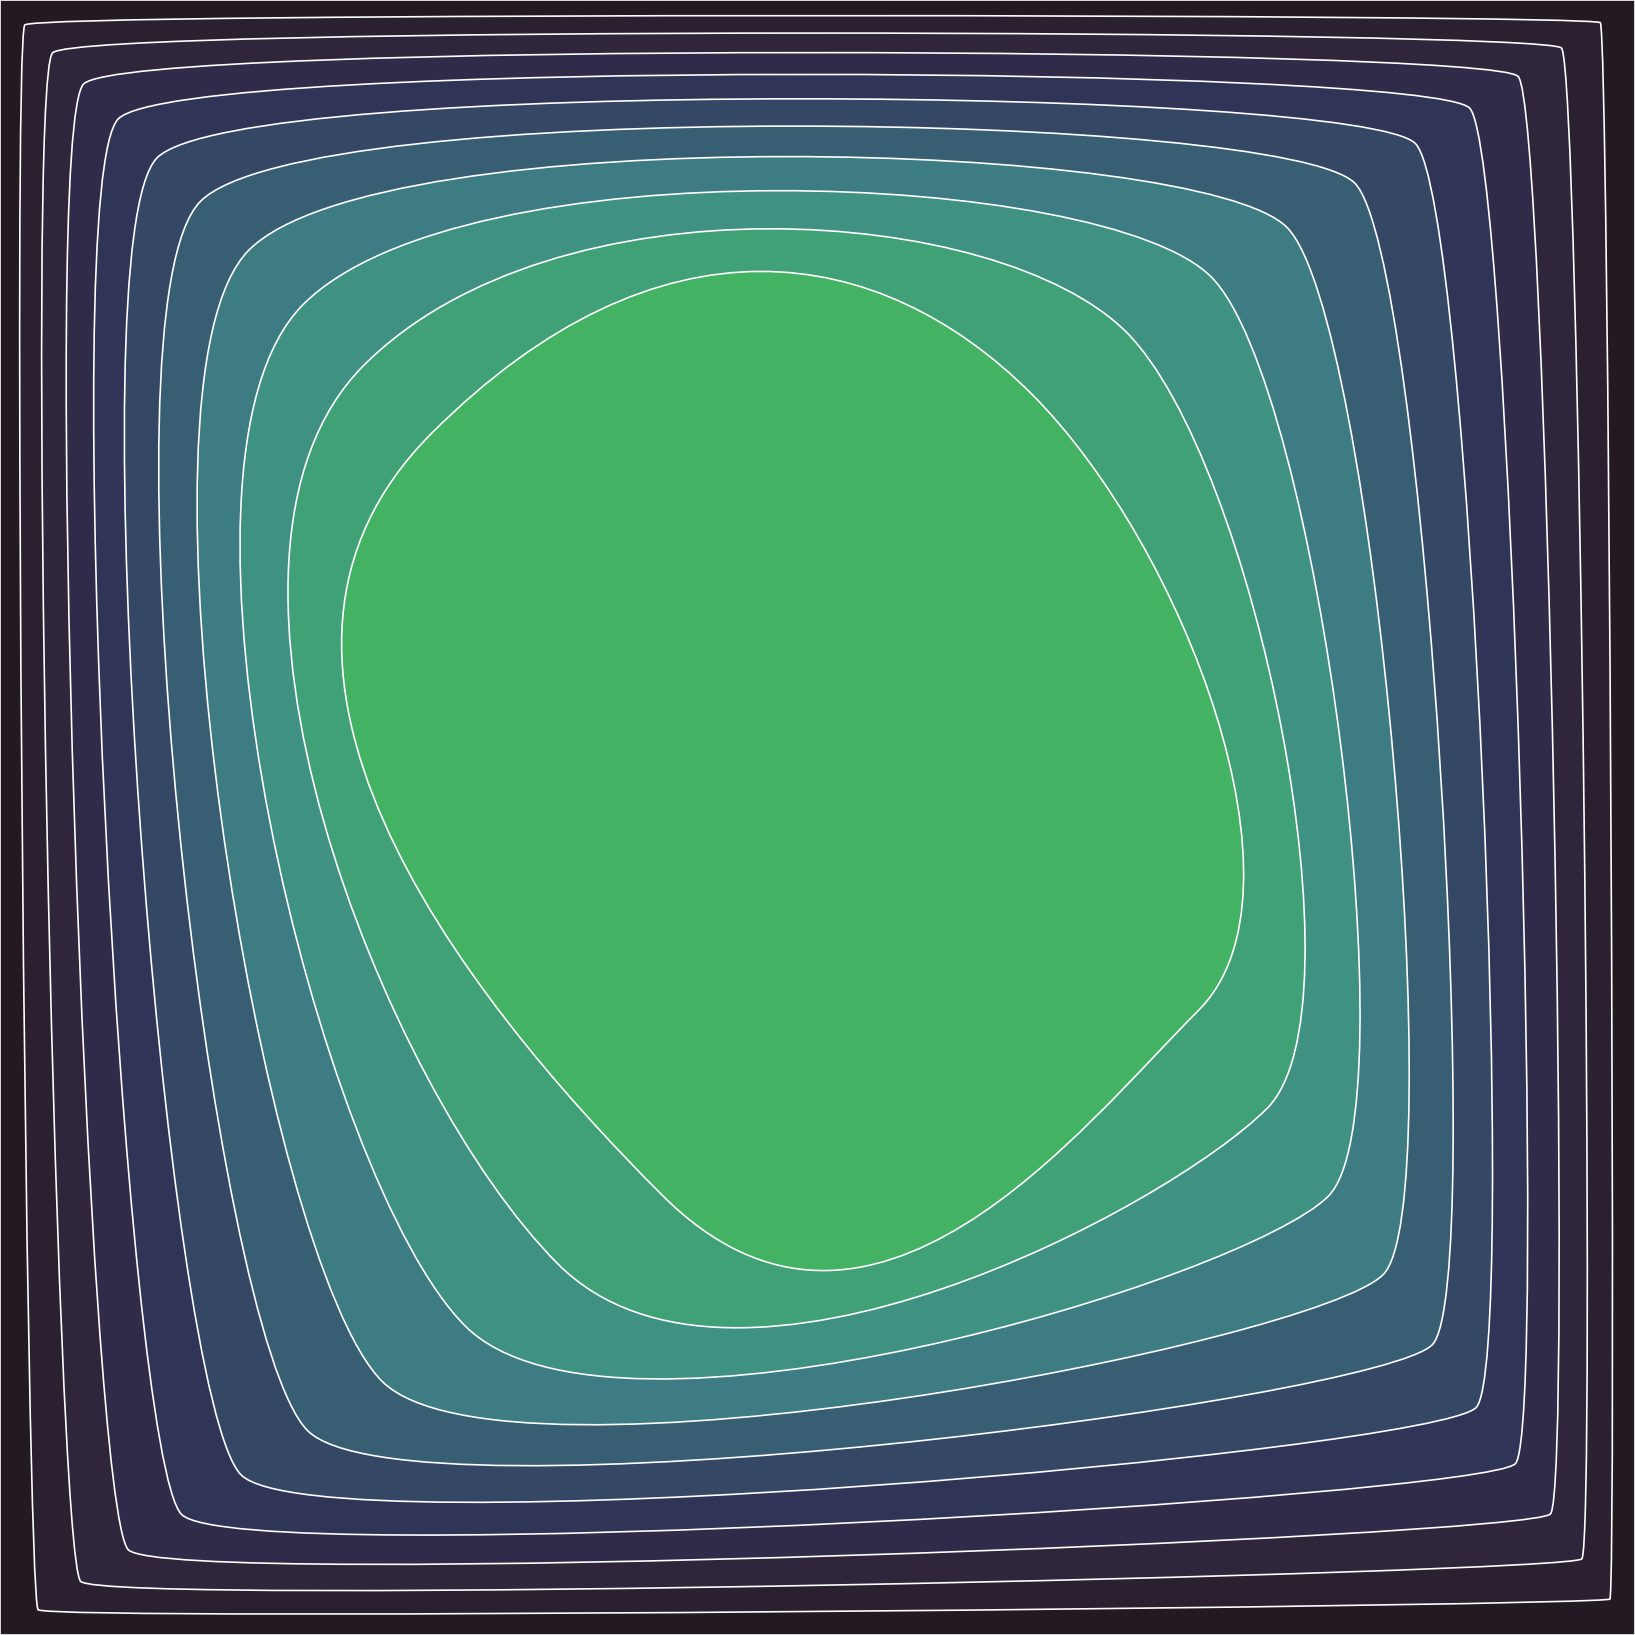

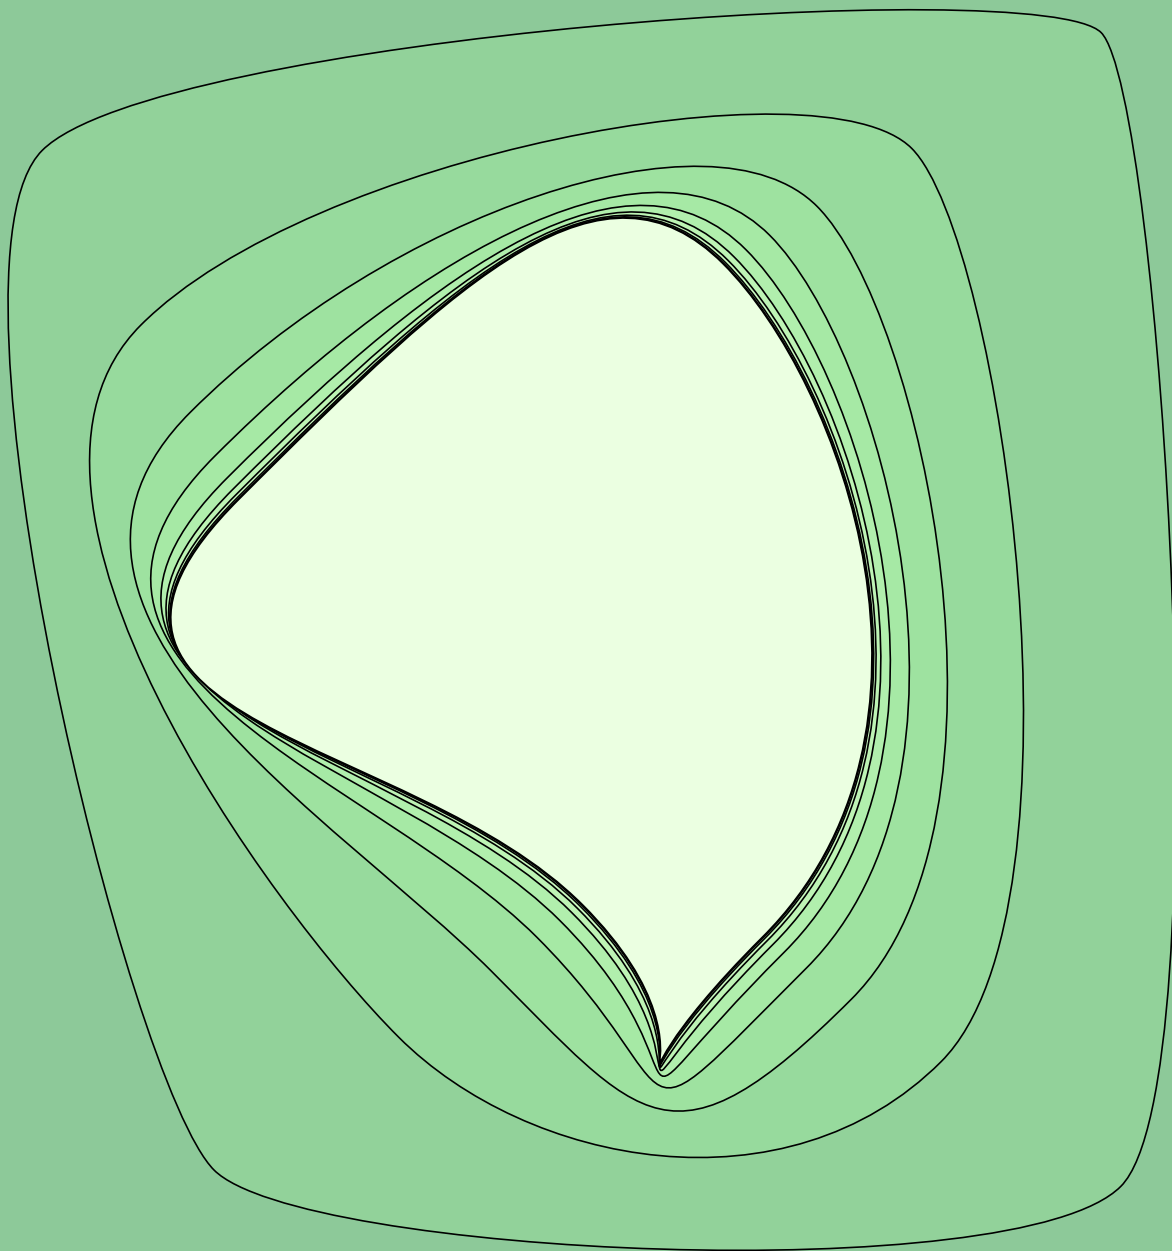

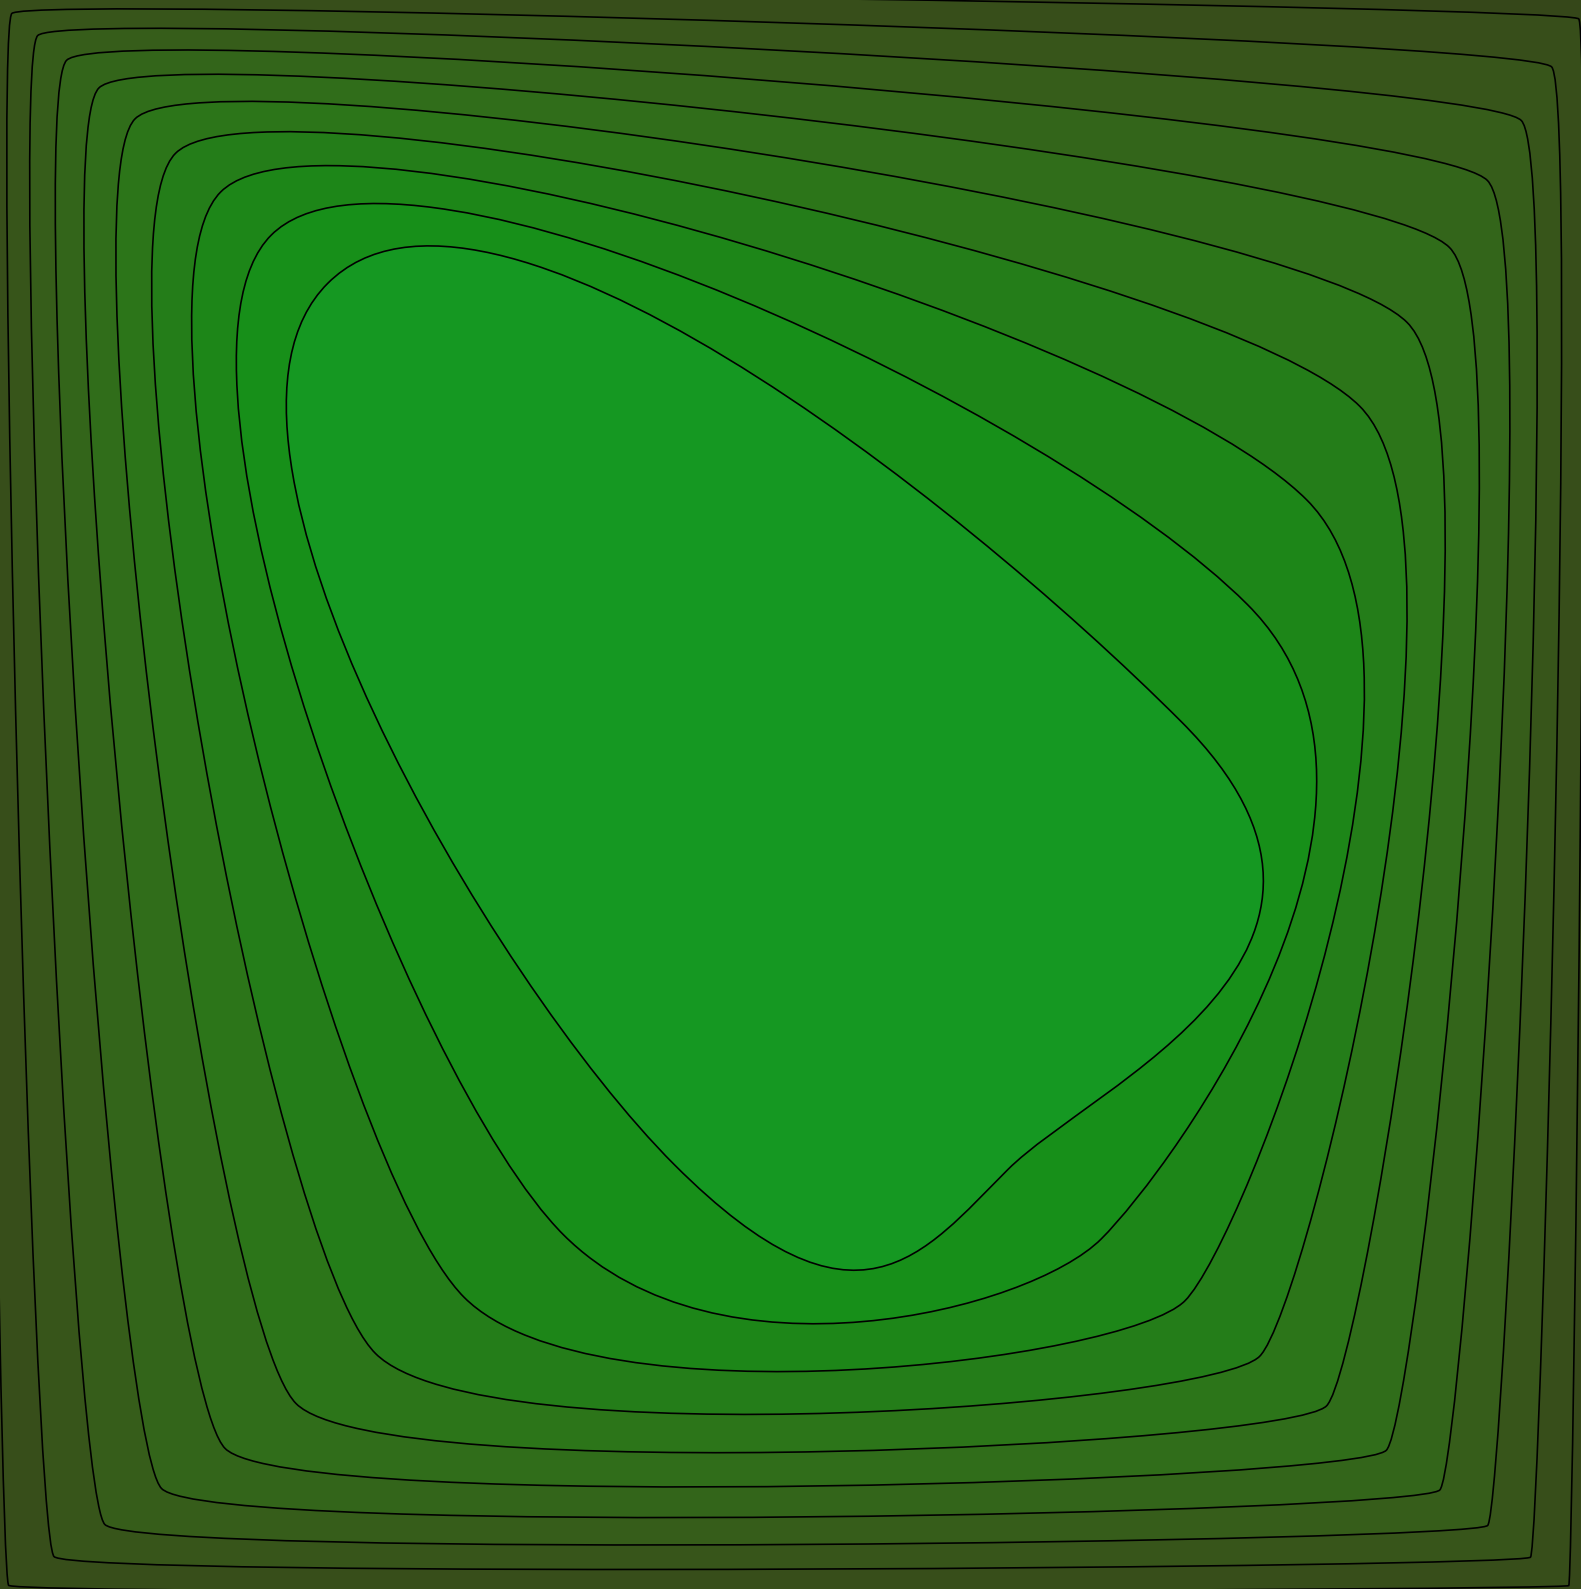

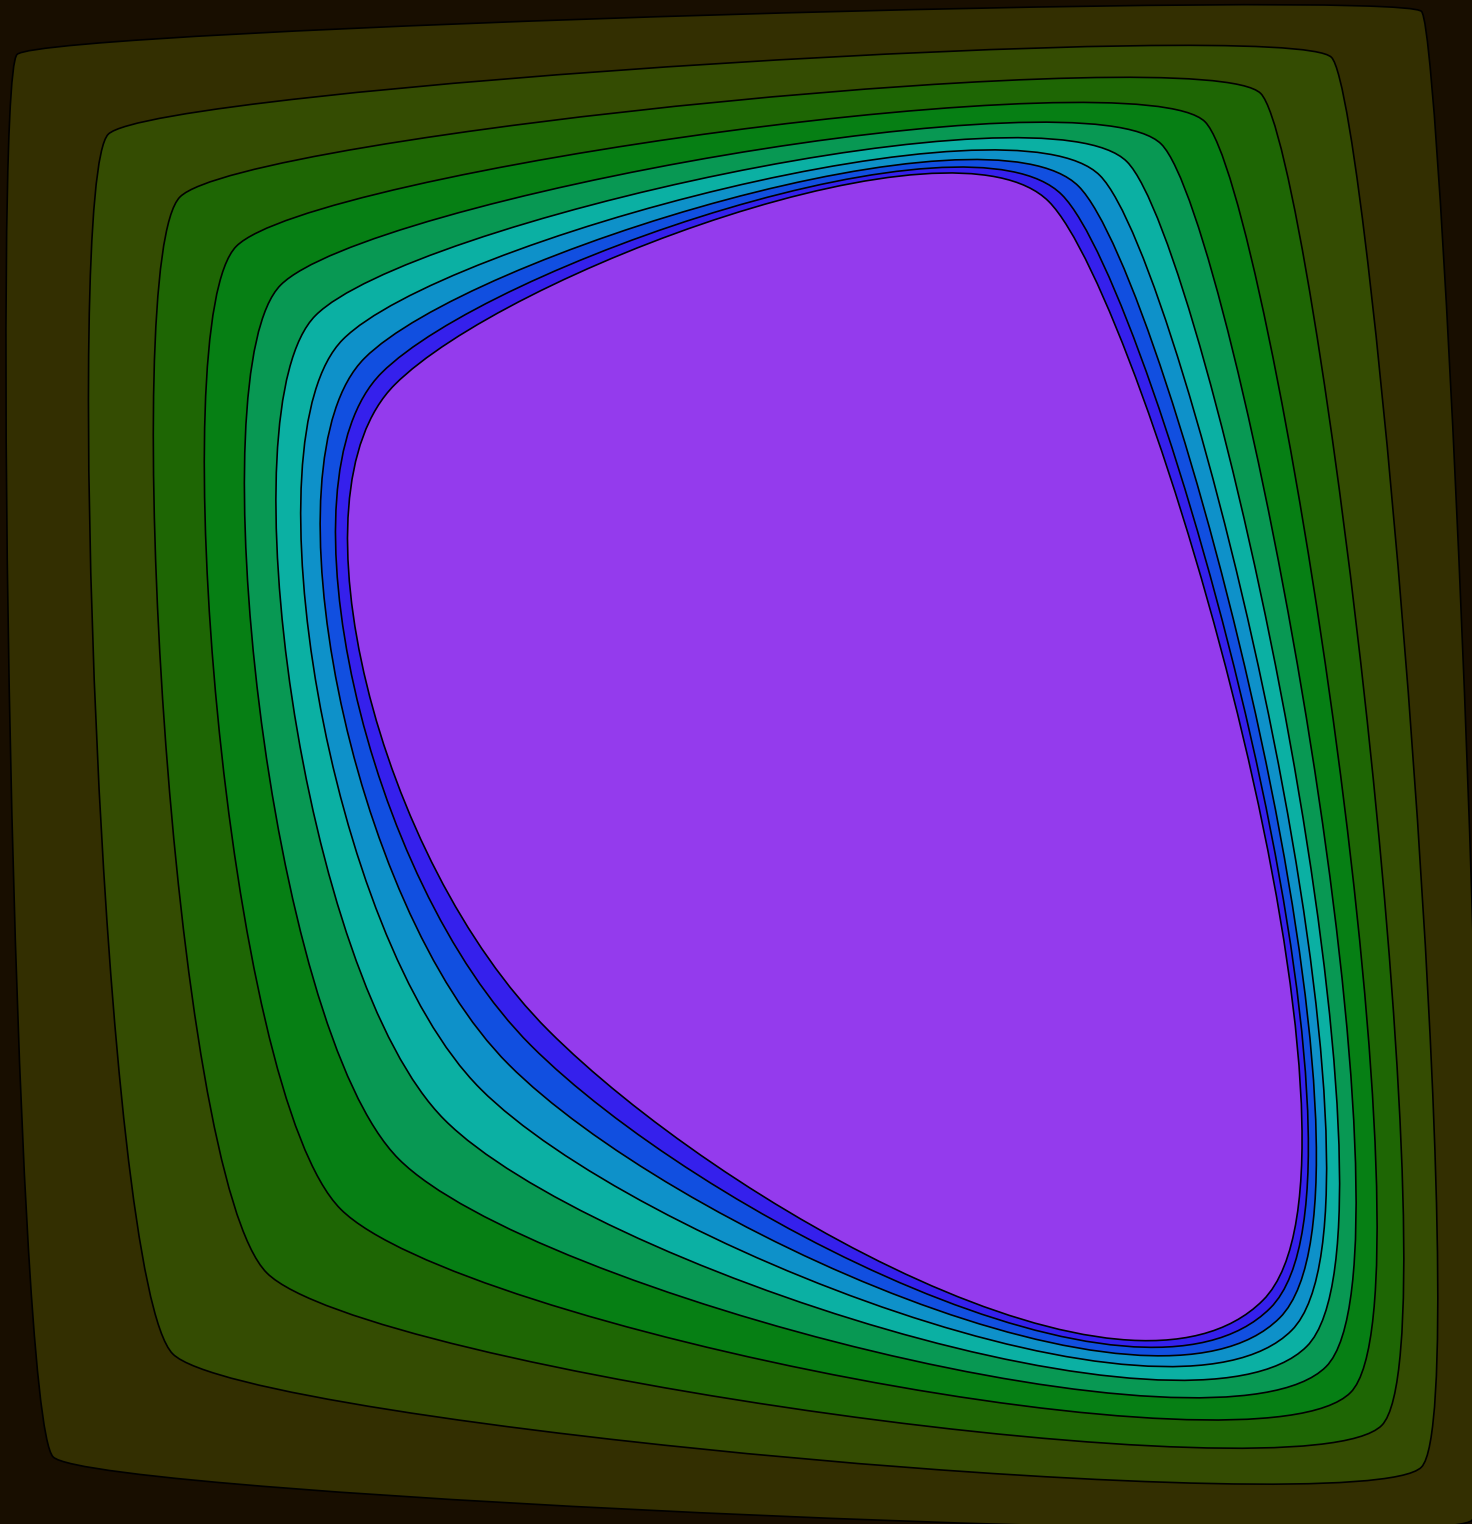

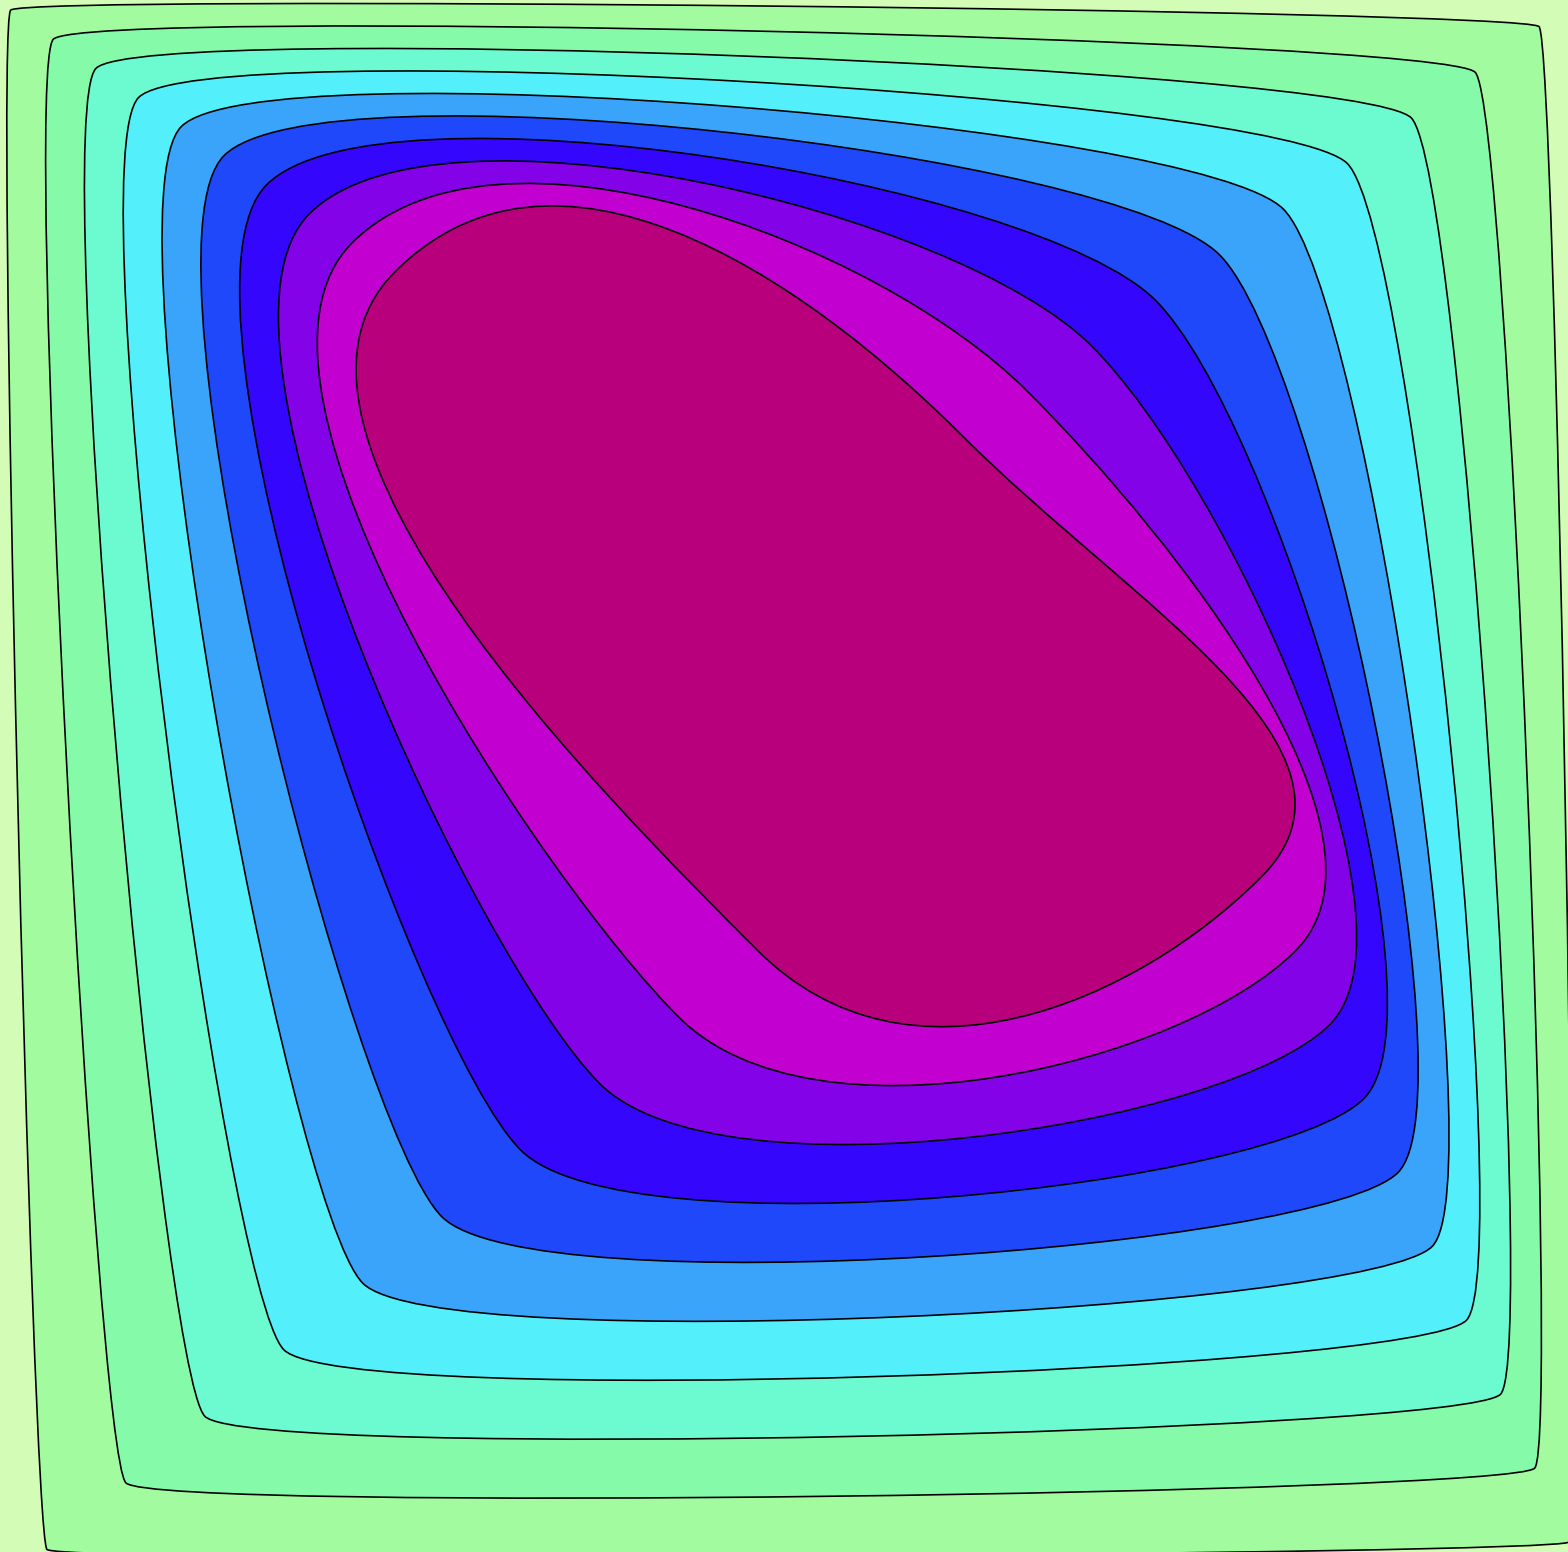

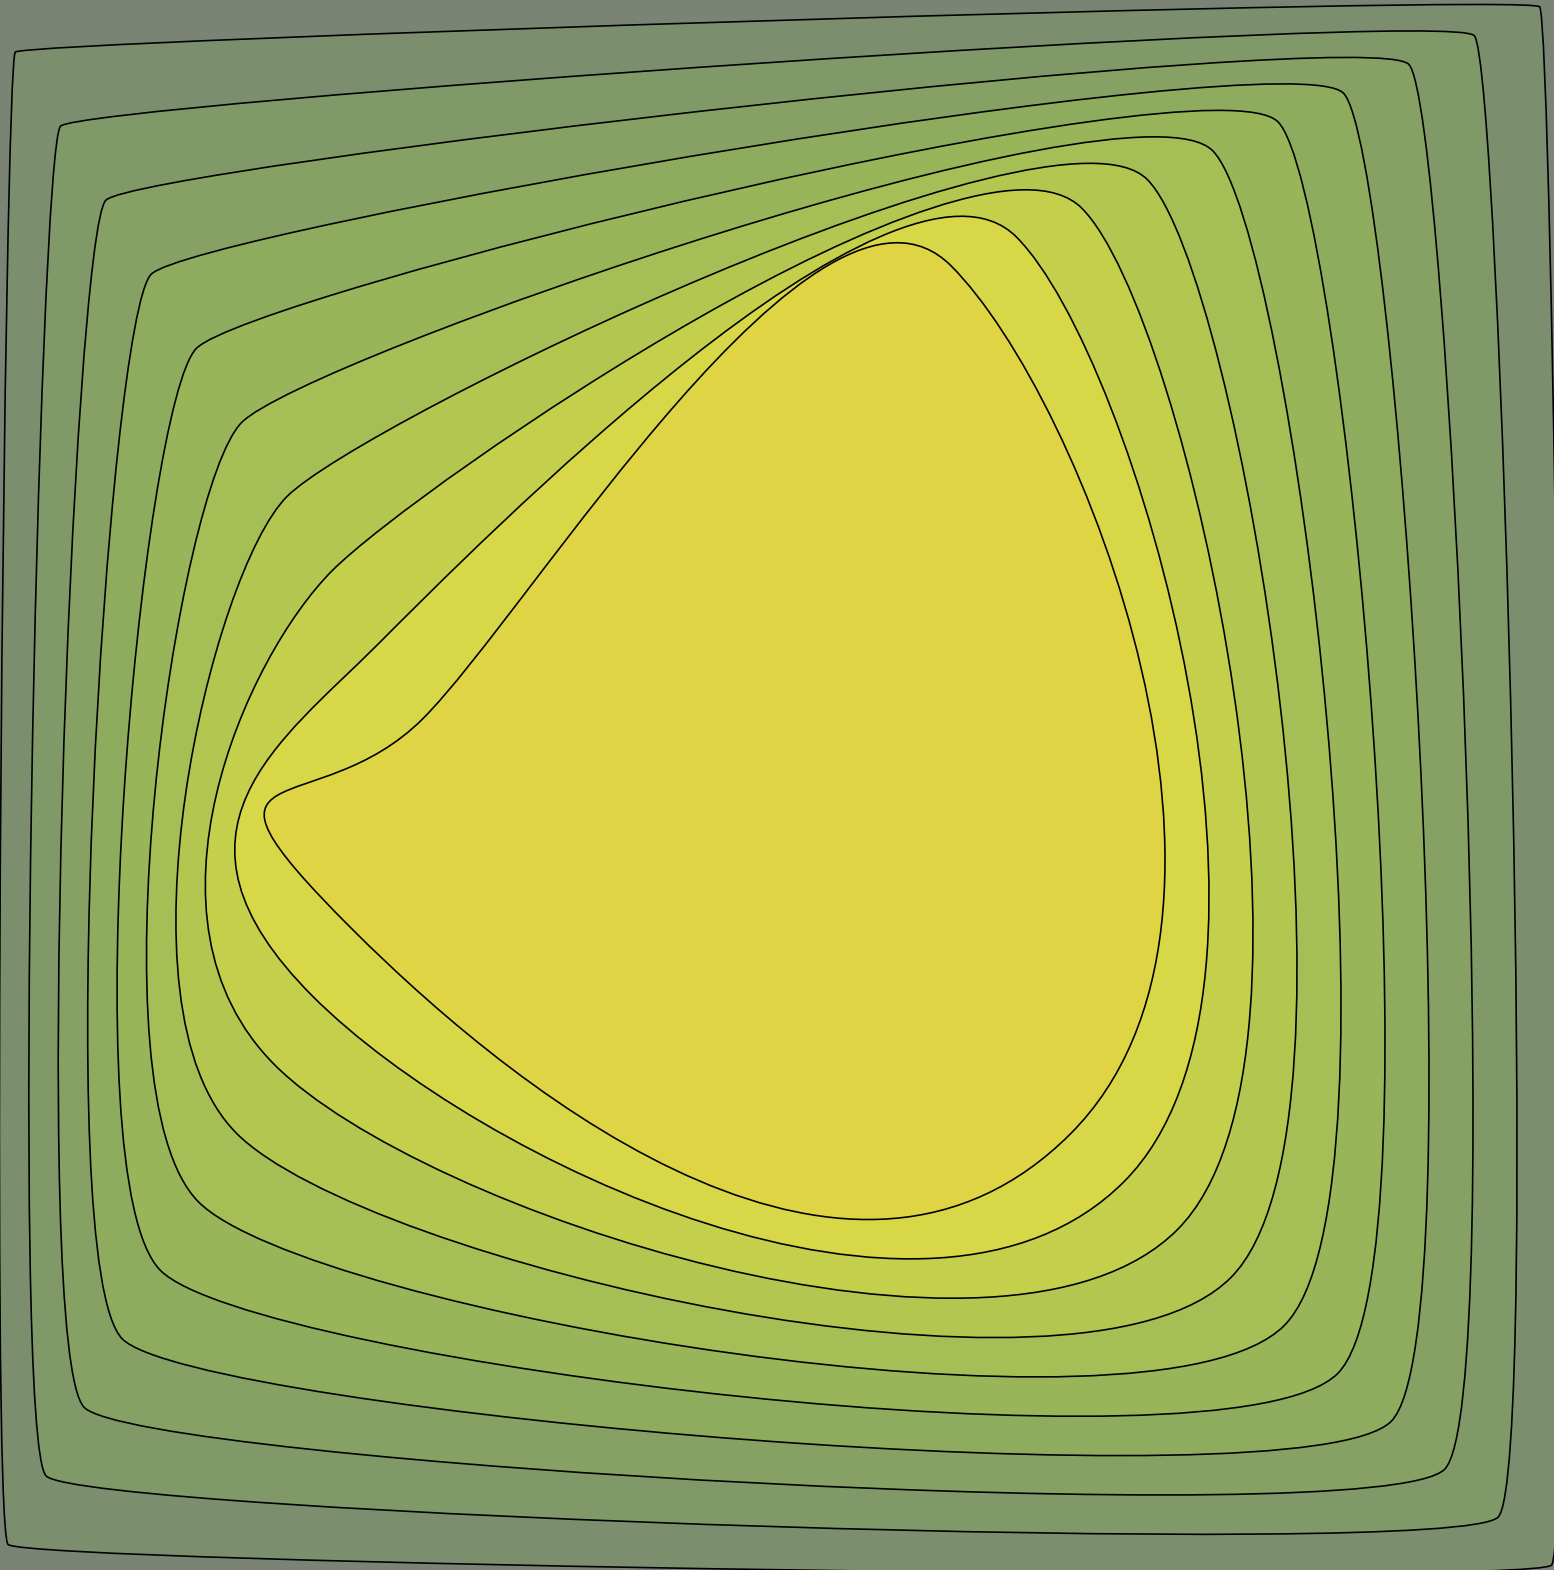

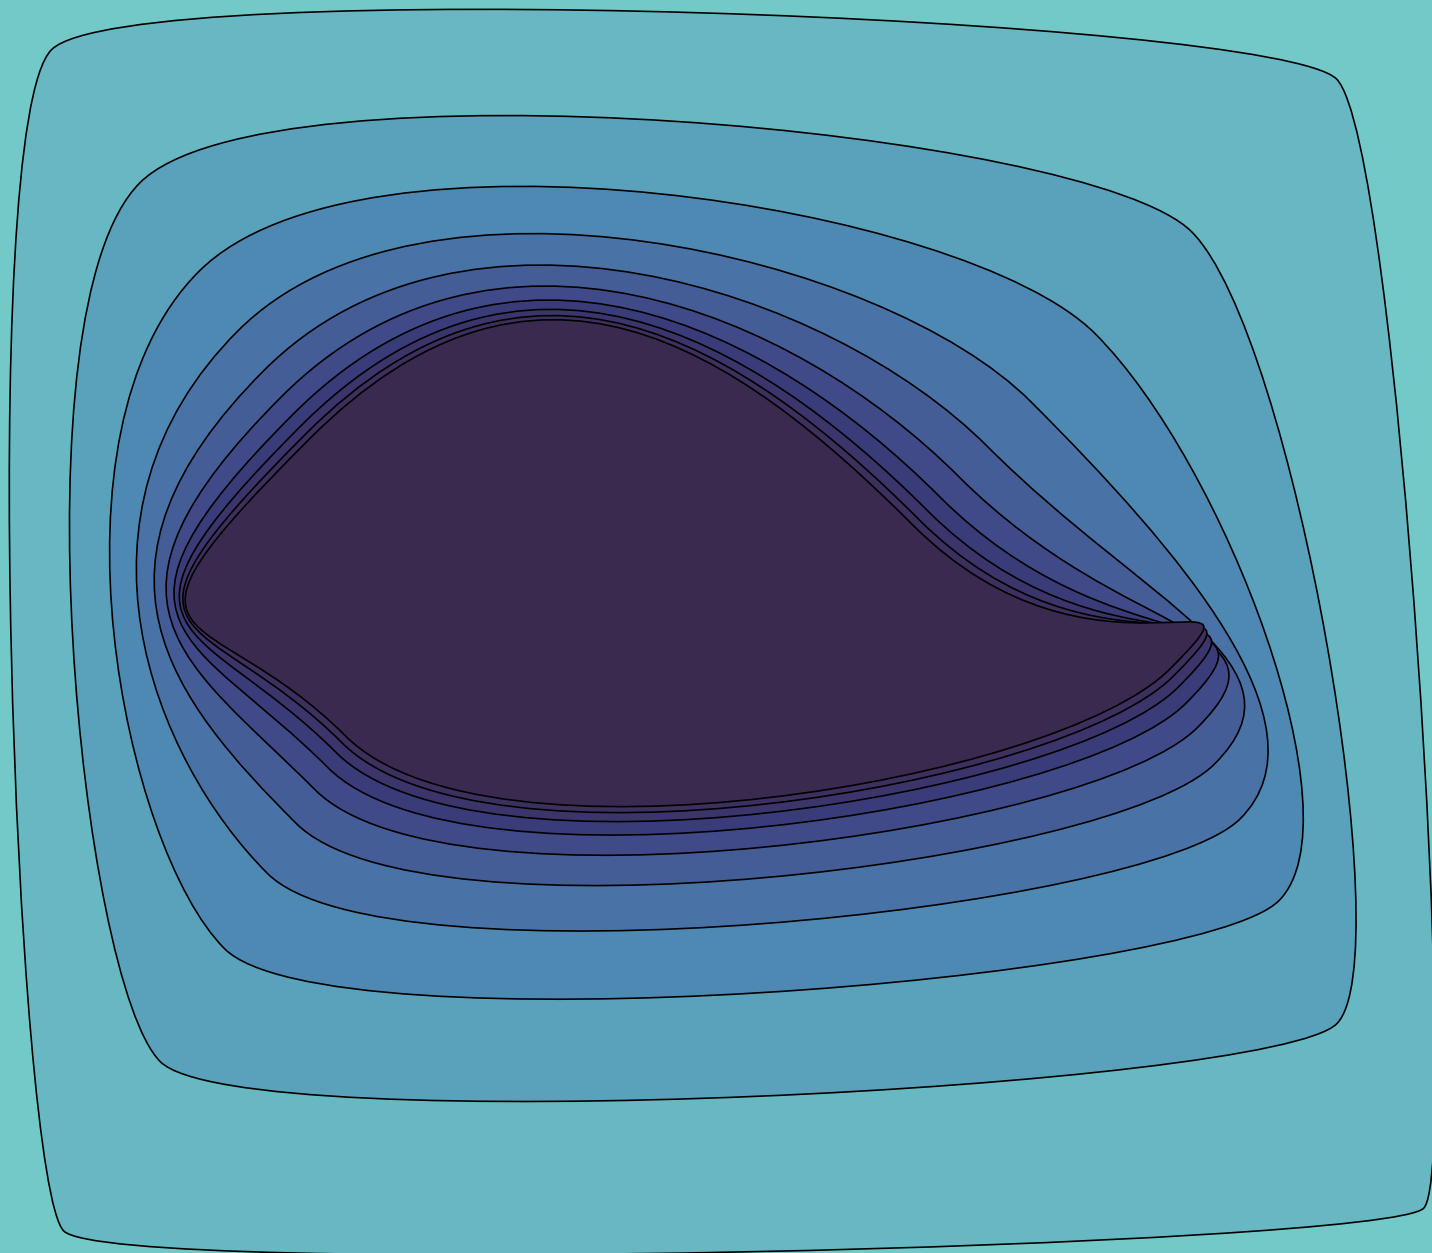

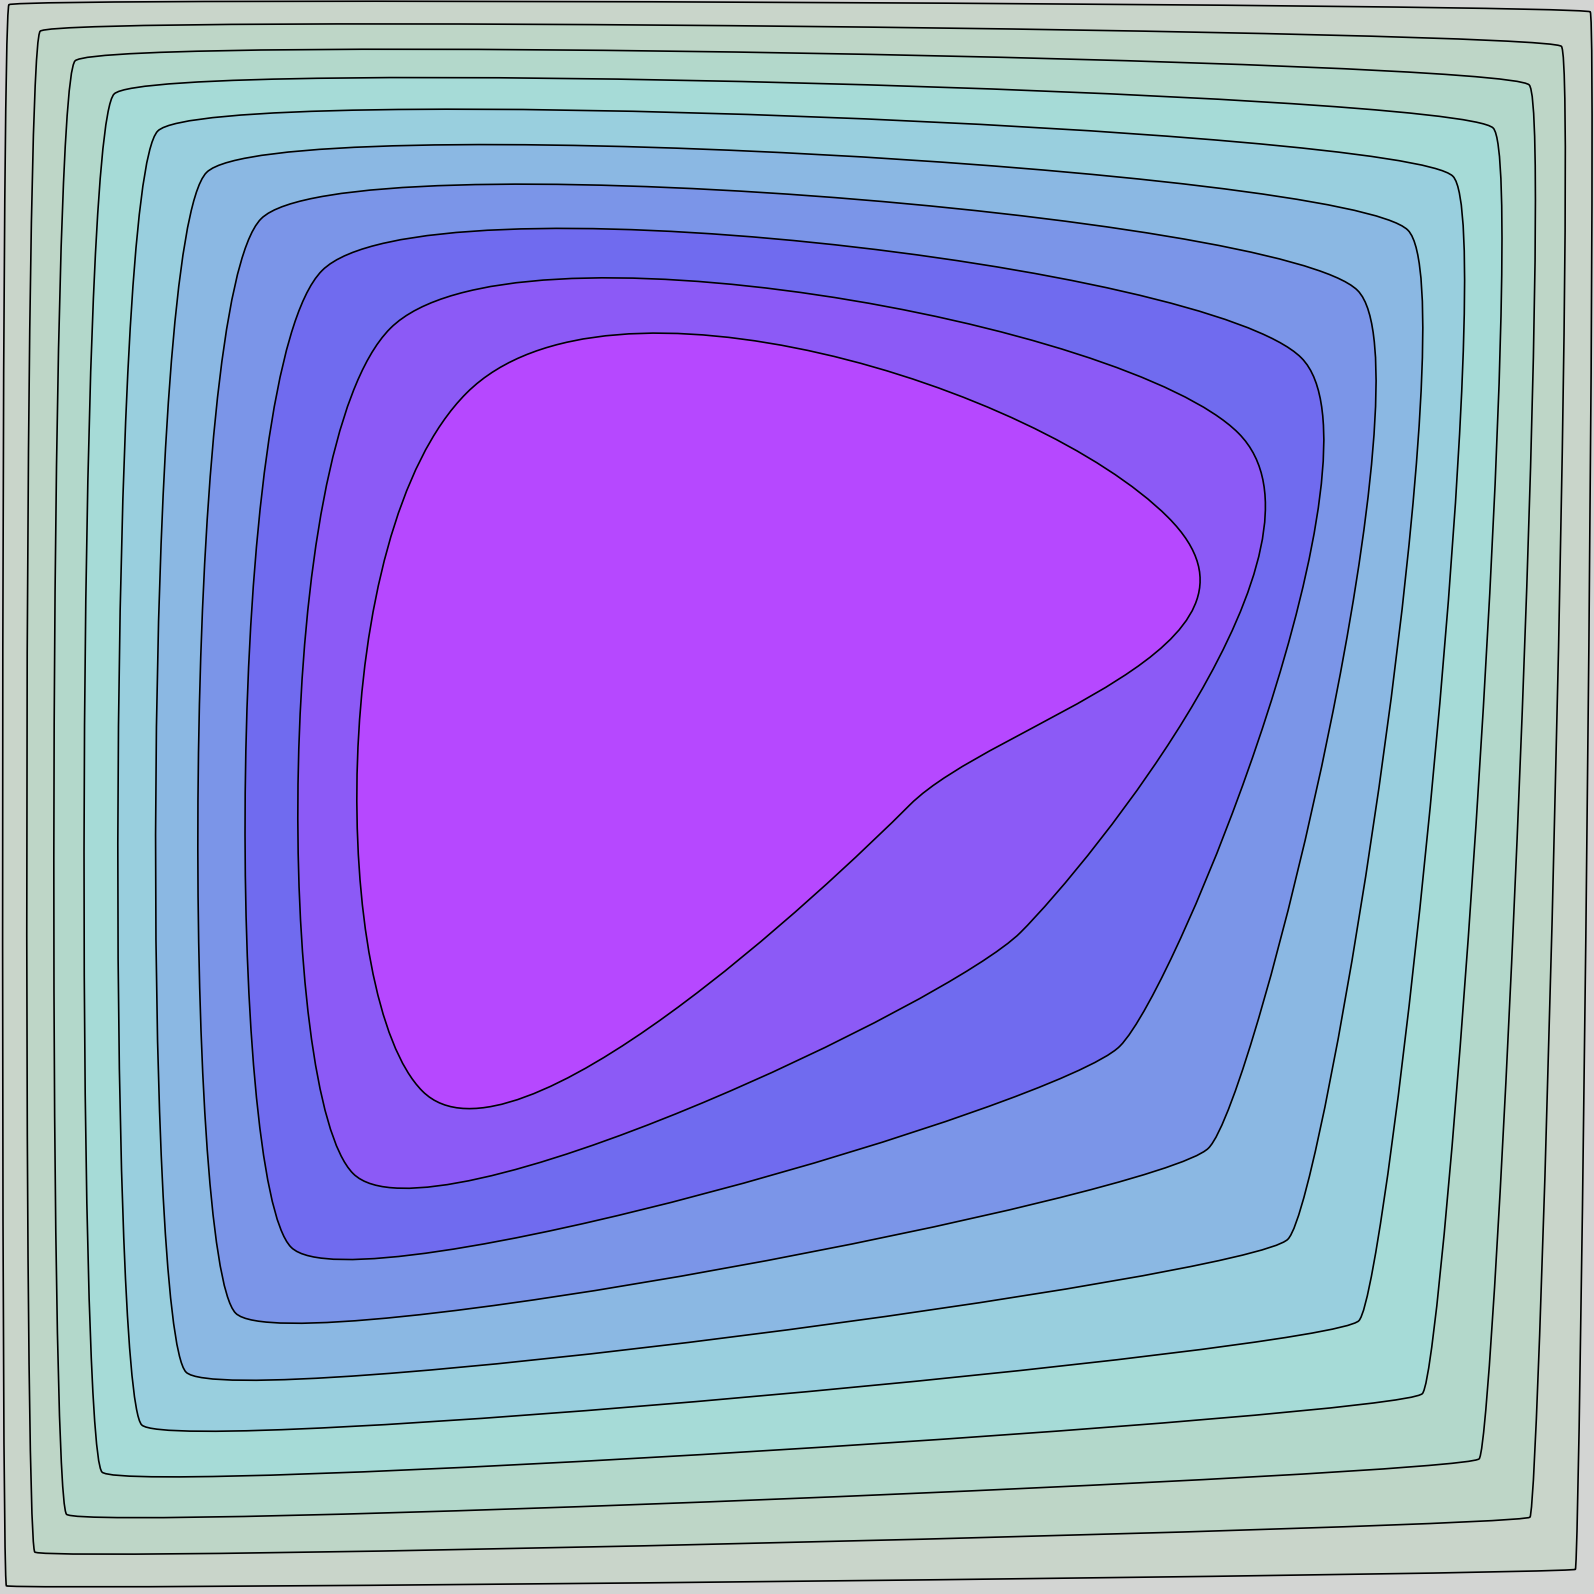

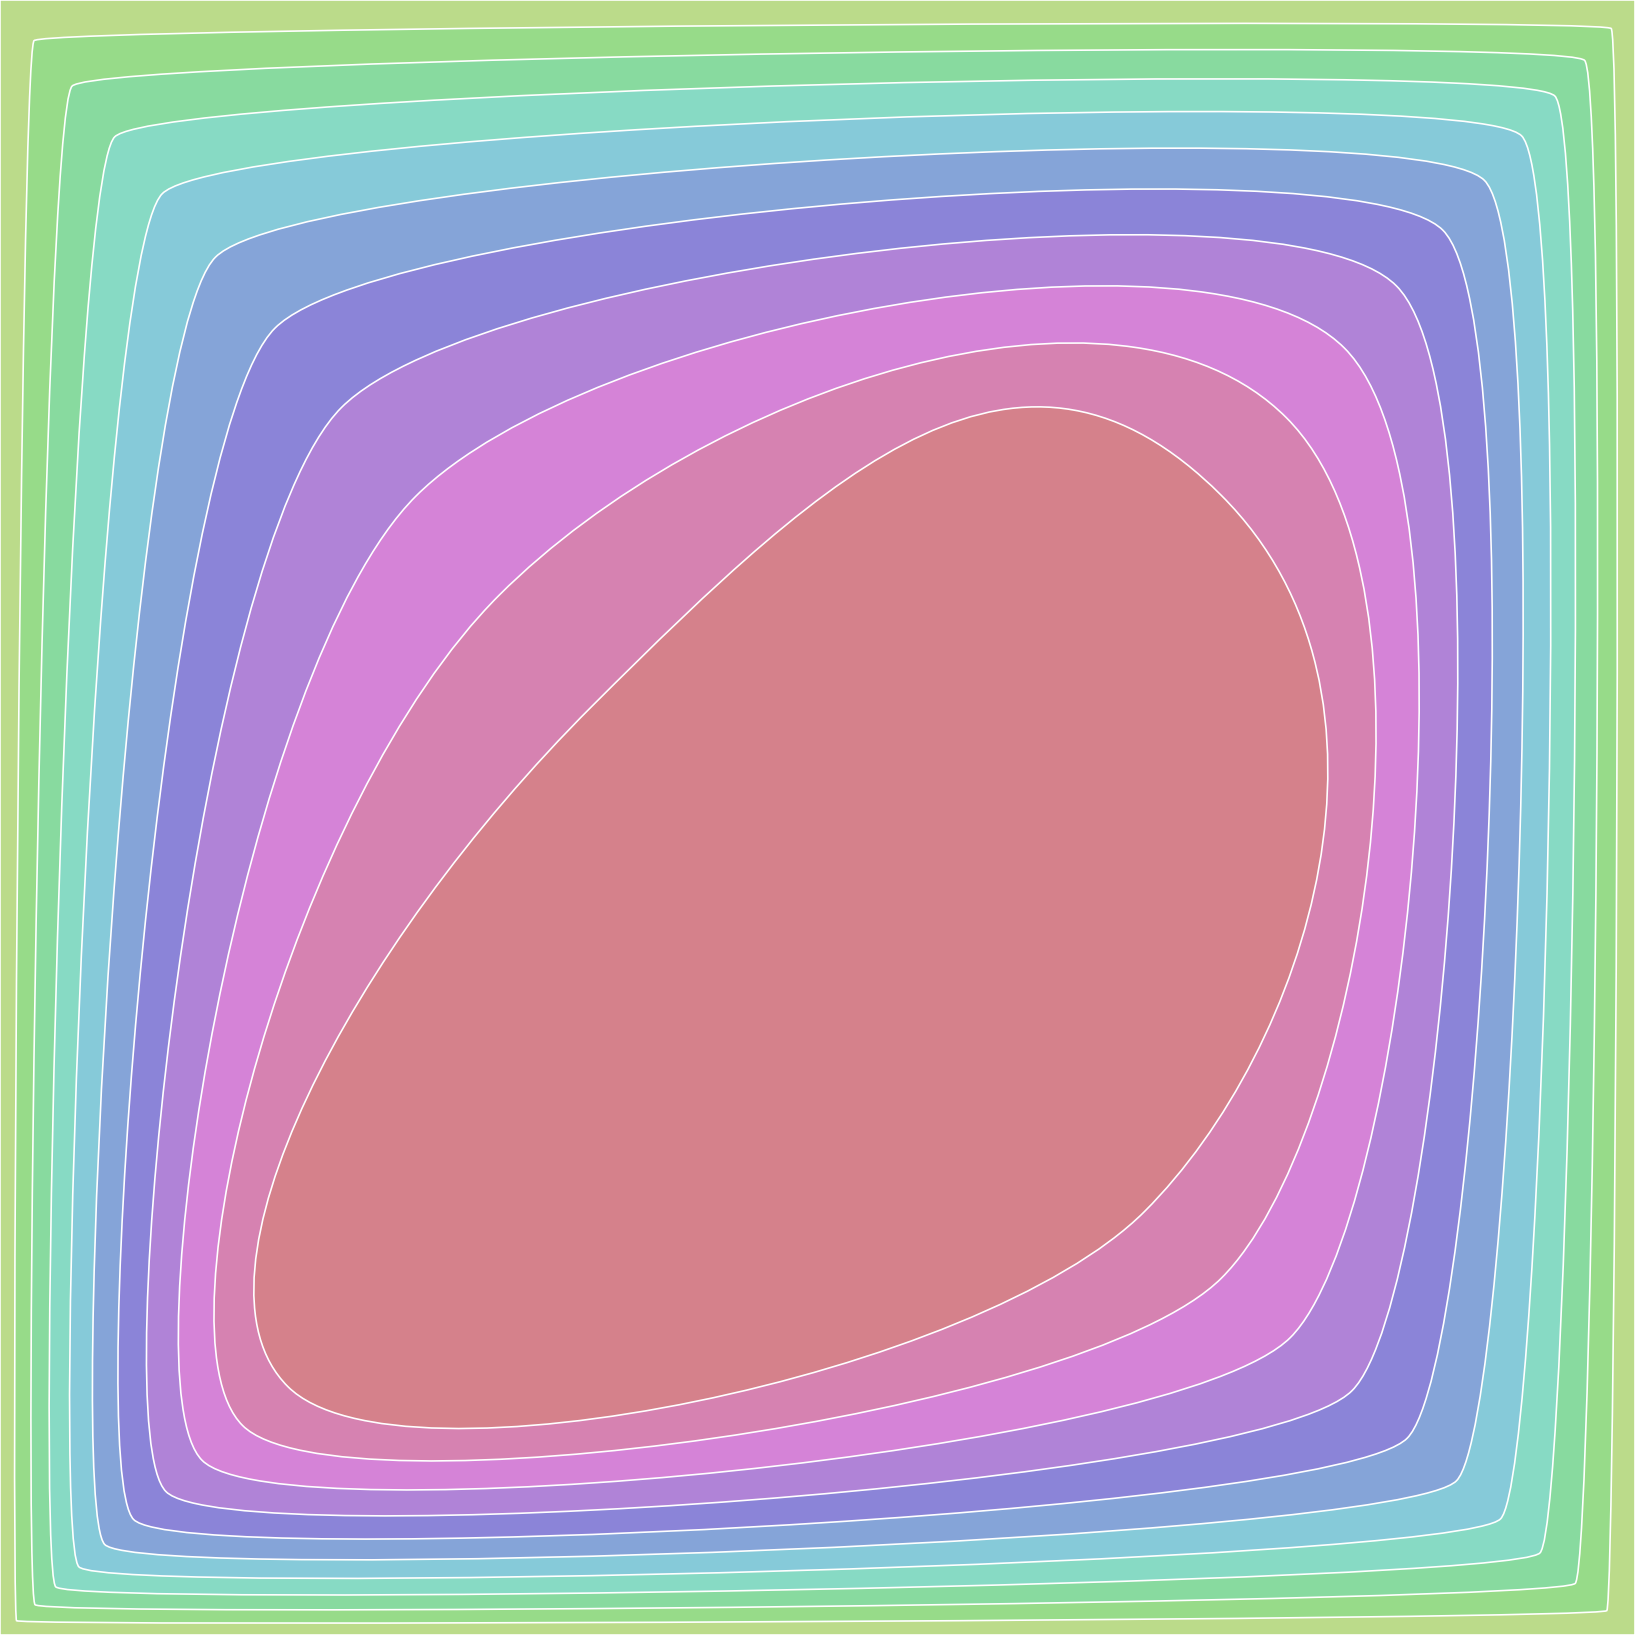

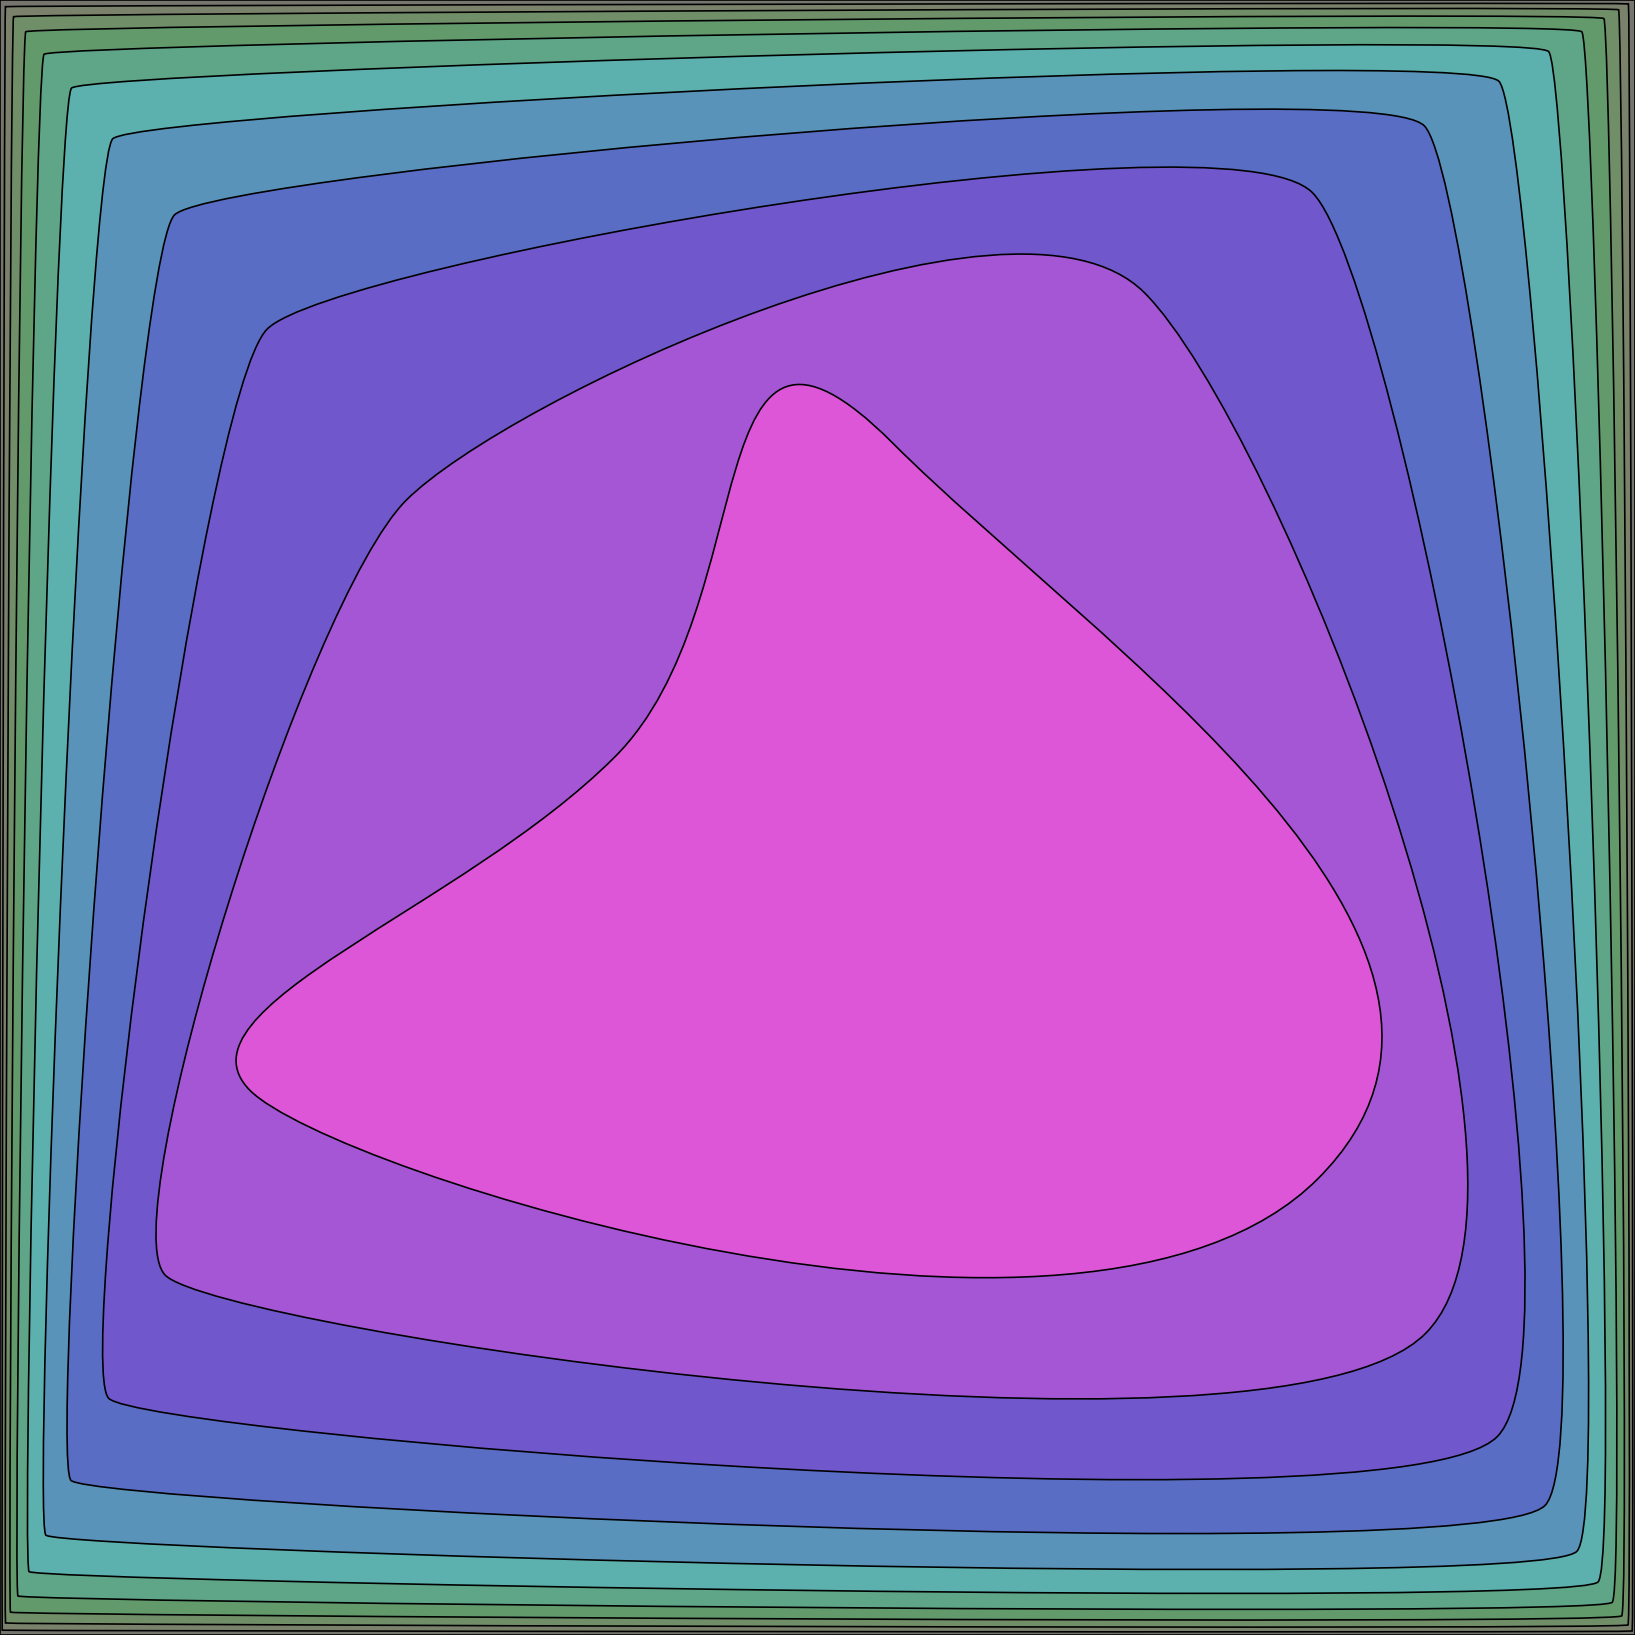

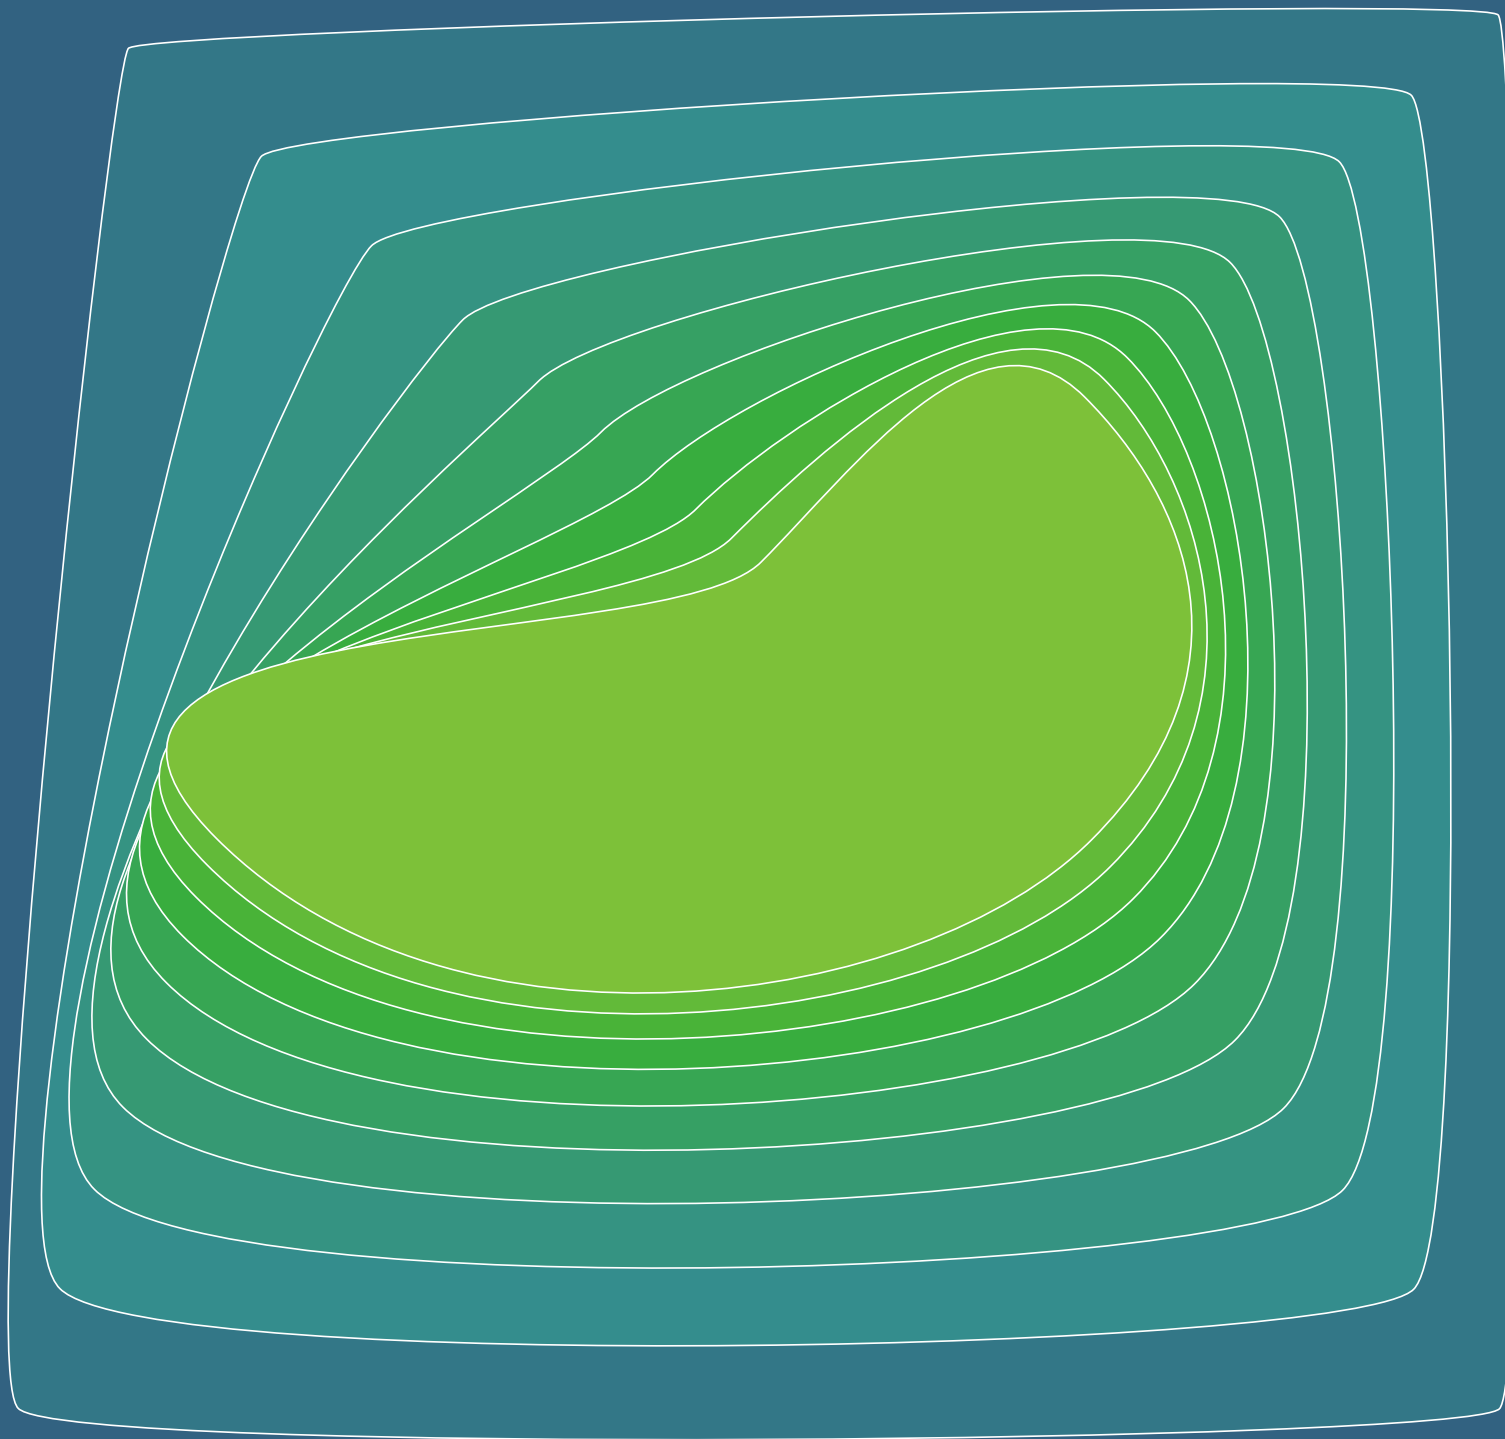

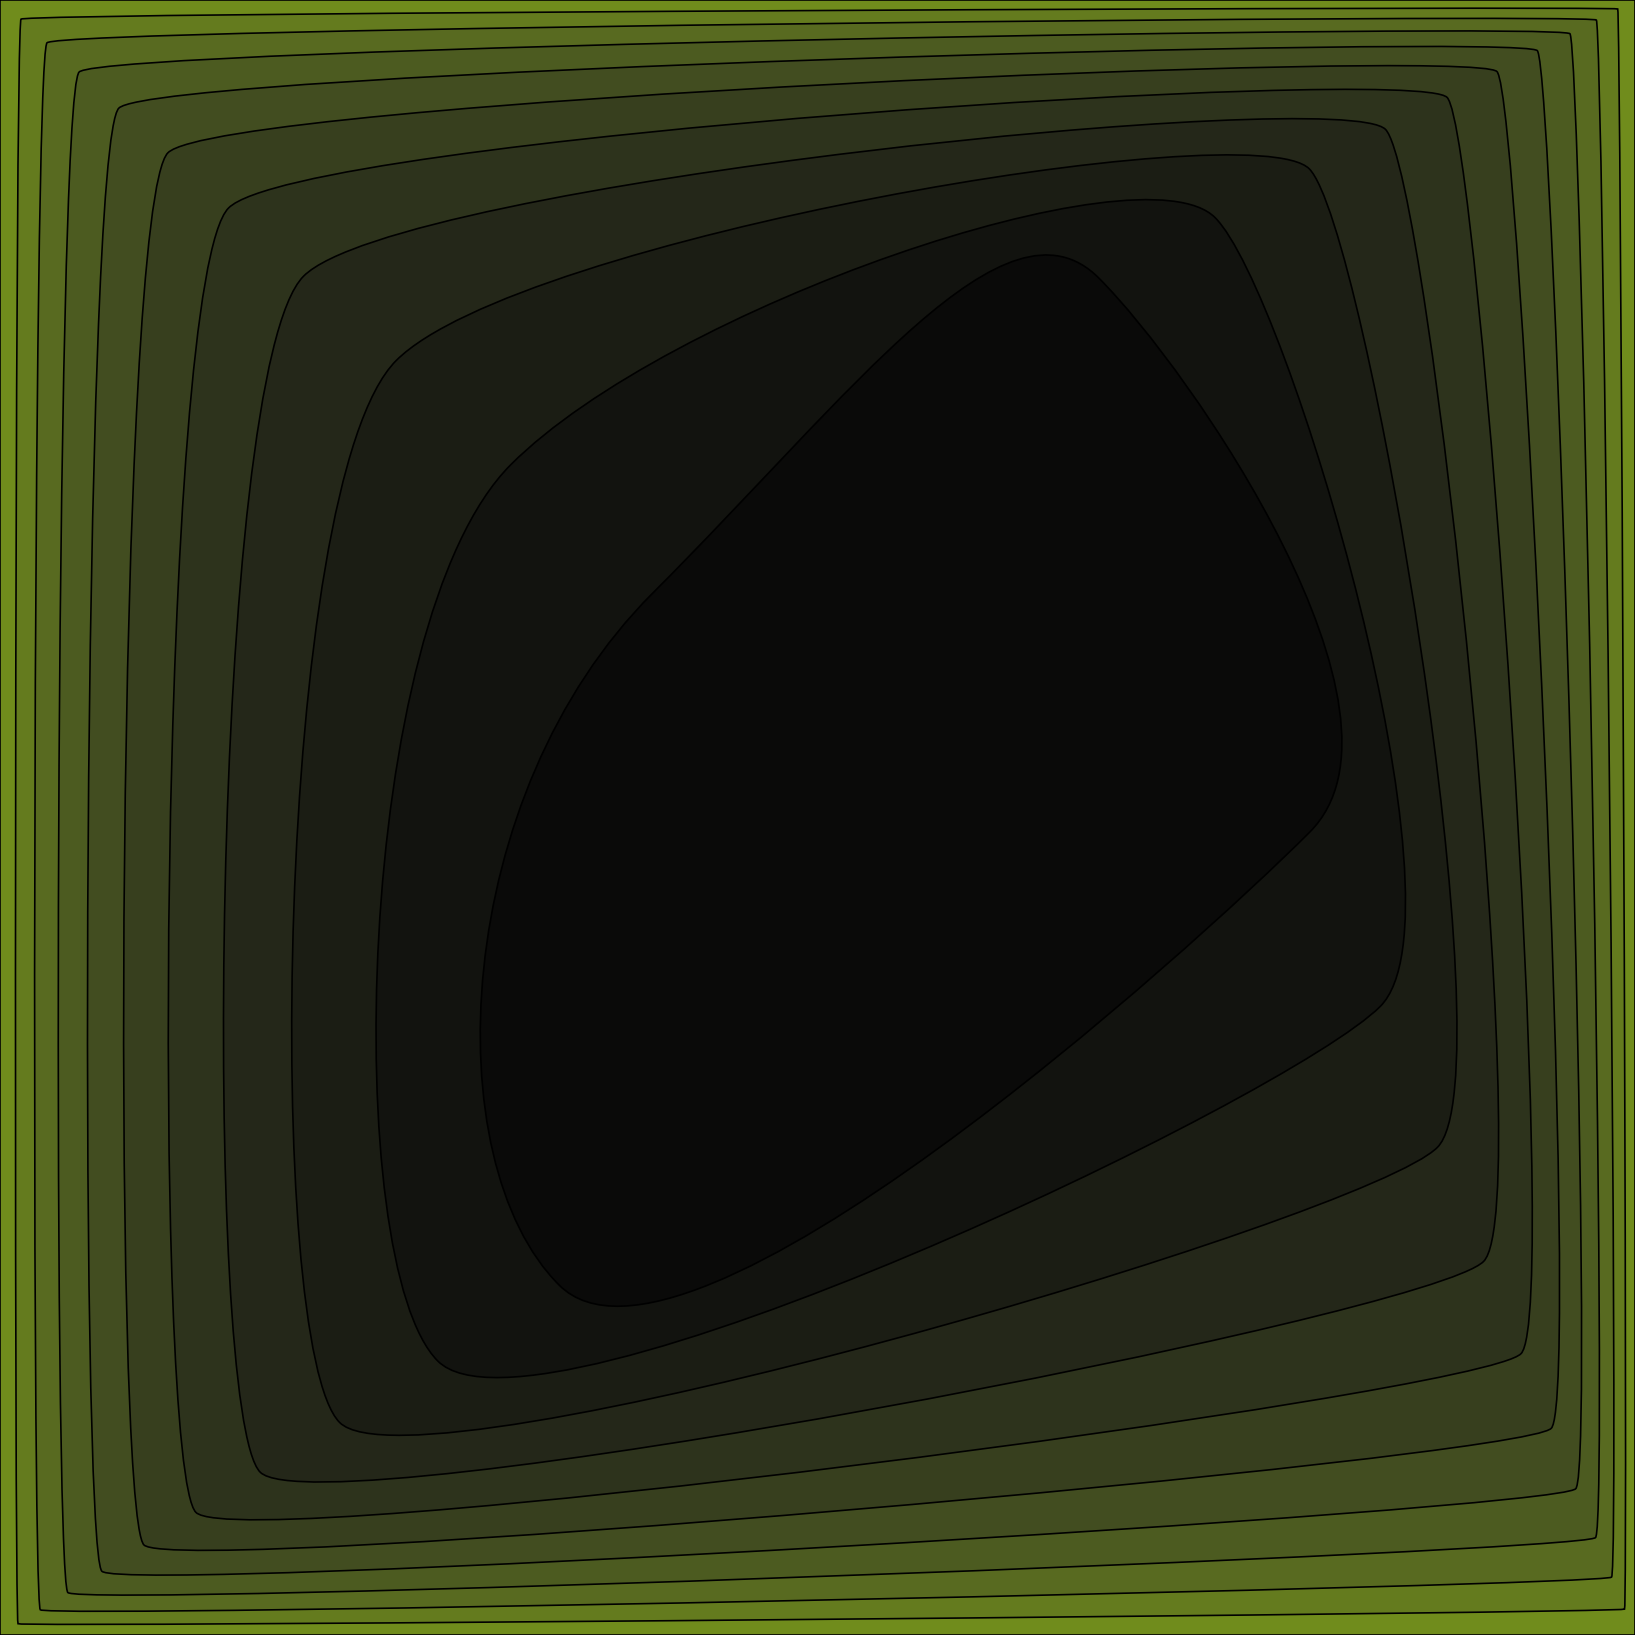

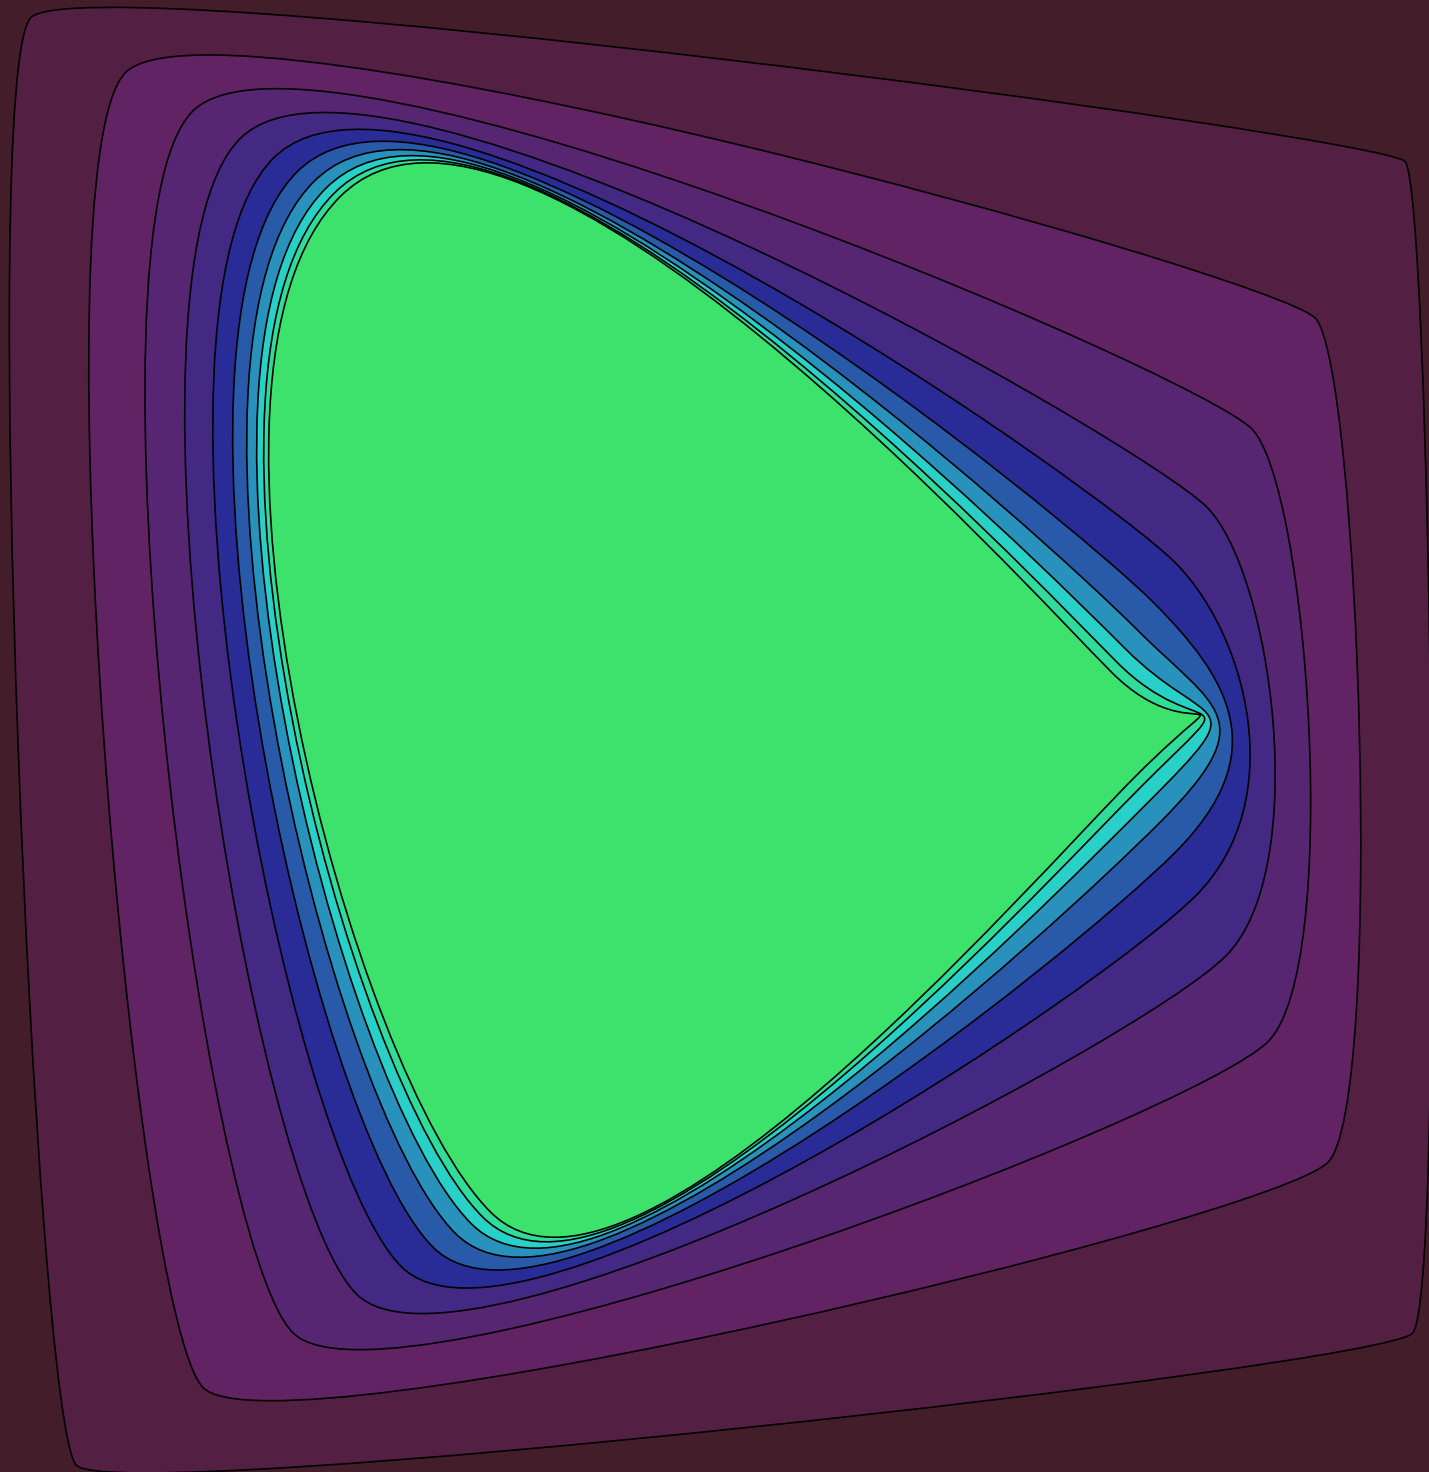

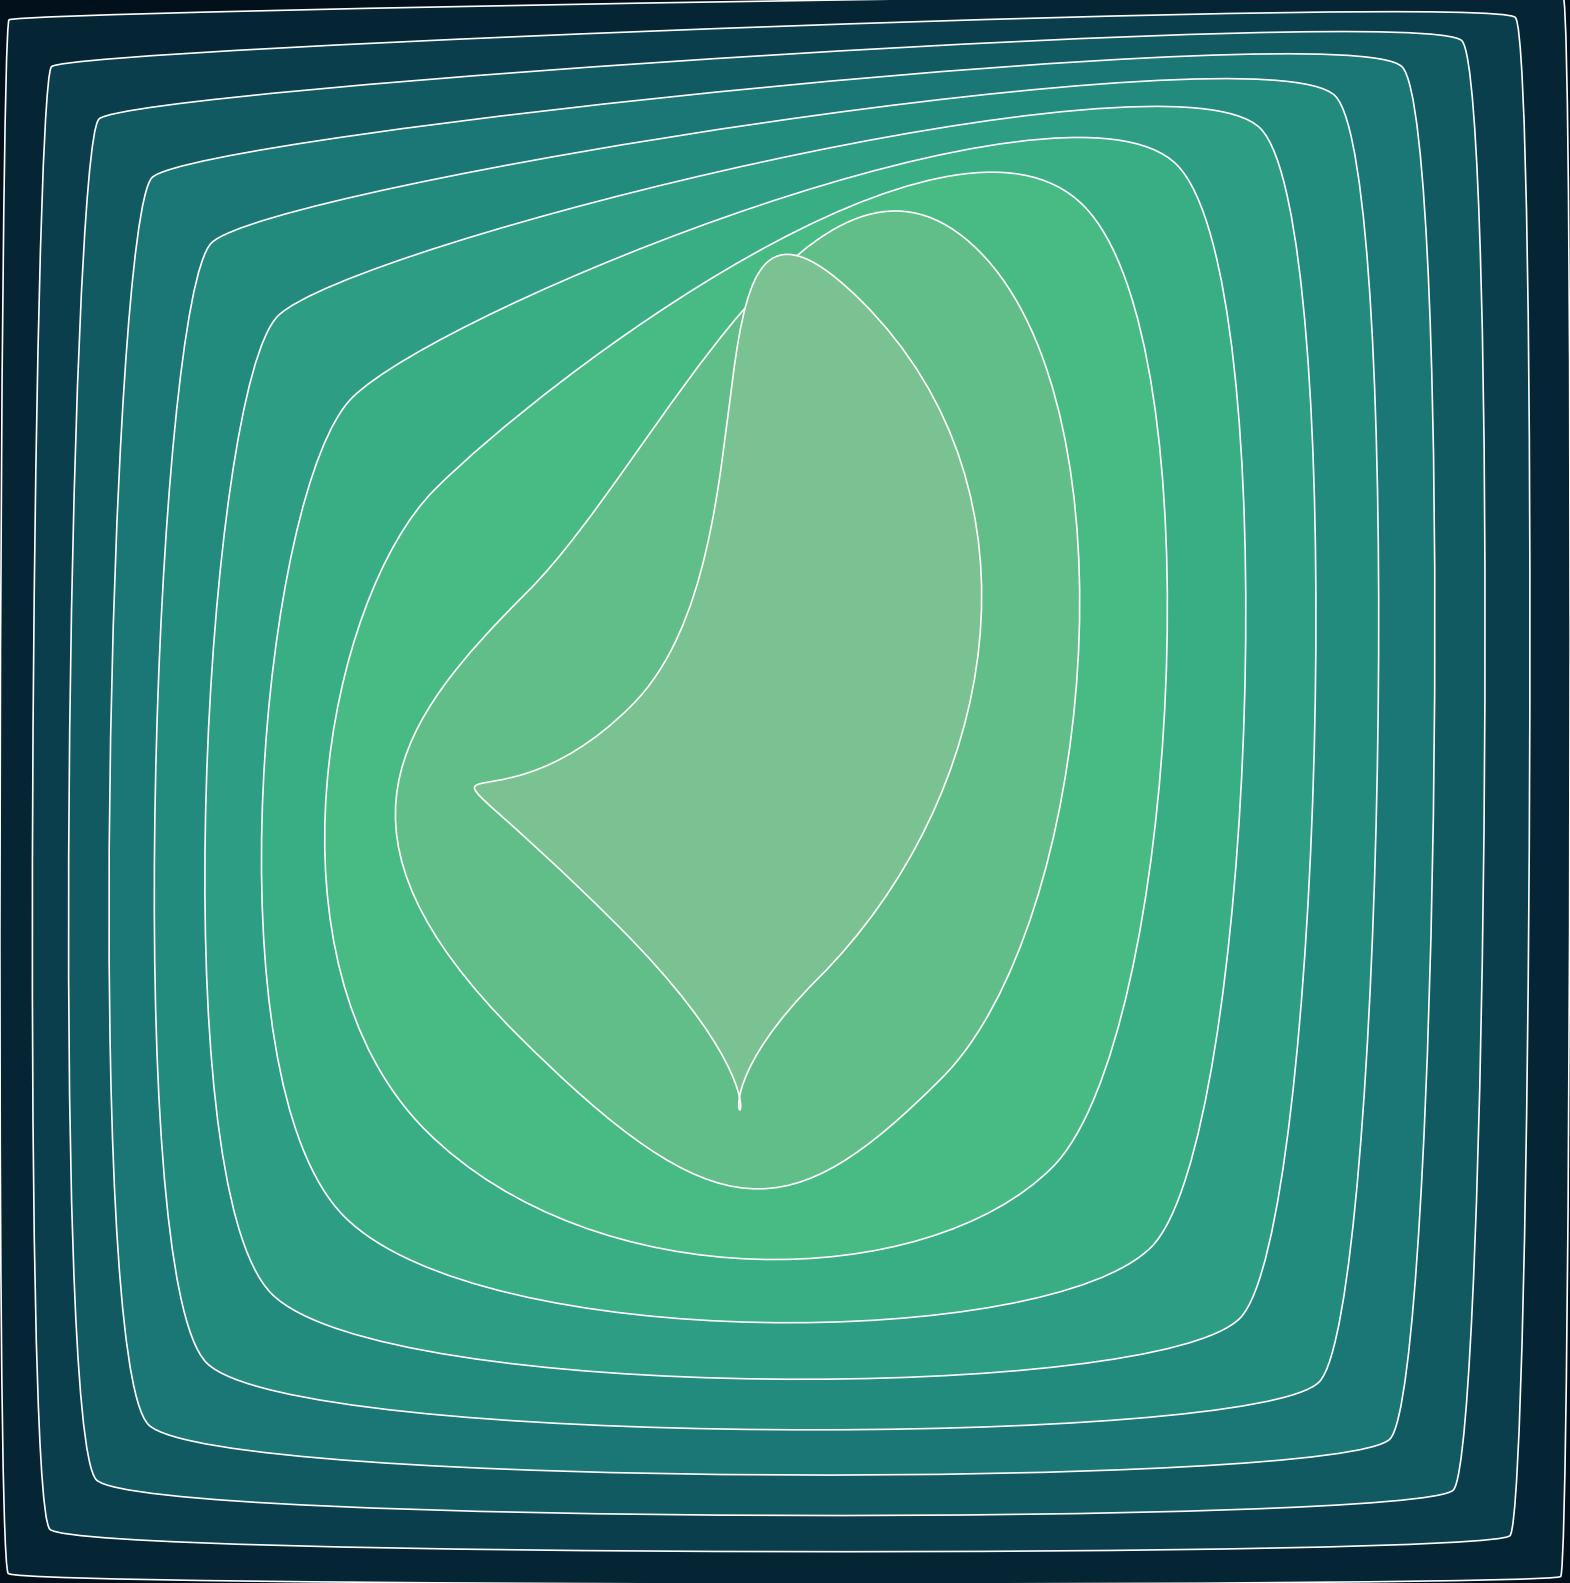

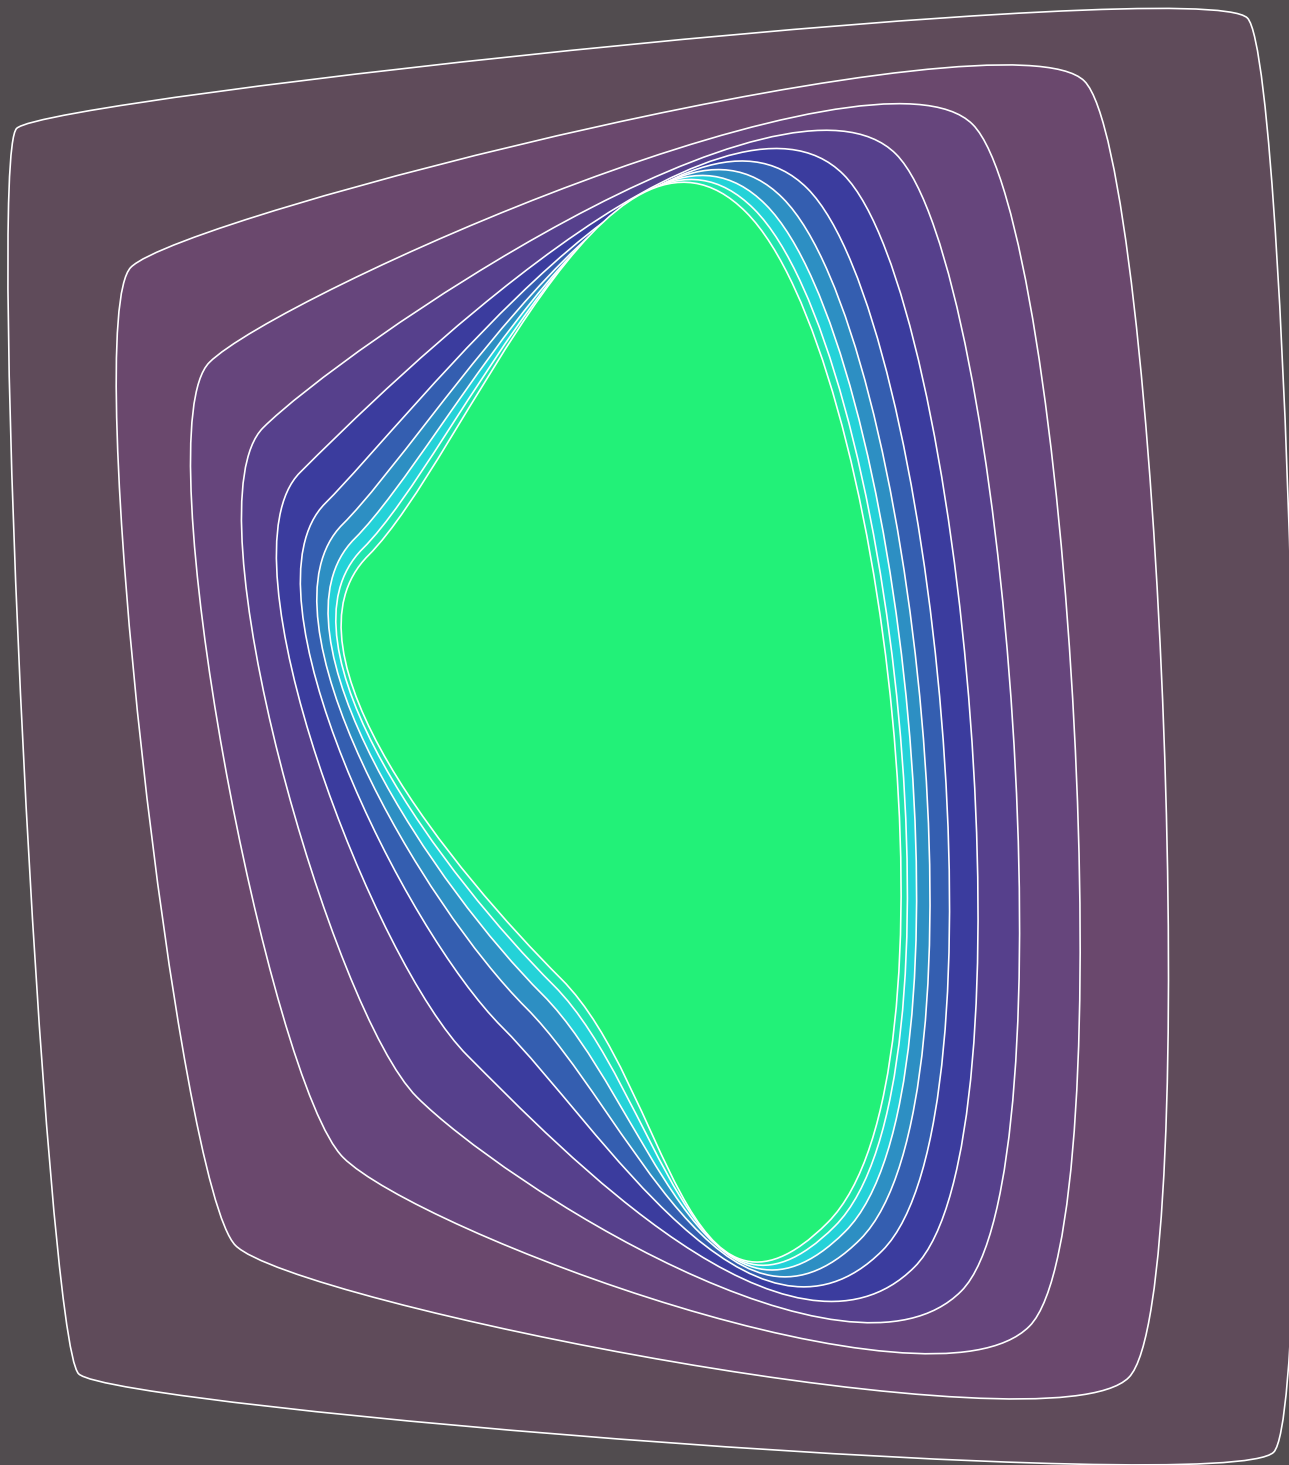

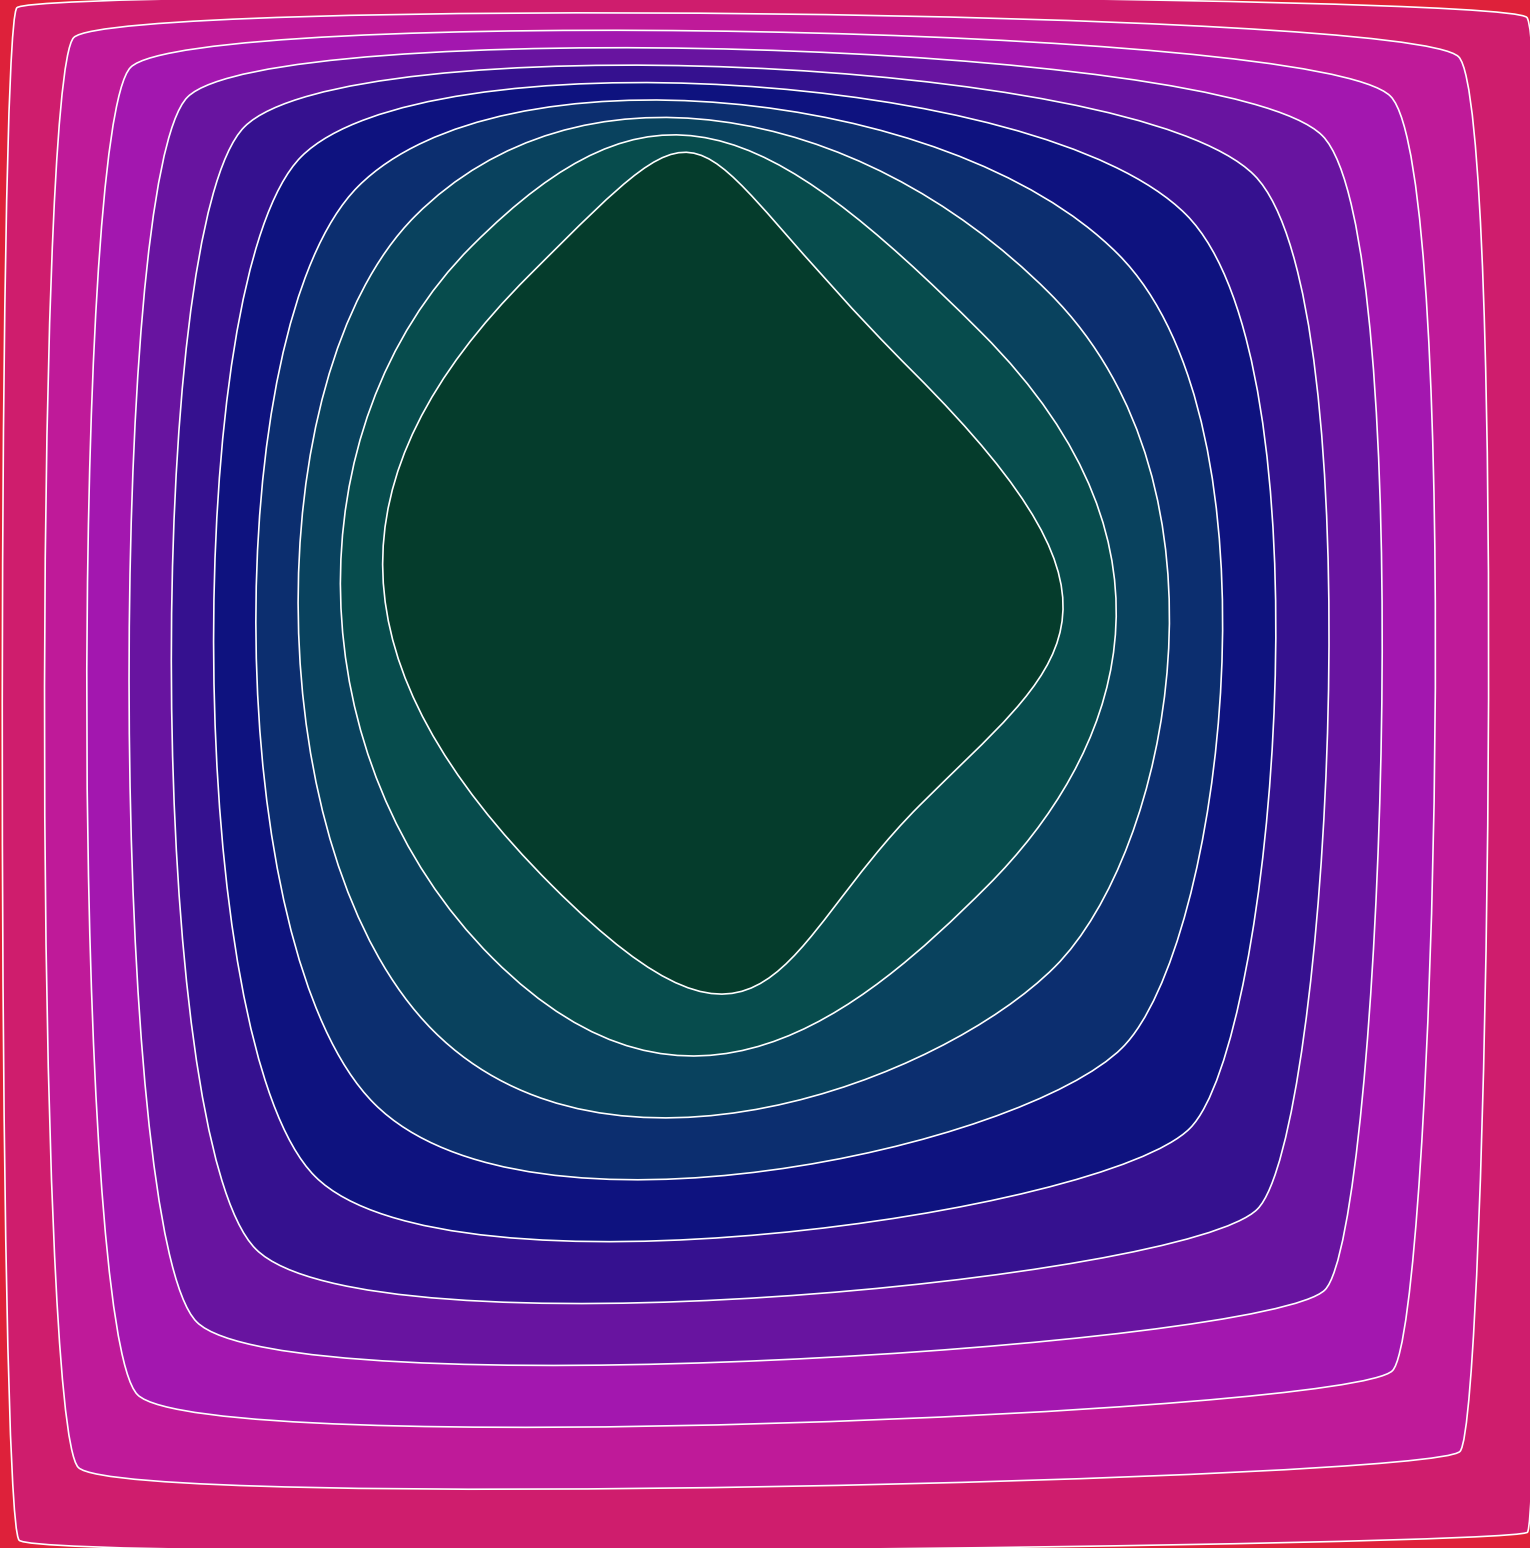

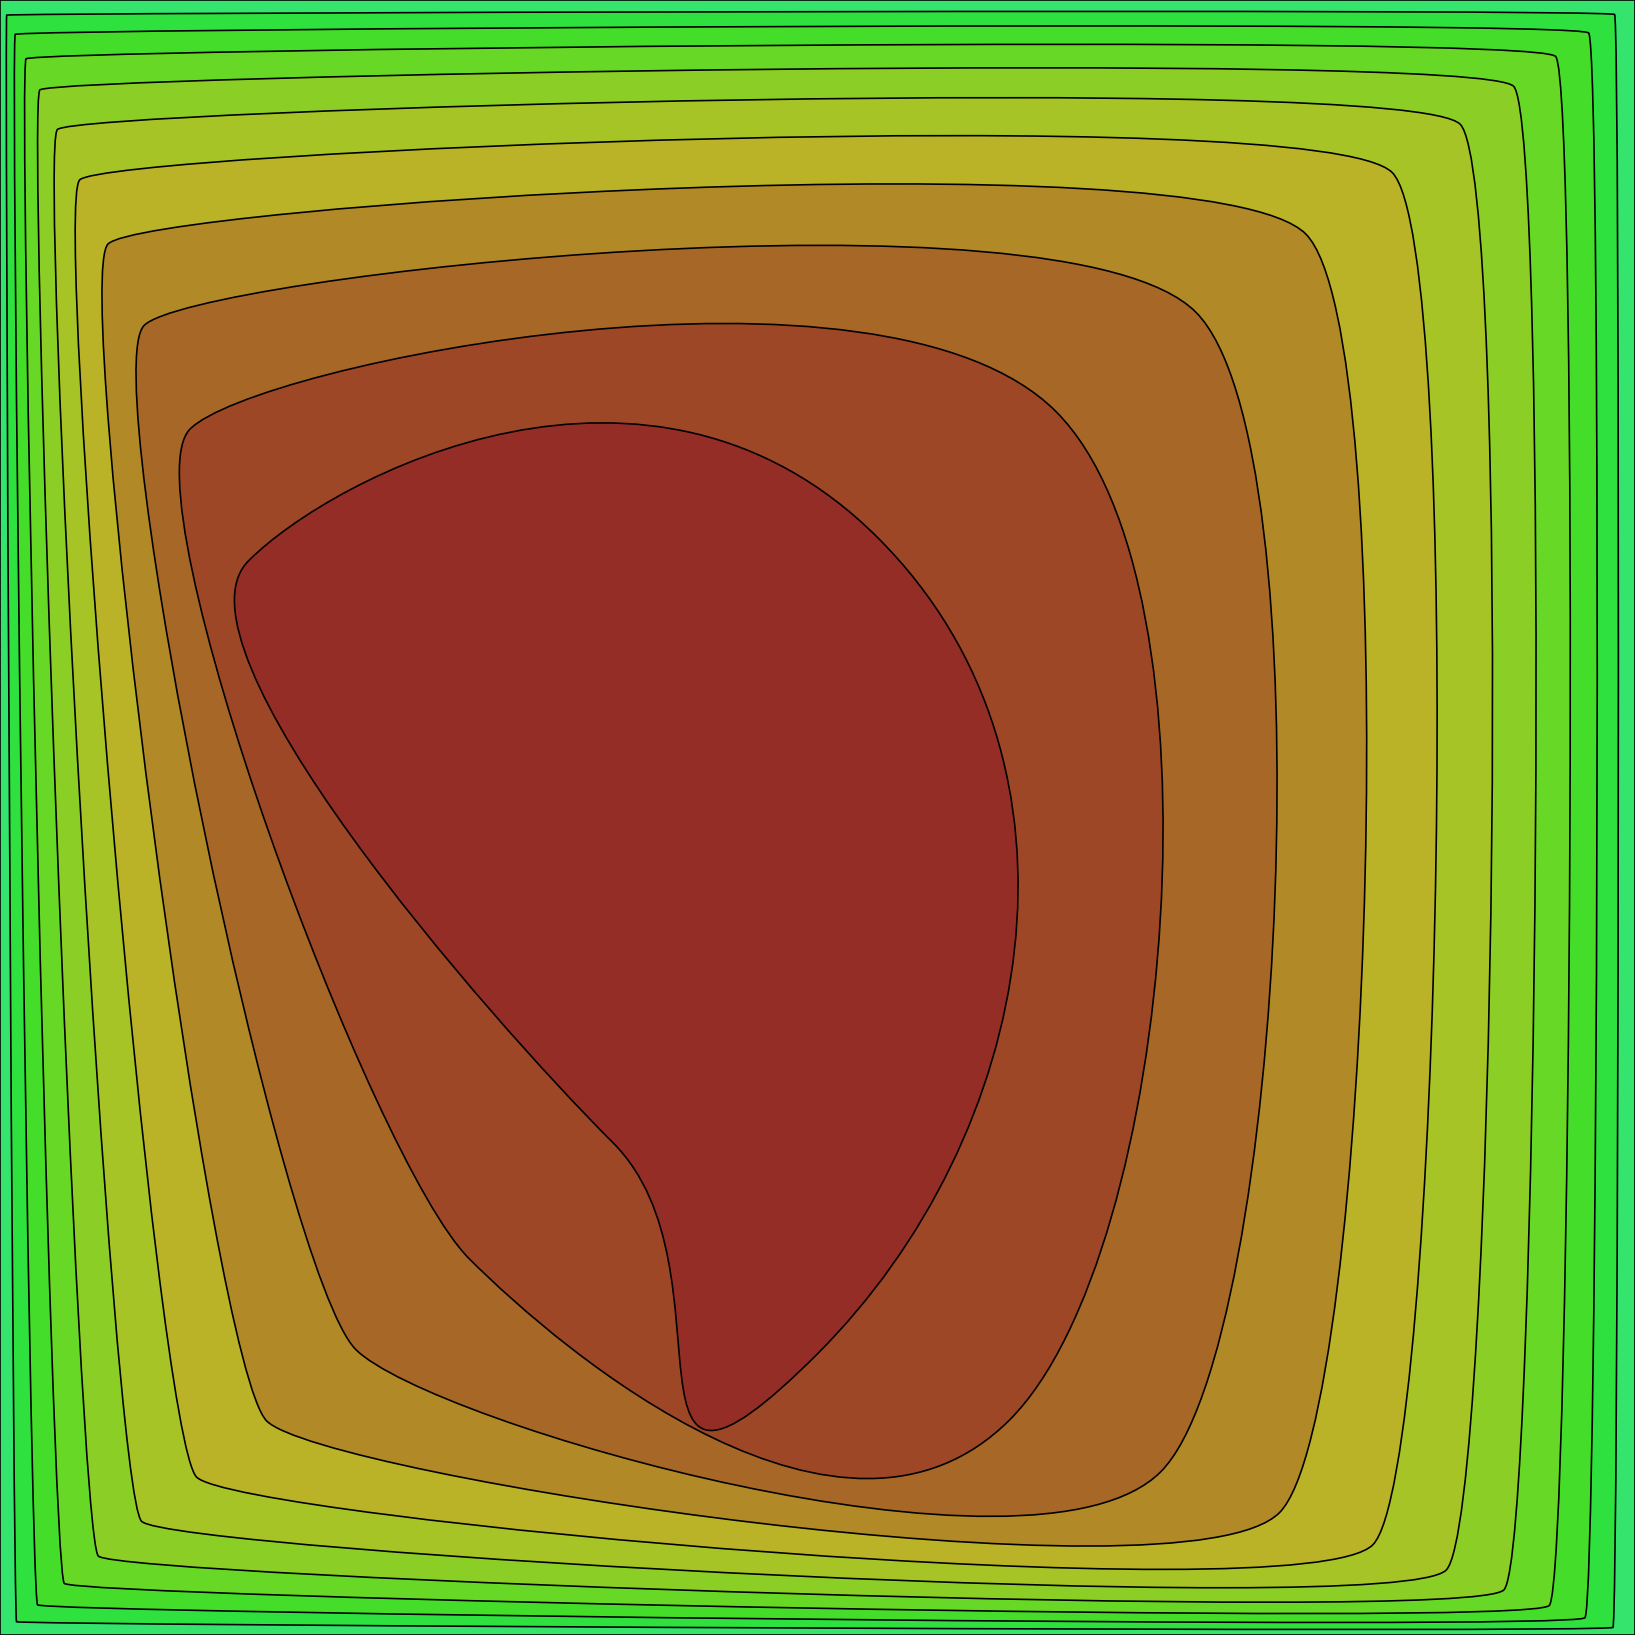

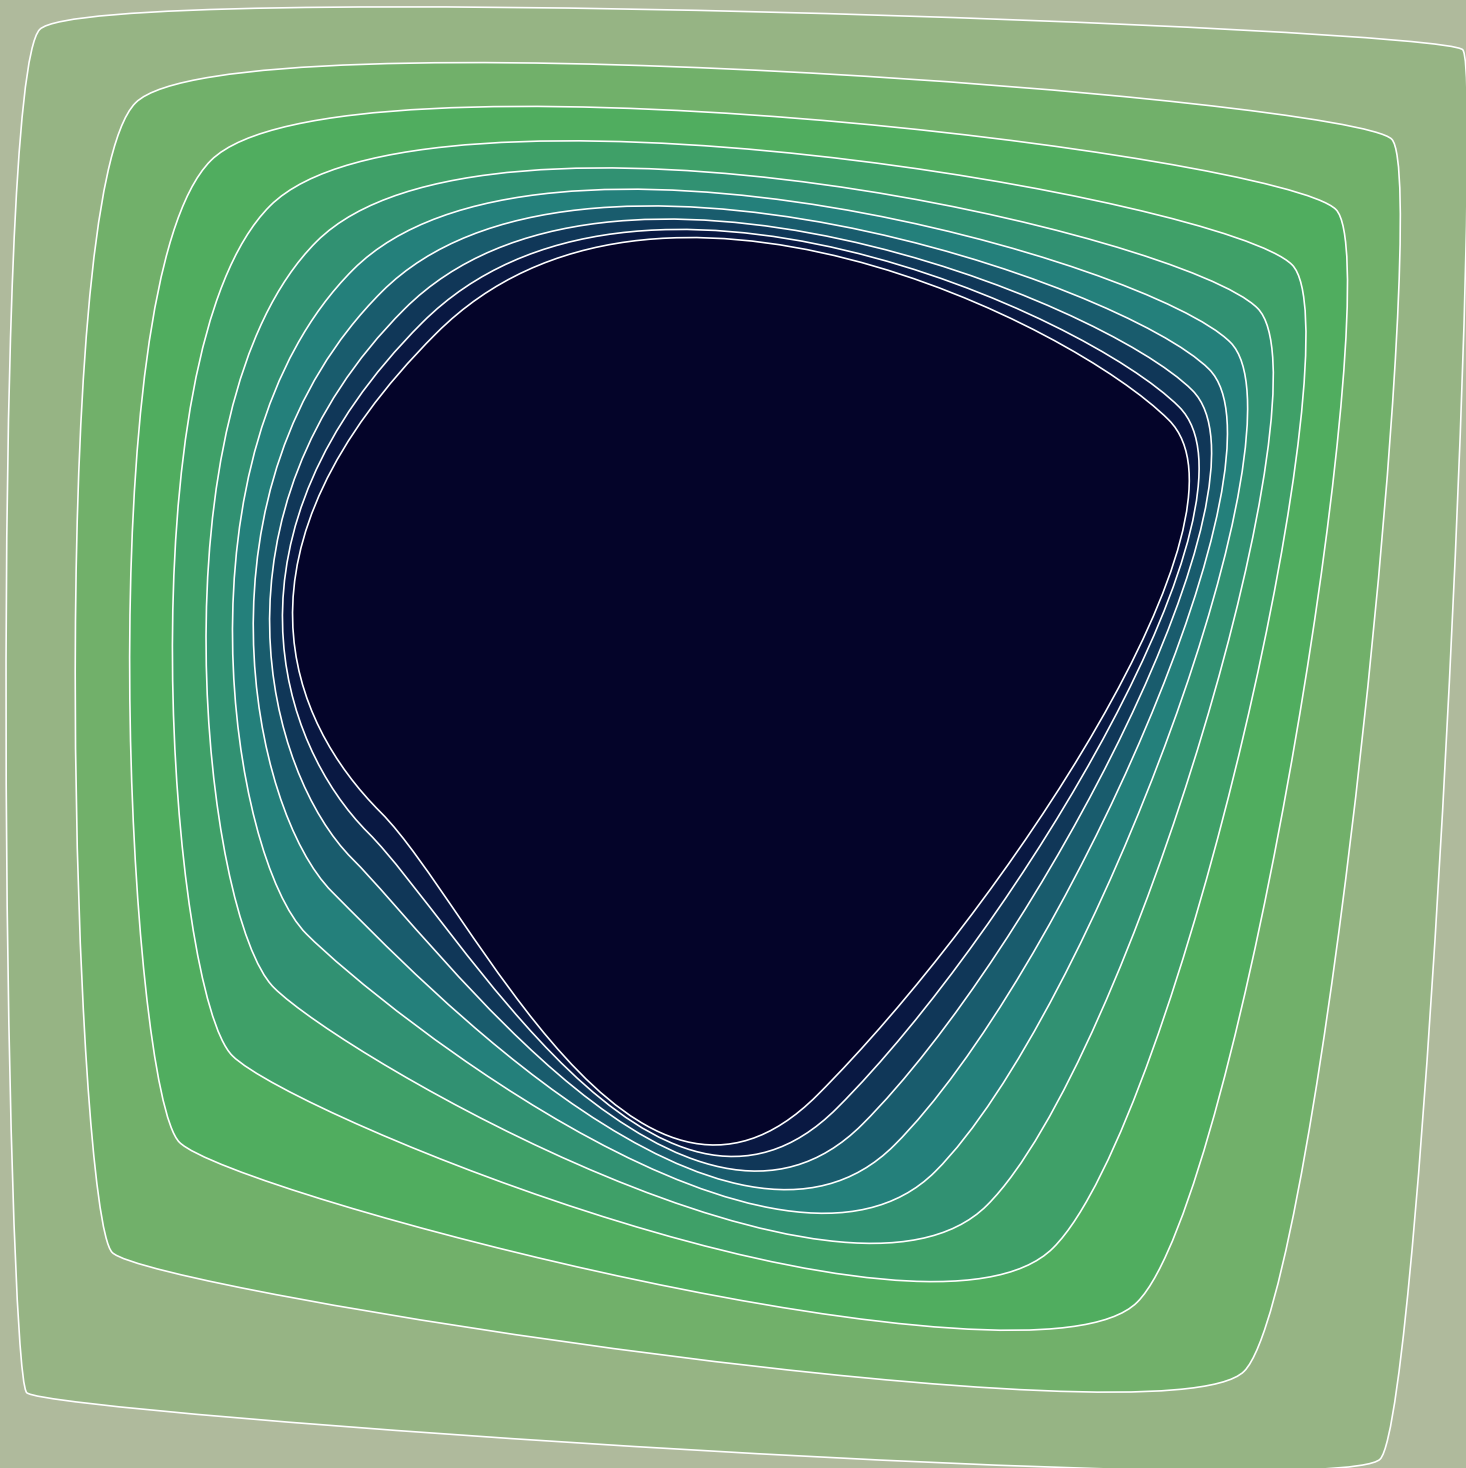

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
